Clio Wired Roy Rosenzweig, 2011-01-05 In these visionary essays, Roy Rosenzweig charts the impact of new media on teaching, researching, preserving, presenting, and understanding history. Negotiating between the cyberenthusiasts who champion technological breakthroughs and the digitalskeptics who fear the end of traditional humanistic scholarship, Rosenzweig re-envisioned academic historians' practices and professional rites while analyzing and advocating for amateur historians' achievements. While he addresses the perils of doing history online, Rosenzweig eloquently identifies the promises of digital work, detailing innovative strategies for powerful searches in primary and secondary sources, the increased opportunities for dialogue and debate, and, most of all, the unprecedented access afforded by the Internet. Rosenzweig draws attention to the opening up of the historical record to new voices, the availability of documents and narratives to new audiences, and the attractions of digital technologies for new and diverse practitioners. Though he celebrates digital history's democratizing influences, Rosenzweig also argues that we can only ensure the future of the past in this digital age by actively resisting the efforts of corporations to put up gates and profit from the Web.

Willy Helps a Friend Stacey Ann Beitler, 2010-04 Author and educator Stacey Ann Beitler's Willy Helps a Friend is a wonderful children's tale that teaches the importance of courage and fairness. When Skunk arrives on Old MacDonald's Farm, none of the other animals will get close enough to her to get to know her. Skunk, a sad newcomer to the farm, is shunned by the other animals and their preconceived notions of her. Willy the Worm has the courage to befriend Skunk and realizes that she is not much different than the other animals after all. Can Willy convince the other animals to give Skunk a chance? Can the other animals find things they have in common with Skunk? This delightful story allows children to become a part of Old MacDonald's Farm while incorporating important lessons about empathy and fairness. Stacey Ann Beitler believes in teaching character education to children from a young age. Before becoming a full-time mom and writer, she taught first grade for eight years. Each book in Beitler's Willy series focuses on character education concepts that will support parents and teachers in their efforts to instruct young children about important lifelong character traits. She grew up and currently lives in Yorktown, New York with her family. Publisher's website: <http://www.strategicpublishinggroup.com/title/WillyHelpsAFriend.htm>

The Siege of Tsingtau Charles Stephenson, 2017-06-30 "A well-written, modern narrative of the political and military events leading up to, during and after the German-Japanese War of 1914."—The Australian Naval Institute The German-Japanese War was a key, yet often neglected, episode in the opening phase of the First World War. It had profound implications for the future,

particularly in respect of Japan's acquisition of Germany's Micronesian islands. Japan's naval perimeter was extended and threatened the United States naval strategy of projecting force westward. The campaign to relieve Germany of Tsingtau, the port and naval base in China, and its hinterland posed a grave threat to Chinese independence. The course of the Second World War in China and the Pacific cannot be explained without reference to these events. Charles Stephenson's account makes fascinating reading. The siege of Tsingtau by the Japanese, with token British participation, forms the core of his story. He draws on Japanese and German primary sources to describe the defenses, the landings, the course of the siege, and eventual German surrender. His study will be absorbing reading for anyone interested in the campaigns of the First World War outside of Europe, in German colonial expansion and the rise to power of Japan. "Overall the volume delivers a much needed, interesting and often highly detailed overview of operations in the Pacific and the siege of Tsingtau. The volume excels especially in its detailed narrative of naval and land operations in the Pacific and in China. The geopolitical background provides a most useful introduction to the history of the region."—International Journal of Maritime History

Move First, Think Later Willy Hendriks, 2014-08-01 The chess playing mind does not work like a machine. Selecting a move results from rather chaotic thought processes and is not the logical outcome of applying a rational method. The only problem with that, says International Master Willy Hendriks, is that most books and courses on improving at chess claim exactly the opposite. The dogma of the chess instruction establishment is that if you only take a good look at certain 'characteristics' of a position, then good moves will follow more or less automatically. But this is not how it happens. Chess players, weak and strong, don't first judge the position, then formulate a plan and afterwards look at moves. It all happens at the same time, and pretending that it is otherwise is counterproductive. There is no use in forcing your students to mentally jump through theoretical hoops, according to experienced chess coach Hendriks. This work shows a healthy distrust of accepted methods to get better at chess. It teaches that winning games does not depend on ticking off a to-do list when looking at a position on the board. It presents club and internet chess players with loads of much-needed no-nonsense training material. In this provocative, entertaining and highly instructive book, Hendriks shows how you can travel light on the road to chess improvement!

A Priest, A Prostitute, and Some Other Early Texans Don Blevins, 2016-09-01 This unique collection of short biographies of the Lone Star State's most colorful characters includes headliners Father Miguel Muldoon, the Irish-Spanish Catholic priest and diplomat who helped convert Protestants in order to settle Austin, and six-foot-two prostitute and hotelkeeper Sarah Bowman, who fought as bravely as a man among the Rangers and was buried with full military honors. These are just two of the pioneers who helped build the state amidst wars with Seminoles and Mexicans, gold rushes, and cavalry formations. These fourteen vivid accounts of extraordinary lives are like no other history of Texas and will reach a wide audience of readers who love to read about real people.

