Chen Danqing M. Ackbar Abbas, Danqing Chen, Tak-wai Wong, 1995 Events in Tiananmen Square in 1989 catalyzed the New York-based Chinese artist Chen Danqing to begin an extraordinary series of diptychs and triptychs, paintings whose very form convey the experience of dislocation and exile. Ackbar Abbas reveals how these paintings express a dynamic dialogue between the present and the past, between the East and the West. Abbas persuasively shows that the uniqueness of these works lies in their juxtaposition of Tiananmen's violent scenes with iconic images culled from Western mass media and popular culture.

Contemporary Chinese Films and Celebrity Directors Shenshen Cai, 2017-03-10 This new text examines recent popular Chinese films and derivative cultural phenomena, with a focus on films directed by celebrity directors such as Han Han, Guo Jingming, Xu Jinglei and Zhao Wei. In opposition to Fifth and Sixth Generation Chinese filmmakers who explored the grand-narratives of history, the oppression of the pre-socialist and socialist eras, and those marginalized by socio-economic changes, the celebrity directors at the heart of this book center on the new trends of living and emotional challenges faced by contemporary Chinese people, in particular the younger generations. This book sheds light on newly emerging social and cultural fashions in contemporary China, such as the social stigma of being 'left-over' (reflected in Xu Jinglei's films), the issue of wealth 'flaunting' (represented in Guo Jingming's films) or nostalgia for the long lost innocence of adolescence (demonstrated in Zhao Wei's film). Considering present-day consumer capitalism through the lens of cinema, this text analyses in detail the significance of films chosen for their relevance, providing a reflection of social reality and cultural changes in 21st century China.

Chinese Ecocinema Sheldon H. Lu, Jiayan Mi, 2009-12-01 This anthology is a book-length study of China's ecosystem through the lens of cinema. Proposing 'ecocinema' as a new critical framework, the volume collectively investigates a wide range of urgent topics in today's world.

The Chinese Roswell Hartwig Hausdorf, 1998 Like his predecessor, Heinrich Harrer, who spent seven years in Tibet, Hartwig Hausdorf has ventured, virtually on foot, over many of the sacred places of the Far East. But his aim has been not to discover his own soul, but to uncover tell tale signs of an Alien Mind which may have passed that way millennia ago, and may be passing by again. He has sought out the fabled, forbidden 1000-foot White Pyramid of Xian. In so doing, he has stumbled upon the key to the ancient Chinese dream of material immortality, a dream inspired by Alien Mind, and a key hidden in the fabulous, mercury-filled tomb chamber of the first emperor of China, Shi Huangdi. A tomb chamber the excavation of which the Chinese government has kept secret from the West. He has unearthed new facts about the mysterious stone disks of Bayan Kara Ula, which some believe tell the story of a forced alien landing 12,000 years ago.

Fans, Bloggers, and Gamers Henry Jenkins, 2006 Henry Jenkins at Authors@Google (video) Henry Jenkins's pioneering work in the early 1990s promoted the idea that fans are among the most active, creative, critically engaged, and socially connected consumers of popular culture and that they represent the vanguard of a new relationship with mass media. Though marginal and largely invisible to the general public at the time, today, media producers and advertisers, not to mention researchers and fans, take for granted the idea that the success of a media franchise depends on fan investments and participation. Bringing together the highlights of a decade and a half of groundbreaking research into the cultural life of media consumers, Fans, Bloggers, and Gamers takes readers from Jenkins's progressive early work defending fan culture against those who would marginalize or stigmatize it, through to his more recent work, combating moral panic and defending Goths and gamers in the wake of the Columbine shootings. Starting with an interview on the current state of fan studies, this volume maps the core theoretical and methodological issues in Fan Studies. It goes on to chart the growth of participatory culture on the web, take up blogging as perhaps the most powerful illustration of how consumer participation impacts mainstream media, and debate the public policy implications surrounding participation and intellectual property.

Internet Mercenaries and Viral Marketing: The Case of Chinese Social Media Wu, Mei, 2013-09-30 Social media and emerging internet technologies have expanded the ideas of marketing approaches. In particular, the phenomenon of the internet in China challenges the common perception of new media environments. Internet Mercenaries and Viral Marketing: The Case of Chinese Social Media presents case studies, textual analysis, media reviews, and in-depth interviews in order to investigate the Chinese "pushing hand" operation from the conceptual perspective of communications and viral marketing. This book is significant to researchers, marketers, and advocates interested in the persuasive influence of social networks.

Urban Youth in China: Modernity, the Internet and the Self Fengshu Liu, 2011-01-25 Fengshu Liu situates the lives of Chinese youth and the growth of the Internet against the backdrop of rapid and profound social transformation in China. In 2008, the total of Internet users in China had reached 253 million (in comparison with 22.5 million in 2001). Yet, despite rapid growth, the Internet in China is so far a predominantly urban-youth phenomenon, with young people under thirty (especially those under twenty-four), mostly members of the only-child generation, as the main group of the netizens' population. As both youth and the Internet hold the potential to inflict, or at least contribute to, far-reaching economic, social, cultural, and political changes, this book fulfills a pressing need for a systematical investigation of how youth and the Internet are interacting with each other in a Chinese context. In so doing, Liu sheds light on what it means to be a Chinese today, how 'Chineseness' may be (re)constructed in the Internet Age, and what the implications of the emerging form of identity are for contemporary and future Chinese societies as well as the world.

