The TV Brand Builders Andy Bryant,Charlie Mawer,2016-04-03 The TV Brand Builders is the definitive account of how the biggest television networks, channels and programmes are created as brands, with rare privileged access to the marketing strategies and creative thinking behind culturally defining TV promos, digital and social media campaigns and design identities. Written by two leading practitioners responsible for work as famous as the BBC One hippos, the creation of a TV channel called Dave and the re-launch of Doctor Who, and featuring interviews with 50 leading industry experts from 8 countries, from HBO to ESPN, from DreamWorks to CANAL+, The TV Brand Builders combines practical advice and strategic insight with exclusive stories from the ratings front line. Online resources include a bonus chapter on TV channel design in a multi-screen world, plus a 'Student and Instructor's Manual' with chapter summaries.

**Classroom to Clinic Study System** Mona Sedrak,Scott Massey,2010-12-22 Be prepared for classroom, clerkship exams, PANCE, PANRE, and recertification! *The Queen V* Dr. Jackie Walters,2020-02-04 In *The Queen V*, the beloved OB-GYN, celebrity doctor, and star of Bravo's *Married to Medicine* reveals the twelve principles behind a happy and healthy vagina...and other lady parts. After twenty years of private obstetrics and gynecological practice, there's nothing Dr. Jackie Walters hasn't seen. And now, in her new book, the widely-adored OB-GYN invites you to put your feet in the stirrups and investigate. Whether she's covering libido, contraceptives, labiaplasty, or fertility, Dr. Jackie educates readers with her characteristic grace and pragmatism. Both funny and informative, she brings you on a quest through the female reproductive system—answering all the burning (and itching, and smelling...) questions you've always been afraid to ask. Dr. Jackie knows that every woman is different, and she's designed a reading experience that's tailor-made for each individual. After taking a fun quiz to uncover your own vaginal personality (V.P.), you'll embark upon an eye-opening journey of self-discovery. Are you a Mary Jane, a Sanctified Snatch, or a Notorious V.A.G.? What's the shape of your vaginal flower—rosebud, tulip, or carnation? Dr. Jackie reveals the answer and doles out advice so personal you'll feel like you're in the office talking to her. For every time you've been draped in a paper gown and too embarrassed to ask that question, Dr. Jackie has you covered. Her book is a woman's guide to self-awareness that will educate, entertain, and empower others to achieve vaginal liberation. It's a must-read for anyone who owns (or loves) a vagina.

**The Encyclopedia of Autoimmune Diseases** Dana K. Cassell,Noel R. Rose,2014-05-14 A comprehensive guide to diseases of the immune system, listing names, symptoms, research, treatments available and more.

**How to Stop Chronic Pain in Children** Michael Dobe,Boris Zernikov,2014-07-01 Paula is 12 years old. She has been suffering from chronic abdominal pains for four years. None of the treatments she underwent has helped her. Paula has turned from a fun-loving child into a quiet, suffering girl, and Paula's parents are suffering vicariously with her. Michael Dobe and Boris Zernikow have written this book for children like her and their parents. Based on their experience with out-patient as well as in-patient pain treatment in children, they show in a comprehensive manner how children and adolescents can actively face chronic pains. Many of the tips they offer are easy to implement; they sometimes require a bit of courage and patience, but no elaborate tools. This book helps families find their way back to a regular daily routine despite the pain, back to a daily life in which there is room for laughter and a positive outlook on the future. This extraordinarily interesting and informative book will provide lasting help for many suffering children and adolescents, and thus for their parents as well. Dr. Marianne Koch, Honorary president of Deutsche Schmerzliga e. V. (German Pain League)

