Haunted Texts William Evan Fredeman,2003-01-01 Begun by young rebels committed to revolutionizing the creative arts, Pre-Raphaelitism has moved from the margins of nineteenth-century art and literature to the vanguard of interdisciplinary studies. The term is now used to denote the Pre-Raphaelite, Aesthetic, and Decadent movements in art, culture, and literature, but it has remained as difficult to define as ever. Haunted Texts attempts to meet the challenge of defining and illustrating the full spectrum of Pre-Raphaelitism. Working with a diverse range of Pre-Raphaelite poetry, painting, decorative arts, book illustration, and political prose, the ten contributors to Haunted Texts pursue the critical strategies of such leading figures as Christina Rossetti and Dante Rossetti, William Morris and Oscar Wilde, Walter Pater, and Aubrey Beardsley. The essays consider the bibliocritical issues of archival research concerning the personal letters and diaries of the Rossetti family; the technological issues that challenge conventional methods of scholarship; the gender issues concerning constructions of identity derived from the changing conceptions of love, desire, anxiety, and brotherhood; and the interdisciplinary cultural issues that transgress the borders of high art and popular culture. Haunted Texts pays tribute to the scholarship of Professor William Fredeman who devoted much of his career since the 1950s to establishing a critical foundation that would enable future scholars to define their understanding of the complexity of Pre-Raphaelitism.

Scholarly Journals in the New Digital World Gérard Boismenu,Guylaine Beaudry,2004 The world of scholarly and not-for-profit publishing is facing many challenges at the start of the twenty-first century, from technical and organisational factors to prevailing social and economic conditions. If scholarly journals, in particular, are to survive, the publishers of these journals are going to have to make dramatic changes to the ways they create and distribute them. Work is already underway at some university presses who have developed creative solutions to overcome these challenges in producing print journals. These early innovators represent an opportunity for all publishers to build on the advantages of e- publishing and possibly reach even larger audiences. This work demystifies the current state of scholarly journal publishing as well as offering a glimpse of hope for journals in the digital world. It will appeal not only to students and researchers, but to anyone who has an interest in the future of publishing.

The Routledge International Handbook of Transnational Studies Margit Fauser,Xóchitl Bada,2023-12-22 The Routledge International Handbook of Transnational Studies offers a comprehensive overview of the dynamic evolution and the most recent debates in this interdisciplinary field. The collection assembles scholarship from the social sciences and the humanities that share a critical perspective extending beyond the nation-state. The contributions investigate sustained connections, events, and activities across state borders and acknowledge prevailing global power asymmetries. The handbook examines the dynamics of transnational processes across seven main themes: epistemological and methodological principles; transnational migrant practices and family remittances; mobilities and (self-)identities; social protection; organizations and social movements; culture, religion, and the arts; and

architecture and urban planning. The contributors engage with theoretical developments and analyze empirical cases involving a wide array of critical contemporary topics such as expatriate voting, first- and second-generation return migration, state-sponsored cross-border marriages, access to health care, transnational social work, global religious aesthetics, transnational art corridors, literary translation, remittance-financed architecture, and transnational processes of real estate development and gentrification, among others. They display a series of cross-cutting approaches including postcolonial theory, racism, and gender, and a focus on agency, state policies and macro-structures, and transnational inequalities. This book features multidisciplinary scholars in transnational studies from Australia, Belgium, Canada, Finland, Germany, Italy, Malaysia, Mexico, the Philippines, Poland, Spain, Sweden, the United Kingdom, and the United States. This handbook will be of interest to scholars interested in global and transnational perspectives across a wide range of disciplines. It will serve as a key resource for academics, students, and other interested audiences seeking to familiarize themselves with the study of contemporary issues that cross state borders.

Britain, America, and the Special Relationship since 1941 B. J. C McKercher, 2017-06-07 Britain, America and the Special Relationship since 1941 examines the Anglo-American strategic and military relationship that developed during the Second World War and continued until recent years. Forged on a common ground of social, cultural, and ideological values as well as political expediency, this partnership formed the basis of the western alliance throughout the Cold War, playing an essential part in bringing stability to the post-1945 international order. Clearly written and chronologically organized, the book begins by discussing the origins of the 'Special Relationship' and its progression from uneasy coexistence in the eighteenth century to collaboration at the start of the Second World War. McKercher explores the continued evolution of this partnership during the conflicts that followed, such as the Suez Crisis, the Vietnam War, and the Falklands War. The book concludes by looking at the developments in British and American politics during the past two decades and analysing the changing dynamics of this alliance over the course of its existence. Illustrated with maps and photographs and supplemented by a chronology of events and list of key figures, this is an essential introductory resource for students of the political history and foreign policies of Britain and the United States in the twentieth century.

