China and Great Power Responsibility for Climate Change Sanna Kopra,2018-08-06 As American leadership over climate change declines, China has begun to identify itself as a great power by formulating ambitious climate policies. Based on the premise that great powers have unique responsibilities, this book explores how China's rise to great power status transforms notions of great power responsibility in general and international climate politics in particular. The author looks empirically at the Chinese party-state's conceptions of state responsibility, discusses the influence of those notions on China's role in international climate politics, and considers both how China will act out its climate responsibility in the future and the broader implications of these actions. Alongside the argument that the international norm of climate responsibility is an emerging attribute of great power responsibility, Kopra develops a normative framework of great power responsibility to shed new light on the transformations China's rise will yield and the kind of great power China will prove to be. The book will be of interest to students and scholars of international relations, China studies, foreign policy studies, international organizations, international ethics and environmental politics.

The Jewish-Chinese Nexus M. Avrum Ehrlich,2008-06-26 The Jewish Chinese Nexus explores through a collection of articles the nexus between two of the oldest, intact, starkly contrasting and most interesting civilizations on earth; Jews and Chinese. This volume studies how they are interacting in modernity; how they view each other and what areas of cooperation are evolving between their scholars, activists and politicians and what talents, qualities and social assets are being recognized on each side for the purpose of cooperation and exchange. Featuring contributions from some of the most important scholars and activists from China and from around the Jewish Diaspora, the essays purview China related themes including the fascination of Chinese with Jews and Judaism and its potential value in Chinese national and religious reconstruction; religious and ethnic identity; East – West interactions. It deals with the growing Jewish community in China and its impact as well as the development of Jewish studies in China and the translation of Jewish texts into Chinese and their impact. The work is a first of its kind, identifying an emerging meeting point between these two people and arguing that despite the giant contrasts in their national constructs they have nonetheless other important patterns and themes in common which pave the way for fruitful cooperation and mutual respect.

Love and Marriage in Globalizing China Wang Pan,2014-11-13 As China globalizes, the number of marriages between Chinese people and foreigners is increasing. These Chinese--foreign marriages have profound implications for China's cultural identity. This book, based on extensive original research, outlines the different types of Chinese--foreign marriage, and divorce, and the changing scale and changing patterns of such marriages, and divorces, and examines how such marriages and divorces are portrayed in different kinds of media. It shows how those types of Chinese--foreign marriage where Chinese patriotism and Chinese values are preserved are depicted favourably, whereas other kinds of Chinese--foreign marriage, especially those where Chinese women marry foreign nationals, are disapproved of, male foreign nationals being seen as having a propensity to infidelity, deception, violence and taking advantage of Chinese women. The book contrasts the portrayal of Chinese--foreign marriage with the reality, and with the depiction of Chinese--Chinese marriage where many of the same problems apply. Overall, the book sheds much light on changing social processes and on current imaginings of China's place in the world.

The Dragon Awakes ,1999 Four essays ... analyze broad trends in Chinese military modernization. While they treat strategic capabilities ... the essays analyze considerably more. They look at the whole pattern of Chinese military modernization-- strategy, doctrine, information warfare,

ground, naval and air forces. The essays come to ... much the same conclusion: that while the PLA ... is acquiring pockets of modern capabilities through a variety of legal and illegal endeavors, these selective acquisitions do not offset the overall obsolescence of most of China's armed forces.

The Japanese Discovery of Chinese Fiction William C. Hedberg,2019-10-15 The classic

Chinese novel The Water Margin (Shuihu zhuan) tells the story of a band of outlaws in twelfth-century China and their insurrection against the corrupt imperial court. Imported into Japan in the early seventeenth century, it became a ubiquitous source of inspiration for translations, adaptations, parodies, and illustrated woodblock prints. There is no work of Chinese fiction more important to both the development of early modern Japanese literature and the Japanese imagination of China than The Water Margin. In *The Japanese Discovery of Chinese Fiction*, William C. Hedberg investigates the reception of The Water Margin in a variety of early modern and modern Japanese contexts, from eighteenth-century Confucian scholarship and literary exegesis to early twentieth-century colonial ethnography. He examines the ways Japanese interest in Chinese texts contributed to new ideas about literary canons and national character. By constructing an account of Japanese literature through the lens of The Water Margin's literary afterlives, Hedberg offers an alternative history of East Asian textual culture: one that focuses on the transregional dimensions of Japanese literary history and helps us rethink the definition and boundaries of Japanese literature itself.
