*Can Hope Endure?* James C. Kennedy, Caroline Joyce Simon, 2005 The spate of books written recently on Christian higher education highlights a common theme -- how numerous colleges founded by church bodies have gradually lost their religious moorings, often culminating in what historian George Marsden calls established nonbelief. *Can Hope Endure?* examines the history of Hope College in Holland, Michigan, as it has struggled to find a faithful middle way between secularization and withdrawal from mainstream academic and American culture. Authors James Kennedy and Caroline Simon track Hope College's responses to various social and intellectual challenges through careful analysis of school records, newspaper stories, extant histories, and interviews with faculty members and past presidents. Hope's history reveals that the school is exceptional, having followed the predictable trajectory, yet changing course in some ways. Given this unusual history, the story of why and how Hope College moved toward reestablishing the role of religion in its institutional life yields important lessons for other schools facing the same challenges. Neither an attack on Hope College nor the kind of celebratory institutional history that so many schools have authorized, this book is instead a thoughtful, instructive study written by two professors who have witnessed firsthand many of Hope's struggles to retain its identity and purpose. The book's narrative is enriched by the binocular vision provided by a professional historian and a professional philosopher, and collaboration has afforded Kennedy and Simon the critical distance necessary to ask hard questions about Hope and, by extension, other institutions like it. *Can Hope Endure?* will be of real interest not only to readers associated with Hope College but also to those following or participating in the ongoing conversation about Christianity and higher education.

**Implementing High-Quality Primary Care** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Implementing High-Quality Primary Care, 2021-06-30 High-quality primary care is the foundation of the health care system. It provides continuous, person-centered, relationship-based care that considers the needs and preferences of individuals, families, and communities. Without access to high-quality primary care, minor health problems can spiral into chronic disease, chronic disease management becomes difficult and uncoordinated, visits to emergency departments increase, preventive care lags, and health care spending soars to unsustainable levels. Unequal access to primary care remains a concern, and the COVID-19 pandemic amplified pervasive economic, mental health, and social health disparities that ubiquitous, high-quality primary care might have reduced. Primary care is the only health care component where an increased supply is associated with better population health and more equitable outcomes. For this reason, primary care is a common good, which makes the strength and quality of the country's primary care services a public concern. *Implementing High-Quality Primary Care: Rebuilding the Foundation of Health Care* puts forth an evidence-based plan with actionable objectives and recommendations for implementing high-quality primary care in the United States. The implementation plan of this report balances national needs for scalable solutions while allowing for adaptations to meet local needs.

**Cruel Paradise: Life Stories of Dutch Emigrants** Hylke Speerstra, 2018-03-08 *Cruel Paradise* deftly weaves together the firsthand stories of men and women who emigrated from the Netherlands throughout the twentieth century. Hylke Speerstra interviewed transplanted Netherlandsers in Canada, the USA, Australia, New Zealand and South Africa for this book, which vividly recounts the trials and successes of these emigrants.

**Death, Society and Human Experience (1-download)** Robert Kastenbaum, 2015-07-22 Providing an understanding of the relationship with death, both as an individual and as a member of society. This book is intended to contribute to your understanding of your relationship with death, both as an individual and as a member of society. Kastenbaum shows how individual and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss. Robert Kastenbaum is a renowned scholar who developed one of the world's first death education courses and introduced the first text for this market. This landmark text draws on contributions from the social and behavioral sciences as well as the humanities, such as history, religion, philosophy, literature, and the arts, to provide thorough coverage of understanding death and the dying process. Learning Goals Upon completing this book, readers should be able to: -Understand the relationship with death, both as an individual and as a member of society -See how social forces and events affect the length of our lives, how we grieve, and how we die -Learn how dying people are perceived and treated in our society and what can be done to provide the best possible care -Master an understanding of continuing developments and challenges to hospice (palliative care). -Understand what is becoming of faith and doubt about an afterlife

