Written with the Senior reader in mind and presented in larger type for easier reading. In the digital world there is sometimes one event that can propel a technology to the forefront of the public's awareness. In the case of video chatting this has been the Covid-19 pandemic. Video chatting has been used, in one form or another, for many years, but it was not until the pandemic that it became an invaluable tool for millions of people around the world, for keeping in touch with family and friends. As with most forms of popular technology, there are a number of elements to consider to successfully engage with the video chatting revolution. These include: The different devices that can be used for video chatting. Getting connected for video chatting, both at home using Wi-Fi, and mobile connections for when you are out and about. Video chatting apps that provide the means to communicate with family and friends. Video Chatting for Seniors in easy steps is the ideal companion to help you navigate the expanding world of video communication, covering the following areas: Finding the right equipment for successful video chatting. Following good etiquette so that your video chats go as smoothly as possible. Getting set up with your video chatting apps. Undertaking video chats with individuals and groups. Using text chat to enhance the video chatting experience. Making audio calls using video chatting apps. A detailed look at the most popular video chatting apps: Zoom; FaceTime; Skype; and Facebook Messenger. Looking at other video chatting apps, to expand the possibilities for communicating with family and friends. Video chatting on a range of digital devices is very much here to stay and, with Video Chatting for Seniors in easy steps by your side, you will be able to fully embrace it and be communicating like an expert with sound and vision.

Backlash Against the ADA Linda Hamilton Krieger,2010-02-22 For civil rights lawyers who toiled through the 1980s in the increasingly barren fields of race and sex discrimination law, the approval of the Americans with Disabilities Act in 1990 by a nearly unanimous U.S. House and Senate and a Republican President seemed almost fantastic. Within five years of the Act's effective date, however, observers were warning of an unfolding assault on the ADA by federal judges, the media, and other national opinion-makers. A year after the Supreme Court issued a trio of decisions in the summer of 1999 sharply limiting the ADA's reach, another decision invalidated an entire title of the act as it applied to the states. By this time, disability activists and disability rights lawyers were speaking openly of a backlash against the ADA. What happened, why did it happen, and what can we learn from the patterns of public, media, and judicial response to the ADA that emerged in the 1990s? In this book, a distinguished group of disability activists, disability rights lawyers, social scientists and humanities scholars grapple with these questions. Taken together, these essays construct and illustrate a new and powerful theoretical model of sociolegal change and retrenchment that can inform both the conceptual and theoretical work of scholars and the day-to-day practice of social justice activists. Contributors include Lennard J. Davis, Matthew Diller, Harlan Hahn, Linda Hamilton Krieger, Vicki A. Laden, Stephen L. Percy, Marta Russell, and Gregory Schwartz. Backlash Against the ADA will interest disability rights activists, lawyers, law students and legal scholars interested in social justice and social change movements, and students and scholars in disability studies, political science, media studies, American studies, social movement theory, and legal history. Linda Hamilton Krieger is Professor of Law, University of California School of Law, Berkeley.

Understanding Teaching and Learning Baljit Kaur,2012-12-17 • How do children, individually and collectively, make meanings of their learning experiences? • How can teachers become aware of children's meaning making on an ongoing basis? • Is it possible and useful to create an integrated theory of student learning? • How can classroom research enhance critical understandings of the situated nature of learning and teaching, while taking into account the systemic and educational policy contexts? • How do differences, such as class, race, culture, gender and sexualities, interact with student learning? • How can teachers respond effectively to the realities of today's diverse classrooms? • What are the current and emerging issues in classroom research? These are just some of the questions this book grapples with. It pays tribute to Professor Graham Nuthall's (1935-2004) research contributions - a pioneering and internationally renowned classroom researcher of teaching and learning from New Zealand. It has been written by emerging and experienced

classroom researchers from several countries as part of a project aimed at building on and extending Nuthall’s research and promoting the conducting, teaching and supervision of classroom research. The authors engage critically with theoretical, methodological and pedagogical possibilities of their research using Nuthall’s work as a springboard. As a result, all authors make links between theory and practice. Further, several leading international researchers contribute comments on future directions for classroom research and its relevance for teaching and learning. Understanding teaching and Learning: Classroom Research Revisited would be of interest to practicing or prospective teachers and teacher educators, as well as scholars and students of teaching and learning.
