Care Work and Care Jobs for the Future of Decent Work Laura

Addati, International Labour Office, 2018 The report analyses the ways in which unpaid care work is recognised and organised, the extent and quality of care jobs and their impact on the well-being of individuals and society. A key focus of this report is the persistent gender inequalities in households and the labour market, which are inextricably linked with care work. These gender inequalities must be overcome to make care work decent and to ensure a future of decent work for both women and men. The report contains a wealth of original data drawn from over 90 countries and details transformative policy measures in five main areas: care, macroeconomics, labour, social protection and migration. It also presents projections on the potential for decent care job creation offered by remedying current care work deficits and meeting the related targets of the Sustainable Development Goals.

In the Shadow of Death Elizabeth Beck, Sarah Britto, Arlene Andrews, 2007-02-08 The press called Martin's actions a crime spree. Already convicted of armed robbery, Martin was facing the death penalty. In less than two weeks the jury would decide his fate. Terrified that his son would be sentenced to die, Phillip did the only thing he felt he could do: in an act of faith and desperation in his garage with the car exhaust running, Phillip made the consummate sacrifice to spare his son the ultimate punishment. Ironically, his suicide presented Martin's with another chance at life; the jury, moved by Martin's loss, spared his life. Phillip's story-like those of the other parents, siblings, children, and cousins chronicled in this book-vividly illustrates the precarious position family members of capital offenders

occupy in the criminal justice system. At once outsiders and victims, they live in the shadow of death, crushed by trauma, grief, and helplessness. In this penetrating account of guilt and innocence, shame and triumph, devastating loss and ultimate redemption, the voices of these family members add a new dimension to debates about capital punishment and how communities can prevent and address crime. Restorative justice theory, which views violent crime as an extreme violation of relationships; searches for ways to hold offenders accountable; and meets the needs of victims and communities torn apart by the crime, organizes these narratives and integrates offenders' families into the process of transforming conflict and promoting justice and healing for all. What emerges from hundreds of hours' worth of in-depth interviews with family members of offenders and victims, legal teams, and leaders in the abolition and restorative justice movements is a vision of justice strongly rooted in the social fabric of communities. Showing that forgiveness and recovery are possible in the wake of even the most heinous crimes, while holding victims' stories sacred, this eye-opening book bridges the pain of living in the shadow of death with the possibility of a reparative form of justice. Anyone working with victims, offenders, and their families—from lawyers and social workers to mediators and activists—will find this riveting work indispensable to their efforts.

Straight Man Richard Russo, 1998-06-09 Hilarious and true-to-life, witty, compassionate, and impossible to put down, *Straight Man* follows Hank Devereaux through one very bad week in this novel from the Pulitzer Prize-winning author of *Empire Falls*. • Now the AMC Original Series *Lucky Hank*. William Henry Devereaux, Jr., is the reluctant

chairman of the English department of a badly underfunded college in the Pennsylvania rust belt. Devereaux's reluctance is partly rooted in his character—he is a born anarchist—and partly in the fact that his department is more savagely divided than the Balkans. In the course of a single week, Devereaux will have his nose mangled by an angry colleague, imagine his wife is having an affair with his dean, wonder if a curvaceous adjunct is trying to seduce him with peach pits, and threaten to execute a goose on local television. All this while coming to terms with his philandering father, the dereliction of his youthful promise, and the ominous failure of certain vital body functions. In short, Straight Man is classic Russo—side-splitting, poignant, compassionate, and unforgettable. Look for Everybody's Fool, available now, and Somebody's Fool, coming soon.

Revelation, Resistance, and Mormon Polygamy Merina Smith, 2013-05-15 In *Revelation, Resistance, and Mormon Polygamy*, historian Merina Smith explores the introduction of polygamy in Nauvoo, a development that unfolded amid scandal and resistance. Smith considers the ideological, historical, and even psychological elements of the process and captures the emotional and cultural detail of this exciting and volatile period in Mormon history. She illuminates the mystery of early adherents' acceptance of such a radical form of marriage in light of their dedication to the accepted monogamous marriage patterns of their day. When Joseph Smith began to reveal and teach the doctrine of plural marriage in 1841, even stalwart members like Brigham Young were shocked and confused. In this thoughtful study, Smith argues that the secret introduction of plural marriage among the leadership coincided with an evolving public theology that provided a contextualizing religious narrative that persuaded believers to accept the principle. This fresh interpretation

draws on diaries, letters, newspapers, and other primary sources and is especially effective in its use of family narratives. It will be of great interest not only to scholars and the general public interested in Mormon history but in American history, religion, gender and sexuality, and the history of marriage and families.