*Come Home Alive* Mari D. Martin,2021-04-12 For twenty years, God has been leading, guiding, and preparing author Mari D. Martin to walk alongside her husband, Chris, through a throat cancer diagnosis, the treatment of that cancer, the recovery from the side effects of the treatments, and then through rehabilitation to return to what will be his new normal. In *Come Home Alive*, Mari shares the oftentimes tender story of their six-part plan to come home alive. She narrates how the couple used their twenty-four years as Kolbe Certified consultants to practice what they taught, consulted, and coached others regarding self-awareness, strengths identification, communication needs, role alignment, and the environment each person needs to thrive. For Chris to thrive again, he needed to heal; and for him to heal, he needed to be in an environment that allowed him to thrive. *Come Home Alive* tells how Mari's role as caregiver was to stay true to herself, while also being the hands and feet to recognize, minimize, and complete the tasks and requirements Chris naturally resisted. Their plan, rooted in faith, and hope, started with daily time together in prayer and belief in the healing power of God. It ended with a practice of thankfulness and expecting a miracle. What they did together in the middle is one you can do, too—through greater awareness of each other's strengths, how to work together, and be a team with the knowledge and wisdom to come home alive.

**Pharmacotherapeutics For Advanced Practice Nurse Prescribers** Teri Moser Woo,Marylou V Robinson,2015-08-03 This exceptional text builds your knowledge of pharmacology by first providing an overview of pharmacologic principles and then teaching you how to apply those principles to clinical practice. Focusing on applying pharmacologic scientific knowledge to clinical practice, it explains diagnostic and treatment reasoning and rational drug selection, while providing useful clinical pearls from experienced practitioners.

**Psychopathology of Childhood and Adolescence** Andrew S. Davis, PhD,2012-12-20 This text presents a comprehensive overview of the psychopathological disorders of childhood and adolescence from a brain-based perspective. Based upon the highly respected *Handbook of Pediatric Neuropsychology*, this text covers all of the major pediatric disorders described in the DSM-IV-TR, while also offering hard-to-find coverage of childhood cognitive disorders that have not been addressed sufficiently in the DSM and other child psychopathology texts. Each chapter includes the etiology of each disorder (including genetics), its prevalence, clinical presentation, assessment considerations, and evidence-based treatments. Additionally, the volume features all-new material on neuroimaging in diagnosis and a comprehensive, real-life case study for each disorder to enhance student and clinician understanding. Designed for graduate-level courses in child and adolescent psychopathology, this affordable text will also be a convenient resource for clinicians. Key Features: Presents a current, comprehensive overview of psychopathological disorders of childhood and adolescence from a brain-based perspective Includes cognitive disorders in children not well-covered in the DSM and other texts, including traumatic brain injury, seizures, pediatric HIV and other infectious conditions, fetal alcohol spectrum disorders, and perinatal-related complications Provides comprehensive case studies in each chapter, giving students a real-world understanding of assessment and diagnosis Addresses proposed changes to be included in the DSM-V Covers all-new material on neuroimaging in diagnosis

*Online Teaching at Its Best* Ludwika A. Goodson,Linda B. Nilson,2017-11-08 Bring pedagogy and cognitive science to online learning environments *Online Teaching at Its Best: A Merger of Instructional Design with Teaching and Learning Research* is the scholarly resource for online learning that faculty, instructional designers, and administrators have long been awaiting. Over 70 percent of degree-granting institutions offer online classes, and while technical resources abound, the courses often fall short of integrating the best practices in online pedagogy, even if they comply with online course design standards. Typically these standards omit the best practices in teaching and learning and the principles from cognitive science, leaving students struggling to keep the pace, understand the material, and fulfill their true potential as learners. This book fills the gap, providing evidence-based practices for online teaching, online course design, and online student motivation integrated with pedagogical and cognitive science to help you build the distance learning courses and programs your students deserve. As more and more students opt for distance learning, it's up to designers and instructors to rethink traditional methods and learn to work more effectively within the online learning environment, and up to administrators to provide the needed leadership. *Online Teaching at Its Best* provides practical, real-world advice grounded

in educational science to help online instructors, instructional designers, and administrators deliver an exceptional learning experience. Adopt new pedagogical techniques designed specifically for online learning environments Ensure strong course alignment and effective student learning for online classes Increase student retention, build necessary support structures, and train faculty more effectively Integrate research-based course design and cognitive psychology into graduate or undergraduate programs Distance is no barrier to a great education; what do stand in the way are inadequate online course design and implementation and deficient faculty training and support—all of which administrators can mitigate. Online Teaching at Its Best will help you ensure that your online classes measure up to the rigor and quality of excellence in teaching and assessment, build in the personal touch for developing a learning community and equip your students to succeed in the next challenge.

