The Fiction of Valerie Martin Veronica Makowsky,2016-03-21 In the first book-length study of Valerie Martin's fiction, Veronica Makowsky explores the work of this lauded, but often overlooked, contemporary novelist. Winner of the Orange Prize for her novel Property (2003), Martin also won the Kafka Prize for Mary Reilly (1990), which was then translated into sixteen languages and made into a popular film. Despite these successes, her critically acclaimed novels and stories have yet to attain a broad readership. Makowsky addresses this disconnect through a detailed critical study of Martin's distinguished oeuvre, grounding each work in its historical, cultural, and theoretical contexts. Makowsky begins with a sketch of Martin's life and then considers each of her ten novels and four collections of short stories. Throughout, Makowsky's deft critique reveals Martin to be an astute observer of people and places. Pointing to both early works, like A Recent Martyr (1987), and recent books, such as The Ghost of the Mary Celeste (2014), Makowsky identifies a potent mixture of pleasure and fear in Martin's writing that emphasizes the author's nuanced exploration of human imagination. Notable, too, are Martin's literary techniques -- especially point of view -- and her allusions to masterpieces in Western literature. The works of Henry and William James in particular influenced Martin's thematic blend of intellectualism and empathy evident in her rounded depictions of women in works like Italian Fever (1999) and The Great Divorce (1994). A rich and substantive study, The Fiction of Valerie Martin demonstrates and deconstructs the mastery of this thought-provoking author, in turn firmly establishing Martin's place in the canon of contemporary writers.

*Sailors, Whalers, Fantastic Sea Voyages* Valerie Petrillo,2003-06-01 Children are fascinated with sailing ships, lighthouses, whaling, shipwrecks, and mutinies, and these 50-plus activities will provide them with a boatful of fun. This activity guide shows kids what life was like for the greenhands, old salts, and captains on the high seas during the great age of sail in the 19th century: aboard square-riggers, clippers, whalers, schooners, and packet ships. Life aboard ship was an exciting subculture of American life with its own language, food, music, art, and social structure. Children will learn that many captains brought their wives and children aboard ship, and that kids who learned how to walk at sea often found it difficult to walk on dry land. The book begins with the China Tea trade in the late 18th century and ends with the last whaler leaving New Bedford in 1924. Kids will create scrimshaw using black ink and a bar of white soap; make a model lighthouse using a bike reflector, an oatmeal box, and a plastic soda bottle; and paint china with traditional designs using a blue paint pen and a basic white plate. Included are additional simple activities requiring common household objects that are sure to please busy parents and teachers alike.

The Magic Feather Effect Melanie Warner,2019-01-22 The acclaimed author of Pandora’s Lunchbox and former New York Times reporter delivers an “entertaining and highly useful book that gives you the tools to understand how alternative medicine works, so you can confidently make up your own mind” (The Washington Post). We all know someone who has had a seemingly miraculous cure from an alternative form of medicine: a friend whose chronic back pain vanished after sessions with an acupuncturist or chiropractor; a relative with digestive issues who recovered with herbal remedies; a colleague whose autoimmune disorder went into sudden inexplicable remission thanks to an energy healer or healing retreat. The tales are far too common to be complete fabrications, yet too anecdotal and outside the medical mainstream to be taken seriously scientifically. How do we explain them and the growing popularity of alternative medicine more generally? In The Magic Feather Effect, author and journalist Melanie Warner takes us on a vivid, important journey through the world of alternative medicine. Visiting prestigious research clinics and ordinary people’s homes, she investigates the scientific underpinning for the purportedly magical results of these practices and reveals not only the medical power of beliefs and placebo effects, but also the range, limits, and uses of the surprising system of self-healing that resides inside us. Equal parts helpful, illuminating, and compelling, The Magic Feather Effect is a “well-written survey of alternative medicine...fair-minded, thorough, and focused on verifiable scientific research” (Publishers Weekly, starred review). Warner’s enlightening, engaging deep dive into the world of alternative medicine and the surprising science that explains why it may work is an essential read.

Crash Course in Library Services to People with Disabilities Ann Roberts,Richard J. Smith,2010-03-23 This book helps libraries identify and implement new ways to serve their physically or mentally disabled patients. Authors Ann Roberts and Dr. Richard Smith work at the state level with persons with disabilities. They find that very few librarians feel comfortable with providing services addressed to the needs of the disabled, yet those who do offer services and programs other libraries can adopt and adapt. Crash Course in Library Services to People with Disabilities will help librarians get up to speed in understanding disabled persons and what they can do to make library premises and holdings more accessible to them. It provides basic information on the different types of mental and physical disabilities a librarian might encounter, then offers a range of exemplary policies, services, and programs for people with disabilities—efforts that are in place and working across the country.