Murder and Media in the New Rome Thomas Simpson, 2010-11-15 This book explores a sensational crime and trial that took place in Rome in the late 1870s, when the bloody killing of a war hero triggered a national spectacle. A young southern wife's murder of her impotent soldier husband exploded into the first great "media circus" in the new nation of Italy. The trial of the widow and her acrobat lover shocked the young nation not only with its gruesome details, but also because masses of women flocked to the court, took sides and heatedly reacted to testimony, as a new generation of newspapers exploited the scandal to enchant an untapped readership. Largely ignored by historians, the Fadda Affair, as it was called, crucially shaped the young nation's self-image, but it still resists reduction to historiographical formula, even as its raucous messiness presages the postmodern centrality of performance and the displacement of substance by sensation.

The Fiction of Valerie Martin Veronica Makowsky, 2016-03-21 In the first book-length study of Valerie Martin's fiction, Veronica Makowsky explores the work of this lauded, but often overlooked, contemporary novelist. Winner of the Orange Prize for her novel *Property* (2003), Martin also won the Kafka Prize for *Mary Reilly* (1990), which was then translated into sixteen languages and made into a popular film. Despite these successes, her critically acclaimed novels and stories have yet to attain a broad readership. Makowsky addresses this disconnect through a detailed critical study of Martin's distinguished oeuvre, grounding each work in its historical, cultural, and theoretical contexts. Makowsky begins with a sketch of Martin's life and then considers each of her ten novels and four collections of short stories. Throughout, Makowsky's deft critique reveals Martin to be an astute observer of people and places. Pointing to both early works, like *A Recent Martyr* (1987), and recent books, such as *The Ghost of the Mary Celeste* (2014), Makowsky identifies a potent mixture of pleasure and fear in Martin's writing that emphasizes the author's nuanced exploration of human imagination. Notable, too, are Martin's literary techniques -- especially point of view -- and her allusions to masterpieces in Western literature. The works of Henry and William James in particular influenced Martin's thematic blend of intellectualism and empathy evident in her rounded depictions of women in works like *Italian Fever* (1999) and *The Great Divorce* (1994). A rich and substantive study, *The Fiction of Valerie Martin* demonstrates and deconstructs the mastery of this thought-provoking author, in turn firmly

establishing Martin's place in the canon of contemporary writers.

Between Ruin and Restoration Daniel E. Orenstein,Char Miller,Alon Tal,2013 The environmental history of Israel is as intriguing and complex as the nation itself. Situated on a mere 8,630 square miles, bordered by the Mediterranean Sea and Persian Gulf, varying from desert to forest, Israel's natural environment presents innumerable challenges to its growing population. The country's conflicted past and present, diverse religions, and multitude of cultural influences powerfully affect the way Israelis imagine, question, and shape their environment. Zionism, from the late nineteenth onward, has tempered nearly every aspect of human existence. Scarcities of usable land and water coupled with border conflicts and regional hostilities have steeled Israeli's survival instincts. As this volume demonstrates, these powerful dialectics continue to undergird environmental policy and practice in Israel today. *Between Ruin and Restoration* assembles leading experts in policy, history, and activism to address Israel's continuing environmental transformation from the biblical era to the present and beyond, with a particular focus on the past one hundred and fifty years. The chapters also reflect passionate public debates over meeting the needs of Israel's population and preserving its natural resources. The chapters detail the occupations of the Ottoman Empire and British colonialists in eighteenth and nineteenth century Palestine, as well as Fellaheen and pastoralist Bedouin tribes, and how they shaped much of the terrain that greeted early Zionist settlers. Following the rise of the Zionist movement, the rapid influx of immigrants and ensuing population growth put new demands on water supplies, pollution controls, sanitation, animal populations, rangelands and biodiversity,

forestry, marine policy, and desertification. Additional chapters view environmental politics nationally and internationally, the environmental impact of Israel's military, and considerations for present and future sustainability.

