Re-thinking Intellectual Property YiJun Tian, 2008-08-20 Copyright laws, along with other Intellectual Property Rights (IPRs), constitute the legal foundation for the global knowledge-based economy and copyright law now plays an increasingly important role in the creation of business fortunes, the access to and dissemination of knowledge, and human development in general. This book examines major problems in the current IPR regime, particularly the copyright regime, in the context of digitization, knowledge economy, and globalization. The book contends that the final goals of IP law and policy-making are to enhance the progress of science and economic development, and the use and even-distribution of intellectual resource at the global level. By referring to major international IP consensus, recent developments in regional IP forums and the successful experiences of various countries, YiJun Tian is able to provide specific theoretical, policy and legislative suggestions for addressing current copyright challenges. The book contends that each nation should strengthen the coordination of its IP protection and development strategies, adopt a more systematic and heterogeneous approach, and make IP theory, policy, specific legal mechanisms, marketing forces and all other available measures work collectively to deal with digital challenges and in a way that contributes to the establishment of a knowledge equilibrium international society.

Modern Chinese Theologies Chloë Starr, 2023-10-31 The majority of Christians in China over the course of the last century have worshipped not in missionary-founded churches or in congregations affiliated with the contemporary Three-Self Patriotic Movement or Chinese Catholic Patriotic Association, but in independent and unregistered churches, often labeled house churches. From the Pentecostal and Charismatic movements within the mission-church landscape of the early twentieth century, to the Calvinist Reformed movement in the present-day Protestant church, the vibrant faith life and extraordinary church growth of this sector of Chinese Christianity offer a fascinating witness and lesson to the world church. Yet despite the size of their congregations and the spread of their teachings, the theologies of these independent and unregistered churches have drawn much less academic attention than those of mission-church or state church theologians. This volume presents a selection of new studies on house church theologians and theologies. These begin in the early twentieth century with studies of the Spiritual Gifts movement in Shandong and the nature of Pentecostalism in Hong Kong, and arrive in the present with essays on the changing role of women's leadership in the church, given the spread of Reformed thought and the theological implications of Westminsterian Neo-Calvinism in China. The second section of the volume is devoted to the theological writings and lives of the two most prominent independent church figures of the twentieth century: Wang Mingdao and Ni Tuosheng (Watchman Nee). These chapters include studies of spiritual theology; of Ni's doctrine of humanity, his views on salvation, and his prison letters; and of Wang Mingdao's life and moral thought, his Confucian beliefs, and his understanding of the relationship of Christians to the state. The third section of the volume foregrounds church voices like the fundamentalist Samuel Lamb and the mediating figure Yang Shaotang, and considers local developments in Roman Catholicism in light of Vatican reforms.

Masculinities and Hong Kong Cinema Laikwan Pang, Day Wong, 2005-03-01 This

collection of exciting essays explores how the representations and the ideologies of masculinities can be productively studied in the context of Hong Kong cinema. It has two objectives: first, to investigate the multiple meanings and manifestations of masculinities in Hong Kong cinema that compliment and contradict each other. Second, to analyze the social and cultural environments that make these representations possible and problematic. *Masculinities and Hong Kong Cinema* presents a comprehensive picture of how Hong Kong mainstream cinematic masculinities are produced within their own socio-cultural discourses, and how these masculinities are distributed, received, and transformed within the setting of the market place. This volume is divided into three interrelated parts: the local cinematic tradition; the transnational context and reverberations; and the larger production, reception, and mediation environments. The combination of these three perspectives will reveal the dynamics and tensions between the local and the transnational, between production and reception, and between text and context, in the gendered manifestations of Hong Kong cinema.

The African American Male School Adaptability Crisis (Amsac) Joe L. Rempson, 2016-03-12 The African American Male School Adaptability Crisis (AMSAC) cannot be solved by the school alone. It is a race problem which can only be solved if we black males provide the leadership in tackling our three major demons which now mainly account for the problem: IQ lag-fatherless families-crime. AMSAC had its origin about 100 years ago when, after the death of Washington, DuBois gained ascendancy in our African American Garden of Eden and replaced Washington's brains, property, and character gospel with a civil rights agenda. That agenda has led to a civil-rights fixation and our second bondage, Victimology, wherein being the victim has become part of our core identity and made us psychological slaves. Rather than being proud and self-reliant, disproportionately, we have come to see ourselves as victims who are entitled to system help and special treatment. This bondage and it is a bondage -- vitiates our manhood and the energy and drive required to pursue the adaptation pathway paved by Washington, but demonized by DuBois. Return to that pathway and we can confront and conquer AMSAC and our three major demons. Guided by history and the research evidence, this book details how. Its 20 chapters make for long reading, but, just by reading the first and last chapters, you can get the message. The motto of the proposed evidence-based experimental program, the African American Male Career Pathway Program (AMCAP). A special appeal is made to black athletes and entertainers to help propagate this motto and support the proposed high school student clubs (Student AMCAPs) in its implementation.

