Max Weber in America Lawrence A. Scaff,2011-01-30 Lawrence Scaff provides new details about Weber's visit to the United States---what he did, what he saw, whom he met and why and how these experiences profoundly influenced Weber's thought an immigration, capitalism, science and culture, Romanticism, race diversity, Protestantism, and modernity. Scaff traces Weber's impact on the development of the social sciences in the United States following his death in 1920, examining how Weber's ideas were interpreted, translated, and disseminated by American scholars such as Talcott Parsons and Frank Knight, and how the Weberian canon, codified in America, was reintroduced into Europe after World War II. --

Flamenco Music and National Identity in Spain William Washabaugh,2016-04-15 Flamenco Music and National Identity in Spain explores the efforts of the current government in southern Spain to establish flamenco music as a significant patrimonial symbol and marker of cultural identity. Further, it aims to demonstrate that these Andalusian efforts form part of the ambitious project of rethinking the nation-state of Spain, and of reconsidering the nature of national identity. A salient theme in this book is that the development of notions of style and identity are mediated by social institutions. Specifically, the book documents the development of flamenco's musical style by tracing the genre's development, between 1880 and 1980, and demonstrating the manner in which the now conventional characterization of the flamenco style was mediated by krausist, modernist, and journalist institutions. Just as importantly, it identifies two recent institutional forces, that of audio recording and cinema, that promote a concept of musical style that sharply contrasts with the conventional notion. By emphasizing the importance of forward-looking notions of style and identity, Flamenco Music and National Identity in Spain makes a strong case for advancing the Spanish experiment in nation-building, but also for re-thinking nationalism and cultural identity on a global scale.

**The Victorians and the Eighteenth Century** Francis O'Gorman,Katherine Turner,2017-07-05 Disrupting the common assumption that the Victorians regarded their eighteenth-century predecessors with little interest or with disdain, the essays in The Victorians and the Eighteenth Century propose a re-examination of these relationships. Together, they expose some of the significant and complex ways in which key aspects and texts of the eighteenth century were situated, read, and transacted within the post-Romantic nineteenth century. Individual essays examine the influence of the work of Pope and the eighteenth-century novelists such as Johnson, Chatterton, and Rousseau on a range of Victorian writers and cultural productions, including Dickens, Eliot, Oliphant, Ruskin, historical fiction, late Victorian art criticism, The English Men of Letters series, and the Oxford English Dictionary. The contributors challenge long-held views about Victorian uses of the past, and offer new insights into how the literature and culture of the eighteenth century helped shape the culture and identity of the nineteenth. This collection of essays by an impressive array of scholars, with a Preface by David Fairer, represents a unique approach to this area of literary history and offers new perspectives on the nature and methodology of 'periodization'. While it is obviously of great interest to students of eighteenth-century and Victorian literature, it will also appeal to readers more broadly concerned with questions of literary influence, periodization, and historiography.

Managing Plurilingual and Intercultural Practices in the Workplace Georges Lüdi,Katharina Höchle Meier,Patchareerat Yanaprasart,2016-11-01 The contributions in this volume stem from different lines of research and represent both a continuation and an advancement of the European DYLAN project. The book addresses the meanings and implications of multilingualism and plurilingual repertoires as well as the ways in which cultural diversity is managed in companies and institutions in Switzerland. Characterised by official quadrilingualism, but also by new dimensions of multilingualism resulting from massive immigration, important workforce mobility and increasing globalisation, Switzerland offers an ideal laboratory for studying phenomena linked to multilingualism and cultural diversity. On the one hand, a special focus is put on the best practices of diversity management and language regimes with particular attention paid to the interplay between official languages and English, and to ways of leveraging diversity awareness, fostering cultural inclusiveness and enhancing intercultural learning in vocational education and training. On the other hand, the chapters examine at close range the way actors' plurilingual repertoires are developed and how their use is adapted to particular objectives and specific conditions. Being observed in several types of multilingual professional settings, the plurilingual strategies, including English as lingua franca, are particularly examined in terms of power relations and processes of inclusion or exclusion.