The Transparent Society Gianni Vattimo, 1992-11-03 In The Transparent Society Vattimo develops his own distinctive views on postmodernism and its philosophical and cultural relevance. Vattimo argues that the post-modern condition is linked to the development of the mass media and the diffusion of systems of communication. However, he disputes the belief that this development will produce a more enlightened, self-conscious and 'transparent' society, maintaining instead that it leads to a diversity of viewpoints which render societies more complex, even chaotic. Vattimo suggests that aesthetics provides vital insight into the post-modern condition, and argues that the function of art is not to reinforce eternal truths concerning the human condition, but to provide an experience of dislocation and of 'shock'. The multiplication of perspectives on the world disorients us and removes the certainties we gain from our local culture. Instead, Vattimo argues, we learn the art of living in a world characterized by ambiguity and flux.

Challenging the Traditional Axioms Nike K. Pokorn, 2005-04-26 Translation into a non-mother tongue or inverse translation, especially of literary texts, has always been frowned upon within Translation Studies in Western cultures and regarded by literary scholars and linguists as an activity of dubious worth, doomed to fail. The study, which received an award from EST in 2001, sets out to challenge the established view and to critically question some of the axiomatic assumptions of Western theorists. Its challenge is supported by extensive empirical research involving reader response to translations of specific literary texts. The conclusion reached is that the quality of the translation, its fluency and acceptability in the target language environment depend primarily on the as yet undetermined individual abilities of the particular translator, his/her translation strategy and knowledge of the source and target cultures, and not on his/her mother tongue or the direction in which s/he is translating.

The Future of China-Russia Relations James Bellacqua, 2010-09-12 Relations between China and Russia have evolved dramatically since their first diplomatic contact, particularly during the twentieth century. During the past decade China and Russia have made efforts to strengthen bilateral ties and improve cooperation on a number of diplomatic fronts. The People's Republic of China and the Russian Federation maintain exceptionally close and friendly relations, strong geopolitical and regional cooperation, and significant levels of trade. In The Future of China-Russia Relations, scholars from around the world explore the current state of the relationship between the two powers and assess the prospects for future cooperation and possible tensions in the new century. The contributors examine Russian and Chinese perspectives on a wide range of issues,

including security, political relationships, economic interactions, and defense ties. This collection explores the energy courtship between the two nations and analyzes their interests and policies regarding Central Asia, the Korean Peninsula, and Taiwan.

Voyager from Xanadu Morris Rossabi,2010-02-10 Toward the end of the thirteenth century, at about the time Marco Polo was being received by the great Khubilai Khan, a Nestorian Christian monk from China called Rabban Sauma was making the reverse journey from the Mongol capital (what is now Beijing) to Jerusalem. Upon reaching Baghdad—the first traveler to arrive from China—Sauma learned that his pilgrimage could not be fulfilled because of Islamic control of the Holy Land. In Voyager from Xanadu, Morris Rossabi traces Sauma’s trans-Eurasian travels against the turbulent era of the Mongol Empire and the last Crusades. His indispensable book provides a unique first-hand Asian perspective on Europe and illuminates a crucial period in the early history of global, diplomatic, and commercial networking.

Russia, Eurasia and the New Geopolitics of Energy Roger E. Kanet,Matthew Sussex,2015-10-05 By combining perspectives from experts in domestic politics, regional politics, and specialists in international security, this edited volume focuses on the central role of energy production and supply in the Russian-Western completion across Eurasia.

In and Out of English Gunilla M. Anderman,Margaret Rogers,2005-01-01 In and out of English: For Better, For Worse? is concerned with the impact of English as the lingua franca of today's world, in particular its relationship with the languages of Europe. Within this framework a number of themes are explored, including linguistic imperialism, change as the result of language contact, the concept of the English native speaker, and the increasing need in an enlarged Europe for translation into as well as out of English.

China Susan L. Shirk,2007-04-16 Once a sleeping giant, China today is the world's fastest growing economy--the leading manufacturer of cell phones, laptop computers, and digital cameras--a dramatic turn-around that alarms many Westerners. But in China: The Fragile Superpower, Susan L. Shirk opens up the black box of Chinese politics and finds that the real danger lies elsewhere--not in China's astonishing growth, but in the deep insecurity of its leaders. China's leaders face a troubling paradox: the more developed and prosperous the country becomes, the more insecure and threatened they feel. Shirk, a former Deputy Assistant Secretary of State responsible for China, knows many of today's Chinese rulers personally and has studied them for three decades. She offers invaluable insight into how they think--and what they fear. In this revealing book, readers see the world through the eyes of men like President Hu Jintao and former President Jiang Zemin. We discover a fragile communist regime desperate to survive in a society turned upside down by miraculous economic growth and a stunning new openness to the greater world. Indeed, ever since the 1989 pro-democracy protests in Tiananmen Square and the fall of communism in the Soviet Union, Chinese leaders have been haunted by the fear that their days in power are numbered. Theirs is a regime afraid of its own citizens, and this fear motivates many of their decisions when dealing with the U.S. and other foreign nations. In particular, the fervent nationalism of the Chinese people, combined with their passionate resentment of Japan and attachment to Taiwan, have made relations with these two regions a minefield. It is here, Shirk concludes, in the tangled interactions between Japan, Taiwan, China, and the United States, that the greatest danger lies. Shirk argues that rising powers such as China tend to provoke wars in large part because other countries mishandle them. Unless we understand China's brittle internal politics and the fears that motivate its leaders, we face the very real possibility of avoidable conflict with China. This book provides that understanding.