The Israeli Conflict System Harvey Starr,Stanley Dubinsky,2015-07-30 The Middle East conflict system is perhaps the world’s most important and intractable problem area, whose developments carry global consequences. An effective investigation of the context and change in the region calls for a melding of academic approaches, methods and findings with policy oriented needs. The Israeli Conflict System brings together leading conflict scholars primarily from political science, applying a range of advanced, rigorous analytic and data-gathering techniques to address this single empirical domain—the contemporary Israeli Conflict System. Recognising the causal complexity of this conflict system, the volume’s central theme is that the system’s current conditions are best understood in their broader temporal/historic, cultural/linguistic, and spatial/geographic contexts. Through the lens of economic, geographic, historical, linguistic, and political analyses, and the application of data analysis, experiments, simulations, and models of rational choice, this volume shows how diverse disciplinary perspectives and methodologies can complement each other effectively. In this way, its chapters provide a model for the integration of factors and contexts necessary for understanding contemporary world politics, and a sampling of theories, approaches, and methods that are applicable, useful, or valid under different conditions. This book offers a cutting-edge resource for scholars and students of Political Science, International Relations, Conflict Studies and Middle East Studies.

*Mea Culpa* Steven W. Bender,2015-01-09 In *Mea Culpa*, Steven W. Bender examines how the United States’ collective shame about its past has shaped the evolution of law and behavior. We regret slavery and segregationist Jim Crow laws. We eventually apologize, while ignoring other oppressions, and our legal response to regret often fails to be transformative for the affected groups. By examining policies and practices that have affected the lives of groups that have been historically marginalized and oppressed, Bender is able to draw persuasive connections between shame and its eventual legal manifestations. Analyzing the United States’ historical response to its own atrocities, Bender identifies and develops a definitive moral compass that guides us away from the policies and practices that lead to societal regret. *Mea Culpa* challenges its readers. In a different era, might we have been slave owners or proprietors of a racially segregated establishment? It’s easy to judge immorality in the hindsight of history, but what current practices and policies will later generations regret? More than a historical survey, this volume offers a framework for resolving some of the most contentious social problems of our time. Drawing on his background as a legal scholar, Bender tackles immigration, the death penalty, the war on terror, reproductive rights, welfare, wage inequity, homelessness, mass incarceration, and same-sex marriage. Ultimately, he argues, it is the dehumanization of human beings that allows for practices to occur that will later be marked as regrettable. And all of us have a stake in standing on the side of history that resists dehumanization.

*Excavating the Histories of Slave-Trade and Pirate Ships* Lynn Brenda Harris,Valerie Ann Johnson,2022-05-18 This edited volume brings new perspectives on the topic maritime archaeology of the slave trade in the Caribbean. The book focuses on shipwrecks of the slave trade in the 18th century and suggests that there is a more complex and challenging social narrative than has previously been discussed. The authors examine biographies of ships, crew members, voyage logs, cargo inventories, trader correspondence and contextual analysis of the artifact assemblages to bring new insights into the microeconomics and maritime traditions of these floating prisons. The illustrious biography of Captain Edward Thache (aka Blackbeard) reveals past identities as a naval officer, slave trader, and pirate. Categories of artifacts in archaeological collections represent cultural connections and traditions of enslaved Africans. The volume includes several case studies that inform these narratives and examines slave ships such as la Concorde, Henrietta Marie, Whydah, La Marie Seraphique and Marquis de Bouillé. Within the larger context of slave trade during the 18th century, authors explore legal and illegal trade in the British West Indies. These studies also address the plethora of social, political, and environmental impacts on these island communities that played an integral and strategic role in slave trade economics. This volume presents up-to-date research of professional maritime historians, artifact curators, and marine archaeologists drawing upon primary source documents, artwork, and material culture. The research collaborators reconstruct the international spheres of colonial North America, Europe, Africa, and West Indies. It is an interwoven narrative, both unique and typical, to the social and economic dynamics of 18th century Atlantic World.

**Right-wing Populism in America** Chip Berlet,Matthew Nemiroff Lyons,2000-11-02 Right-wing militias and other antigovernment organizations have received heightened public attention since the Oklahoma City bombing.

While such groups are often portrayed as marginal extremists, the values they espouse have influenced mainstream politics and culture far more than most Americans realize. This important volume offers an in-depth look at the historical roots and current landscape of right-wing populism in the United States. Illuminated is the potent combination of anti-elitist rhetoric, conspiracy theories, and ethnic scapegoating that has fueled many political movements from the colonial period to the present day. The book examines the Jacksonians, the Ku Klux Klan, and a host of Cold War nationalist cliques, and relates them to the evolution of contemporary electoral campaigns of Patrick Buchanan, the militancy of the Posse Comitatus and the Christian Identity movement, and an array of millennial sects. Combining vivid description and incisive analysis, Berlet and Lyons show how large numbers of disaffected Americans have embraced right-wing populism in a misguided attempt to challenge power relationships in U.S. society. Highlighted are the dangers these groups pose for the future of our political system and the hope of progressive social change. Winner--Outstanding Book Award, Gustavus Myers Center for the Study of Bigotry and Human Rights in North America