Archeologia e Calcolatori, 30, 2019 Marco Arizza,Valeria Boi,Alessandra Caravale,Augusto Palombini,Alessandra Piergrossi,2019-11-28 Il volume 30 di «Archeologia e Calcolatori» si apre con un inserto speciale, dedicato al trentennale della rivista. Alle introduzioni di F. Djindjian e di P. Moscati, che delineano un quadro dell'informatica archeologica nel suo divenire, seguono gli articoli dei membri del Comitato di Redazione, a testimoniare l'attività di ricerca e di sperimentazione che ha caratterizzato il cammino editoriale della rivista, e il contributo di una giovane laureata dell'Università Bocconi, che ha lavorato a stretto contatto con il team di «Archeologia e Calcolatori». Nella parte centrale sono pubblicati gli articoli proposti annualmente dagli autori. Ne emerge un quadro che rappresenta gli aspetti applicativi più qualificanti dell'informatica archeologica (le banche dati, i GIS, le analisi statistiche, i sistemi multimediali), ma che guarda oggi con sempre maggiore interesse agli strumenti di visualizzazione scientifica e di comunicazione delle conoscenze. Il volume si chiude con gli Atti del XII Workshop ArcheoFOSS (Free, Libre and Open Source Software e Open Format nei processi di ricerca archeologica), un'iniziativa lodevole, nata nel 2006, cui si è più volte dato spazio nelle pagine della rivista.

This edition contains the first two volumes of this four volume novel, *The Shadow of the Torturer* and *The Claw of the Conciliator*.

World Flutelore Dale A. Olsen, 2013-11-30 In many places around the world, flutes and the sounds of flutes are powerful magical forces for seduction and love, protection, vegetal and human fertility, birth and death, and other aspects of human and non-human behavior. This book explores the cultural significance of flutes, flute playing, and flute players from around the world as interpreted from folktales, myths, and other stories--in a word, flutelore. A scholarly yet readable study, *World Flutelore: Folktales, Myths, and Other Stories of Magical Flute Power* draws upon a range of sources in folklore, anthropology, ethnomusicology, and literary analysis. Describing and interpreting many examples of flutes as they are found in mythology, poetry, lyrics, and other narrative and literary sources from around the world, veteran ethnomusicologist Dale Olsen seeks to determine what is singularly distinct or unique about flutes, flute playing, and flute players in a global context. He shows how and why world flutes are important for personal, communal, religious, spiritual, and secular expression and even, perhaps, existence. This is a book for students, scholars, and any reader interested in the cultural power of flutes.

Italy in the European Union Sergio Fabbrini, Simona Piattoni, 2008 Based on an analytical

evaluation of both the weaknesses and strengths of the Italian political system, Italy in the European Union is the first book to offer a detailed and comprehensive description of Italy's contribution to European Union policy-making. The contributors to this volume systematically explore the role played by Italian institutional and noninstitutional actors in several decision-making processes. They show how Italian institutional actors define and promote national policy preferences that are compatible with those of the other European member states. However, the book functions on two levels: it is both a nuanced picture of Italy's role in the EU and a study of the EU as it has been transformed by subsequent waves of enlargement. In a compound polity of twenty-seven member states the formation of stable hegemonic coalitions is implausible--the concept of national interest, which still informs much of the literature on the EU, is logically and empirically unusable in many EU policy realms. Combining empirical investigation and theoretical analysis, this book is indispensable for scholars, students, and practitioners who study or observe Italian politics. It is also necessary for those who want to understand the transformation of European politics and the European Union's increasing development as a compound polity.

Judicial Law-Making in European Constitutional Courts Monika Florczak-

Wątor, 2020-05-07 This book analyses the specificity of the law-making activity of European constitutional courts. The main hypothesis is that currently constitutional courts are positive legislators whose position in the system of State organs needs to be redefined. The

book covers the analysis of the law-making activity of four constitutional courts in Western countries: Germany, Italy, Spain, and France; and six constitutional courts in Central-East European countries: Poland, Hungary, the Czech Republic, Slovak Republic, Latvia, and Bulgaria; as well as two international courts: the European Court of Human Rights (ECtHR) and the Court of Justice of the European Union (CJEU). The work thus identifies the mutual interactions between national constitutional courts and international tribunals in terms of their law-making activity. The chosen countries include constitutional courts which have been recently captured by populist governments and subordinated to political powers. Therefore, one of the purposes of the book is to identify the change in the law-making activity of those courts and to compare it with the activity of constitutional courts from countries in which democracy is not viewed as being under threat. Written by national experts, each chapter addresses a series of set questions allowing accessible and meaningful comparison. The book will be a valuable resource for students, academics, and policy-makers working in the areas of constitutional law and politics.