Imágenes, letras y argumentos Juan Manuel Cuartas, 2015-02-01 Los textos que presentamos en este nuevo volumen de Dos Tintas, *Imágenes, letras y argumentos*: artículos de reflexión y discusión sobre arte, literatura y argumentación, más allá de dar razón de una exploración teórica exhaustiva, tarea de por sí colosal y que demandaría mayores búsquedas, consiguen llevar a cabo la resemantización de otros textos y otras voces a partir de preguntas nuevas y de los medios disponibles hoy para encontrar respuestas. Cada uno de los artículos despliega, a su manera, un juego de espejos entre el pasado y la contemporaneidad, entre las ideas, sus mediaciones y los usos, entre los individuos y las sociedades

Cyberscience Michael Nentwich, 2003 Describes and analyses the use of information and communication technologies in the academic world.

Le nouveau monde numérique Gérard Boismenu, Guylaine Beaudry, 2002 Segment essentiel de la documentation universitaire, les revues sont entrées depuis quelques années déjà dans le nouveau monde numérique. Dans le secteur des sciences humaines et sociales, les conditions de ce passage se posent en termes conceptuels, économiques, techniques et organisationnels. Les revues qui participent à des infrastructures nationales de diffusion de la recherche devraient pouvoir effectuer la transition vers le numérique selon un modèle qui réponde aux besoins du milieu. Il est ainsi possible de définir un espace où les revues qui ne sont pas dans le giron des oligopoles peuvent s'imposer comme formes stables et professionnelles de communication scientifique. Dans une toile encore dominée par l'anglais, le défi de la diffusion du document universitaire francophone se révèle particulièrement stimulant. Cet ouvrage en présente les grands enjeux et propose de les relever en faisant appel à une stratégie réseau. Avec des formations et des parcours distincts (professeur et directeur scientifique d'une maison d'édition universitaire, d'une part, bibliothécaire et spécialiste des sciences de l'information, d'autre part), Gérard Boismenu et Guylaine Beaudry ont été amenés à développer les premières structures de publications numériques à l'Université de Montréal. Leur réflexion s'inspire principalement du projet Érudit et de la réalisation d'un portail de revues francophones.

Rescue You Elysia Whisler, 2020-10-27 She needs a fresh start. He's got scars that haven't healed. With the help of some rescue dogs, they'll discover that everyone deserves a chance at happiness. After a year of heartbreak and loss, the only thing keeping Constance afloat is the dog rescue she works at with her sister, Sunny. Desperate for a change, Constance impulsively joins a new gym, even though it seems impossibly hard, and despite the gym's prickly owner. Rhett Santos keeps his gym as a refuge for his former-military brothers and to sweat out his own issues. He's ready to let the funny redhead join, but unprepared for the way she wiggles past his hard-won defenses. When their dog rescue is threatened, the sisters fight to protect it. And they need all the help they can get. As Rhett and Constance slowly open up to each other, they'll find that no one is past rescuing; what they need is the right person—or dog—to save them.

essays help illuminate the role of objects in our lives.

Understanding and Communicating Social Informatics Rob Kling, Howard Rosenbaum, Steve Sawyer, 2005 Here is a sustained investigation into the human contexts of Information and Communication Technologies (ICTs), covering both research and theory in this emerging field. Authors Kling, Rosenbaum, and Sawyer demonstrate that the design, adoption, and use of ICTs are deeply connected to people's actions as well as to the environments in which they are used. In Chapters One and Two, they define Social Informatics and offer a pragmatic overview of the discipline. In Chapters Three and Four, they articulate its fundamental ideas for specific audiences and present important research findings about the personal, social, and organizational consequences of ICT design and use. Chapter Five covers Social Informatics education; Chapter Six discusses ways to communicate Social Informatics to professional and research communities; and Chapter Seven provides a summary and look to the future.

Forever Home Elysia Whisler, 2021-11-30 If home is where the heart is, Dogwood County may have just what Delaney Monroe needs. Newly retired from the Marine Corps, Delaney is looking for somewhere to start over. It's not going to be easy, but when she finds the perfect place to open her dream motorcycle shop, she goes for it. What she doesn't expect is an abandoned pit bull to come with the building. The shy pup is slow to trust, but Delaney is determined to win it over. Detective Sean Callahan is smitten from the moment he sees Delaney, but her cool demeanor throws him off his game. When her late father's vintage motorcycle is stolen from Delaney's shop, Sean gets to turn up in his element: chasing the bad guy and showing his best self to a woman who's gotten under his skin in a bad way. Delaney isn't used to lasting relationships, but letting love in—both human and canine—helps her see that she may have found a place she belongs, forever. Complex, quietly compelling characters... A poignant reminder that 'home' is often more than a place. —Maggie Wells, author of Love Game Dogwood County Book 1: Rescue You Book 2: Forever Home