Willy Victor and 25 Knot Hole Bruce Jarvis, 2012-09-25 In the early hours of April 17, 1952 World War III nearly began. The Distant Early Warning line (DEW) was still an idea to be addressed by the U.S. government and its top military brass. "Willy Victor and 25 knothole" is about that vital cog of airborne defense against the real threat of a sneak attack (atomic and/ or airborne) against the American mainland. Bruce Jarvis, former naval flight crew member, recounts the operations of his Airborne Early Warning Squadron (AEWRON) experience, flying in a Lockheed Super Constellation Warning Star (Navy designation Willy Victor-2) in support of the DEW line that became fully operable in the year 1957. It introduces readers to the flyers' lives during

the Cold War, and with little fanfare (but much moxie) recalls the unknown heroism of some of the front line troops in the form of a fictional but typical crew of naval airmen, of the now defunct conflict between Russia and the United States. Although the crew is fictional, their stories are true. The entire U.S. air defense effort was conceptualized by what is known as the Lincoln Summer Study Group in 1952. It was in response to the panic in NORAD (the North American Defense Command) when "bogeys" or aircraft contrails were spotted near northern Canada—the U.S. had neither warning nor the means to combat its threat, if any. Had Krushchev so chosen, the bogeys could have been the vanguard of a Russian first strike on the heart of America. The stories in "Willy Victor and 25 knothole" include purposes of the AEWRON missions, their importance, the people who flew them, personal anecdotes, their ground crews, their families and women and their sad or happy moments. It shows the human face of a war mostly fought in the rarefied scientific/technological and secret ops realms. Bruce Jarvis has taken good care in writing this book so that Americans may know and not forget the few good men who put their lives on the line during the cold war to protect the United States of America.

¿QUOD EST, SUMMUS? ¿EN QUE QUEDAMOS, SUPREMO? VIII QUORUM VIII, 2014-08-20
 ¿En que quedamos Supremo? La balanza de la justicia se inclina a favor o en contra, según se lo arroge la ley y el derecho. La gente acude a los tribunales estatales y federales a resolver sus querellas y anhelan obtener justicia como una legítima aspiración consagrada en la Constitución y en la Carta de Derechos Civiles. Las sentencias que se dictan en los tribunales fundamentales, sea un fallo a favor o en contra, será probidad para conformar una ulterior jurisprudencia. Así se ha construido el camino de la equidad y la justicia por siglos. En muchas ocasiones la balanza de la justicia se ha inclinado en contra de los derechos, sometiendo la justicia a intereses particulares, preferencias filosóficas y políticas, aun cuando el canon legal sea claro y evidente. ¿Cómo puede la ley ir en contra de la justicia? ¿Acaso la ley no invoca la justicia misma? ¿Adónde van a morir las demandas cuando los tribunales menores no interpretan acertadamente la ley? Al Tribunal Supremo de Justicia... Y siendo este el final del camino en busca de equilibrar la balanza. ¿En qué quedamos Supremo?

The Armies of East Asia Dennis Van Vranken Hickey, 2001 The end of the 1980s and the beginning of the 1990s have been a time of great change for academic libraries and librarians. Rapid developments in technology have revolutionized the libraries' means and mission, while declining budgets have adversely impacted the ability of librarians to carry out their roles. The literature of academic librarianship today reflects these changes and points to the direction in which academic libraries are headed. This book is a comprehensive guide to book chapters and articles written on academic librarianship between 1990 and 1993. Entries for nearly 1,700 works are grouped in six topical chapters for ease of use. Each entry includes an informative annotation that summarizes the key points made by the authors, the major findings of research projects, and the names and locations of libraries with innovative programs. Extensive author, article, book/journal title, and subject indexes conclude the work. The volume is a useful tool for locating specific information on various topics, and it is a forecast of the future of academic libraries.

Tarnished Hero Dr. Daniel Schultz, 2019-11-21 James Mark Sullivan was part of the post-famine Irish immigration to the United States in the late 19th century. Overcoming family misfortune, he moved from newsboy to journalist to Yale-educated lawyer. Relocating to New York City, his association with Tammany Hall involved him in the Crime of the Century Becker-Rosenthal murder case, a role not previously explored. Sullivan's involvement won him a patronage appointment as ambassador to Santo Domingo. Scandals about graft and corruption forced his resignation. However, another factor which contributed to his dismissal, unexplained until now, was his effort at

subversion of his government's policy of neutrality, which was connected to his ties to Irish nationalism. He later established the first indigenous Irish film company with a pronounced Nationalist agenda, making several films which are now classics of the silent film era. Following the death of his wife and son during the influenza epidemic of 1918, he returned to the United States. Failing to revive his legal career, he removed to Florida, dying in relative obscurity.