*Dutch Chicago* Robert P. Swierenga, 2002-11-07 Now at least 250,000 strong, the Dutch in greater Chicago have lived for 150 years below the radar screens of historians and the general public. Here their story is told for the first time. In *Dutch Chicago* Robert Swierenga offers a colorful, comprehensive history of the Dutch Americans who have made their home in the Windy City since the mid-1800s. The original Chicago Dutch were a polyglot lot from all social strata, regions, and religions of the Netherlands. Three-quarters were Calvinists; the rest included Catholics, Lutherans, Unitarians, Socialists, Jews, and the nominally churched. Whereas these latter Dutch groups assimilated into the American culture around them, the Dutch Reformed settled into a few distinct enclaves -- the Old West Side, Englewood, and Roseland and South Holland -- where they stuck together, building an institutional infrastructure of churches, schools, societies, and shops that enabled them to live from cradle to grave within their own communities. Focusing largely but not exclusively on the Reformed group of Dutch folks in Chicago, Swierenga recounts how their strong entrepreneurial spirit and isolationist streak played out over time. Mostly of rural origins in the northern Netherlands, these Hollanders in Chicago liked to work with horses and go into business for themselves. Picking up ashes and garbage, jobs that Americans despised, spelled opportunity for the Dutch, and they came to monopolize the garbage industry. Their independence in business reflected the privacy they craved in their religious and educational life. Church services held in the Dutch language kept outsiders at bay, as did a comprehensive system of private elementary and secondary schools intended to inculcate youngsters with the Dutch Reformed theological and cultural heritage. Not until the world wars did the forces of Americanization finally break down the walls, and the Dutch passed into the mainstream. Only in their churches today, now entirely English speaking, does the Dutch cultural memory still linger. *Dutch Chicago* is the first serious work on its subject, and it promises to be the definitive history. Swierenga's lively narrative, replete with historical detail and anecdotes, is accompanied by more than 250 photographs and illustrations. Valuable appendixes list Dutch-owned garbage and cartage companies in greater Chicago since 1880 as well as Reformed churches and schools. This book will be enjoyed by readers with Dutch roots as well as by anyone interested in America's rich ethnic diversity.

**Spies in Space** Courtney V. K. Homer, 2019 In 1963, the Air Force annouced it was developing a program to increase the Defense Department efforts to determine military usefulness in space. This program was

called MOL (Manned Orbiting Laboratory). The program also held a highly classified component called Dorian, managed by the National Reconnaissance Office. When the NRO declassified all its files on the Dorian and MOL programs in 2015, five astronauts (James Abrahamson, Karol Bobko, Albert Crews, Bob Crippen, and Richard Truly) and the program's technical director, Michael Yarymovych, shared their experiences and insight of being trained to be America's spies in space during the Cold War.

*Clergy Renewal* Richard Bullock,Richard Bruesehoff,2000-04-01 Planned time away from the parish for study, rest, and spiritual renewal can be beneficial-and often necessary-for any pastor, as well as for the congregation. In this thoroughly revised and expanded edition of Alban's popular Sabbatical Planning for Clergy and Congregations, Bullock and Bruesehoff provide the definitive guide to putting together refreshing pastoral sabbaticals that can help keep ministry vital and growing for the long term

**Testing the Limits** Mark J. Rozell,Gleaves Whitney,2009-09-16 This collaboration of distinguished presidential scholars offers one of the first book-length post-presidency analyses of President George W. Bush and his policies. Mark J. Rozell and Gleaves Whitney have assembled a varied list of contributors from both ends of the political spectrum, bringing together academics and professionals to provide a glimpse into the politics and policies that defined President George W. Bush's presidency. Testing the Limits discusses all aspects of the Bush policy and administration, from staff appointments to foreign and domestic policy to budgetary politics. Several contributors focus their energy on the expansion of presidential powers during Bush presidency, assessing the increased influence of the Vice-President, the politicization of federal court appointments, and the development of executive privilege and presidential secrecy.