Critical Music Historiography: Probing Canons, Ideologies and Institutions Vesa Kurkela,Markus Mantere,2016-03-09 During the past two decades, there has emerged a growing need to reconsider the objects, axioms and

perspectives of writing music history. A certain suspicion towards Francois Lyotard's grand narratives, as a sign of what he diagnosed as our 'postmodern condition', has become more or less an established and unquestioned point of departure among historians. This suspicion, at its most extreme, has led to a radical conclusion of the 'end of history' in the work of postmodern scholars such as Jean Baudrillard and Francis Fukuyama. The contributors to Critical Music Historiography take a step back and argue that the radical view of the 'impossibility of history', as well as the unavoidable ideology of any history, are counter-productive points of departure for historical scholarship. It is argued that metanarratives in history are still possible and welcome, even if their limitations are acknowledged. Foucault, Lyotard and others should be taken into account but systematized viewpoints and methods for a more critical and multi-faceted re-evaluation of the past through research are needed. As to the metanarratives of music history, they must avoid the pitfalls of evolutionism, hagiography, and teleology, all hallmarks of traditional historiography. In this volume the contributors put these methods and principles into practice. The chapters tackle under-researched and non-conventional domains of music history as well as rethinking older historiographical concepts such as orientalism and nationalism, and consequently introduce new concepts such as occidentalism and transnationalism. The volume is a challenging collection of work that stakes out a unique territory for itself among the growing body of work on critical music history.

**Police Without Borders** Cliff Roberson,Dilip K. Das,Jennie K. Singer,2016-04-19 The Fifteenth Annual International Police Executive Symposium brought together 65 police executives, government officials, academics, and researchers to discuss issues relating to all aspects of policing in a global community. It focused on policing without borders, the need for national and international cooperation among policing agencies, and the need for cooperation between the police, the academic community, private policing agencies, and the general public. Drawn from the presentations made at this symposium and supplemented with additional input from eminent experts, Police Without Borders: The Fading Distinction between Local and Global reflects the current status of research on this timely and critical topic. Topics discussed include: Policing activity, human rights, and corruption Female policing in India compared to other countries Challenges and obstacles in policing in Slovenia, China, Asia, and the Pacific Strategies for preventing juvenile delinquency in Japan and Hong Kong The threat caused by nonreturnable arrest warrants in Canada An insider's look at the United Kingdom's Integrated Special Branch, an intelligence unit Virtual organized crime in cyberspace A successful public housing safety initiative in the Eastern District of New York Highlighting individual differences in police theory, style, and practice around the world, this volume opens a dialogue in which police agencies and academics can learn from other cultures, recognize their similarities, and move towards an improved global policing methodology.

**Doing Diaspora Missiology Toward "Diaspora Mission Church"** Luther Jeom Ok Kim,2016-01-05 In U.S. Population Projections: 2005-2050, Pew Research Center reported that The nation's population will rise to 438 million in 2050, from 296 million in 2005, and fully 82% of the growth during this period will be due to immigrants arriving from 2005 to 2050 and their descendants. This shows that it is essential to study and understand how our mission, especially in the context of the USA, called the nation of immigrants, will respond to this huge mobility of immigrant diaspora. So far, there has been emphasis on doing diaspora missiology; however, there is no practical implications and application in local church setting. Now mission is next door, which implies that the ministry of the local church should be emphasized for 21st contemporary mission. This book provides detailed frameworks and methods of diaspora missiology within local churches, called 'diaspora mission church.' According to the Bible, all human beings are theologically and spiritually diaspora, irrespective of ethnicity, because they were banished from the Garden of Eden, and scattered around the world in God's judgment. Now, they walk toward the encounter with Jesus Christ, preach the gospel as the seed of Kingdom, and finally move toward heaven.