Tailspin Aravind Yelery, Mrudul Nile, 2021-11-22 In recent decades, Asia's ascent has been contextualized as the rise of two major neighboring countries in Asia - India and China. Besides voluminous work on the prospects and convergences between the two, currently they stand at an intersection of time where suspicion and mistrust veils the confidence. A degree of uncertainty arises from the more profound paradoxes, and India has been falling short in escaping the tailspin China has created in the bilateral, regional and global economic dynamics. India's China relations is not just about boundaries and boycott of Chinese products. The root of the relationship lies in deficiency of trust, knowledge, and repository of experts on China. To deal with India's China Tailspin effectively, one must know and comprehend China thoroughly. This book brings out several aspects of India's political-economic relations with China on the table. The book underlines the fact that while leveraging China's inherent contradictions, India has to deleverage from China's subtle global aspirational designs of domination. Besides analyses on leadership, state capitalism, and geo-economics, the book describes special cases such as the Trade War, Structural Conflicts in Chinese Political Economy, Bangladesh-China-India-Myanmar Economic Corridor, WTO negotiations, Maritime trade, Belt and Road Initiative, and Taiwan to better elaborate the stakes involved in dealing with China. The recent boundary tension created a long tailspin, which in turn set off a raucous debate over China's economic diplomacy and how India could comprehend it well. Bribery and Extortion Alexandra Addison Wrage, 2007-09-30 Bribery plays a significant role in international criminal activity. Terrorists pay bribes. Money-launderers pay bribes. Those who traffic in people, narcotics, and illegal arms pay bribes. People pay immigration officers not to ask, customs officials not to inspect, and police officers not to investigate. Bribes follow patterns that are not at all mysterious to the officials, salesmen, and citizens who seek them and pay them. Using a series of international cases, Wrage examines bribery, peeling back the mystique and ambiguity and exposing the very simple transactions that lie beneath. She shows how these seemingly everyday transactions can affect security, democratization, and human aid. Examples from around the world help to illustrate the nature of the problem and efforts at combating it. Bribery plays a significant role in international criminal activity. Terrorists pay bribes. Money-launderers pay bribes. Those who traffic in people, narcotics, and illegal arms pay bribes. People pay immigration officers not to ask, customs officials not to inspect, and police officers not to investigate. At corporate headquarters in the United States, it can be easy to dismiss modest bribes in distant countries as an unfortunate cost of doing business. Bribes follow patterns that are not at all mysterious to the officials, salesmen, and citizens who seek them and pay them. Using a series of international cases, Wrage examines bribery, peeling back the mystique and ambiguity and exposing the very simple transactions that lie beneath. She shows how these seemingly everyday transactions can affect security, democratization, and human aid around the globe. Bribery and Extortion presents a clear picture of the world of bribery and the havoc it can wreak on whole populations. Wrage covers commercial bribery, administrative and service-based bribery, and extortion. She considers bribery and extortion at both high levels of government and lower levels on the street. Examples from around the world help to illustrate the

nature of the problem and efforts at combating it. The book concludes with practical suggestions and an assessment of current efforts to stem the tide of bribery and restore transparency to everyday transactions in all realms.

Taiwanese Identity and Democracy O. Bedford, K. Hwang, 2006-09-02 This book examines the issues of democracy, nationalism and strengthening Taiwan consciousness in the light of the campaign strategies employed in Taiwan's 2004 presidential and legislative election from the perspective of the Taiwanese people and Taiwanese culture. Particular attention is paid to the mindset of the opposition party.

Fullness of Life for All, 2021-10-01 This important book is needed today. The challenges that Christian churches face have changed immensely in the last quarter-century. One of the central issues facing the churches everywhere in the world is their missionary presence in their nations and societies. The authors of this volume are among the world's leading missiological thinkers and represent major Christian traditions in Europe, Africa, and North America. In this new century, the Christian church faces new situations that include, for example, the fall of communism; the globalization of culture; cultural and religious minorities and multiple religious majorities in nearly every country; ethnic and interreligious tensions; relativism and individualism in Western culture; the rise of a global impact of a postmodern world view; poverty in poor countries and in urban areas in wealthy countries; and the decline of Western cultural authority and, with notable exceptions, of religious authority generally. This book speaks of ways in which Christian churches are seeking to respond to these challenges. The purpose of this book is to describe some of the main challenges facing the churches in mission today, particularly with reference to inter-religious conversations all over the world. The title of this volume has been derived from the theme of the 24th General Assembly of the World Alliance of Reformed Churches (WARC) at Accra in August, 2004 whose theme is, "That All May Have Life in Fullness."