*Geriatric Physical Therapy - eBook* Andrew A. Guccione,Dale Avers,Rita Wong,2011-03-07 Geriatric Physical Therapy offers a comprehensive presentation of geriatric physical therapy science and practice. Thoroughly revised and updated, editors Andrew Guccione, Rita Wong, and Dale Avers and their contributors provide current information on aging-related changes in function, the impact of these changes on patient examination and evaluation, and intervention approaches that maximize optimal aging. Chapters emphasize evidence-based content that clinicians can use throughout the patient management process. Six new chapters include: Exercise Prescription, Older Adults and Their Families, Impaired Joint Mobility, Impaired Motor Control, Home-based Service Delivery, and Hospice and End of Life. Clinically accurate and relevant while at the same time exploring theory and rationale for evidence-based practice, it's perfect for students and practicing clinicians. It's also an excellent study aid for the Geriatric Physical Therapy Specialization exam. Comprehensive coverage provides all the foundational knowledge needed for effective management of geriatric disorders. Content is written and reviewed by leading experts in the field to ensure information is authoritative, comprehensive, current, and clinically accurate. A highly readable writing style and consistent organization make it easy to understand difficult concepts. Tables and boxes organize and summarize important information and highlight key points for quick reference. A well-referenced and scientific approach provides the depth to understand processes and procedures. Theory mixed with real case examples show how concepts apply to practice and help you enhance clinical decision-making skills. Standard APTA terminology familiarizes you with terms used in practice. A new chapter, Exercise Prescription, highlights evidence-based exercise prescription and the role of physical activity and exercise on the aging process. A new chapter, Older Adults and Their Families, helps physical therapists understand the role spouses/partners and adult children can play in rehabilitation, from providing emotional support to assisting with exercise programs and other daily living activities. New chapters on Impaired Joint Mobility, Impaired Motor Control, Home-based Service Delivery, and Hospice and End of Life expand coverage of established and emerging topics in physical therapy. Incorporates two conceptual models: the Guide to Physical Therapist Practice, 2nd Edition, and the International Classification of Function, Disability, and Health (ICF) of the World Health Organization (WHO) with an emphasis on enabling function and enhancing participation rather than concentrating on dysfunction and disability A companion Evolve website includes all references linked to MEDLINE as well as helpful links to other relevant websites.

**The Jasons** Ann Finkbeiner,2006-04-06 The Jasons are a well-guarded group of world-class scientists, briefly outed in the Pentagon Papers during the Vietnam War, who have been meeting every summer since 1960 to tackle classified problems that the Defense Department cannot solve. Among many stunning innovations, they helped invent our electronic battlefield and Star Wars missile defense technology, and are now looking into ways to improve our intelligence gathering. Recounting the unknown story of these brilliant, stubbornly independent thinkers, Ann Finkbeiner takes advantage of her unprecedented access to this elite group to explore the uncertain bargains between science and politics. It is a story older than Faust and as timely as tomorrow's headlines.

**Mycoheterotrophy** Vincent Merckx,2012-12-09 Over the course of evolution, several plant lineages have found ways to obtain water, minerals, and carbohydrates from fungi. Some plants are able exploit fungi to such an extent that they lose the need for photosynthesis. The ability of a plant to live on fungal carbon is known as mycoheterotrophy. This intriguing process has fascinated botanists for centuries, yet many aspects of mycoheterotrophy have remained elusive for a long time. Mycoheterotrophy: The Biology of Plants Living on Fungi explores the biology of mycoheterotrophs, offering general insights into their ecology, diversity, and evolution. Written by renowned experts in the field and bolstered with lavish illustrations and photographs, this volume provides a thematic overview of different aspects of mycoheterotrophy. Comprehensive and readily accessible, Mycoheterotrophy: The Biology of Plants Living on Fungi is a valuable resource for researchers and students who are interested in the process of mycoheterotrophy.

*The Hubble Space Telescope* David H. DeVorkin,Robert William Smith,2004 Describes the Hubble Space Telescope and how it works, who uses it, and why it has forever changed the world's appreciation of the cosmos.

**Ivory Tower Blues** James E. Côté\*1953-,Anton L. Allahar,2007-01-01 The present state of the university is a difficult issue to comprehend for anyone outside of the education system. If we are to believe common government reports that changes in policy are somehow making life easier for university graduates, we cannot help but believe that things are going right and are getting better in our universities. Ivory Tower Blues gives a decidedly different picture, examining this optimistic attitude as it impacts upon professors, students, and administrators in charge of the education system. Ivory Tower Blues is a frank account of the contemporary university, drawing on the authors' own research and personal experiences, as well as on input from students, colleagues, and administrators. James E. Côté and Anton L. Allahar offer an insider's account of the university system, an accurate, alternative view to that overwhelmingly presented to the general public. Throughout, the authors argue that fewer and fewer students are experiencing their university education in ways expected by their parents and the public. The majority of students are hampered by insufficient preparation at the secondary school level, lack of personal motivation, and disillusionment. Contrary to popular opinion, there is no administrative or governmental procedure in place to maintain standards of education. Ivory Tower Blues is an in-depth look at the crisis facing Canadian and American universities, the factors that are precipitating the situation, and the long-term impact this crisis will have on the quality of higher education.

*Our World Belongs to God* Christian Reformed Church,1987-04 Our World Belongs to God is the contemporary testimony of faith approved by Synod 1986 of the Christian Reformed Church.