**The Cleveland Clinic Intensive Review of Internal Medicine** James K. Stoller,Franklin A. Michota,Brian F. Mandell,2012-03-28 Now in its revised, updated Fifth Edition, The Cleveland Clinic Intensive Review of Internal Medicine offers thorough preparation for board certification and recertification exams in internal medicine. It is written by distinguished Cleveland Clinic faculty and serves as the syllabus for the Cleveland Clinic's esteemed internal medicine board review course. Clinical vignettes and bulleted lists throughout the book highlight key clinical points. This edition also includes boxed Points to Remember. Board simulations appear at the end of each section. An updated mock board exam containing over 200 multiple-choice questions appears at the end of the book. A companion Website will offer an interactive question bank with 200 additional questions.

*Oncology Nursing in the Ambulatory Setting* Patricia Corcoran Buchsel,Connie Henke Yarbrow,2005 This book provides the very latest in position statements, and new, forward-thinking in administrative strategies. Addresses fiscal management of outpatient cancer centers, including financial systems models, use of CPT codes, cost effectiveness and clinical applications of evidence-based practice guidelines.

**Patient Safety Handbook** June M. Sullivan,Renee H. Martin,2008 This book is a comprehensive guide to serving clients in a variety of healthcare settings. The book starts out by providing an overview of the key elements involved in implementing a patient safety program, and goes on to summarize each of the key patient safety requirements implemented by federal, state and accreditation agencies including the federal Patient Safety and Quality Improvement Act of 2005.

**Who Lives, Who Dies, Who Decides?** Sheldon Ekland-Olson,2014-12-02 This second edition of Who Lives, Who Dies, Who Decides? has been updated to consider the rising stakes for issues of life and death. Abortion, assisted dying, and capital punishment are among the most contentious issues in many societies and demand debate. Whose rights are protected? How do these rights and protections change over time and who makes those decisions? Based on the author's award-winning and hugely popular undergraduate course at the University of Texas and highly recommended by Choice Magazine, this book explores the fundamentally sociological processes which underlie the quest for morality and justice in human societies. The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions and to develop readers to develop their own opinions.

**From Courtroom to Clinic** Peter Ash,2019-02-28 Why do present-day mental health professionals practice the way that they do? Over the past fifty years, a number of landmark court holdings have changed such basic principles as what material is confidential, how civil commitment and involuntary treatment are conducted, and when a therapist has a duty to protect the public from a dangerous patient. Unlike most legal texts, this volume explores these complex principles through the human stories of the litigants involved.

**Implementing Colorectal Cancer Screening** Institute of Medicine,National Cancer Policy Forum,2009-01-01 The IOM's National Cancer Policy Board estimated in 2003 that even modest efforts to implement known tactics for cancer prevention and early detection could result in up to a 29 percent drop in cancer deaths in about 20 years. The IOM's National Cancer Policy Forum, which succeeded the Board after it was disbanded in 2005, continued the Board's work to outline ways to increase screening in the U.S. On February 25 and 26, 2008, the Forum convened a workshop to discuss screening for colorectal cancer. Colorectal cancer screening remains low, despite strong evidence that screening prevents deaths. With the aim to make recommended colorectal cancer screening more widespread, the workshop discussed steps to be taken at the clinic, community, and health system levels. Workshop speakers, representing a broad spectrum of leaders in the field, identified major barriers to increased screening and described strategies to overcome these obstacles. This workshop summary highlights the information presented, as well as the subsequent discussion about actions needed to increase colorectal screening and, ultimately, to prevent more colorectal cancer deaths.