Comics through Time [4 volumes] M. Keith Booker, 2014-10-28 Focusing especially on American comic books and graphic novels from the 1930s to the present, this massive four-volume work provides a colorful yet authoritative source on the entire history of the comics medium. Comics and graphic novels have recently become big business, serving as the inspiration for blockbuster Hollywood movies such as the Iron Man series of films and the hit television drama *The Walking Dead*. But comics have been popular throughout the 20th century despite the significant effects of the restrictions of the Comics Code in place from the 1950s through 1970s, which prohibited the depiction of zombies and use of the word horror, among many other rules. *Comics through Time: A History of Icons, Idols, and Ideas* provides students and general readers a one-stop resource for researching topics, genres, works, and artists of comic books, comic strips, and graphic novels. The comprehensive and broad coverage of this set is organized chronologically by volume. Volume 1 covers 1960 and earlier; Volume 2 covers 1960–1980; Volume 3 covers 1980–1995; and Volume 4 covers 1995 to the present. The chronological divisions give readers a sense of the evolution of comics within the larger contexts of American culture

and history. The alphabetically arranged entries in each volume address topics such as comics publishing, characters, imprints, genres, themes, titles, artists, writers, and more. While special attention is paid to American comics, the entries also include coverage of British, Japanese, and European comics that have influenced illustrated storytelling of the United States or are of special interest to American readers.

Jerry Yang Paul Kupperberg, 2013 Jerry Yang was a bright child who always asked the question 'Why?' When he was 10 years old, his widowed mother, moved the family to California. While at Stanford University, Yang met fellow student David Filo and created Jerry and David's Guide to the World Wide Web. This list would one day become the Internet search engine giant Yahoo!

Teaching Dialogue Interpreting Letizia Cirillo, Natacha Niemants, 2017-10-15 Teaching Dialogue Interpreting is one of the very few book-length contributions that cross the research-to-training boundary in dialogue interpreting. The volume is innovative in at least three ways. First, it brings together experts working in areas as diverse as business interpreting, court interpreting, medical interpreting, and interpreting for the media, who represent a wide range of theoretical and methodological approaches. Second, it addresses instructors and course designers in higher education, but may also be used for refresher courses and/or retraining of in-service interpreters and bilingual staff. Third, and most important, it provides a set of resources, which, while research driven, are also readily usable in the classroom – either together or separately – depending on specific training needs and/or research interests. The collection thus makes a significant contribution in curriculum design for interpreter education.

Modelling the Field of Community Interpreting Claudia Kainz, Erich Prunc, Rafael Schögler, 2011 The field of community interpreting is characterised by continually changing political, social, institutional and cultural contexts. Over the last few years new approaches to the training of community interpreters have been conceptualised to meet the requirements of these developments and to replace lay interpreters by trained interpreters. The contributions of this volume present both innovative models of didactics and curricula for community interpreters and empirically and methodologically challenging analyses of various fields of community interpreting.

John Woo's The Killer Kenneth E. HALL, 2009-01-01 Has the creative period of the New Hong Kong Cinema now come to an end? However we answer this question, there is a need to evaluate the achievements of Hong Kong cinema. This series distinguishes itself from the other books on the subject by focusing in-depth on individual Hong Kong films, which together make the New Hong Kong cinema.

Handbook of China's Governance and Domestic Politics Chris Ogden, 2013-01-03 This Handbook provides an in-depth overview of how China is governed, how its domestic political system functions and the critical issues that it currently faces. Governed by the world's largest political party in the world's longest-ruling Communist regime, China is

undergoing a transitional period of rapid economic and social development. How this period is managed will have significant implications for the Chinese state and its population concerning China's governance structures and economy, as well as the country's justice, public health, education and internal/external security concerns. This transition to a modern state is not without its challenges – particularly in terms of how the Chinese state deals with diverse issues such as social inequality, corruption, separatism, increasing individualism and political reform. China's governance and domestic politics also have possible major global consequences, especially in the context of China's continued rise within the international system. This Handbook will improve understandings of the core national dynamics of this rise and, as levels of international interdependence with China increase, can offer vital insights concerning China's domestic attributes. Gaining a better knowledge of China's internal workings can also help better appreciate the multiple and varied problems that China's leaders will face in the coming decades. Critically, many of the core internal issues facing China also have potential external repercussions, principally in terms of rising social unrest, nationalism, environmental degradation, resource shortages and attitudes towards globalization. This book aims to cover these issues and will help readers to fully comprehend China's ongoing contemporary global significance.

Urbanization with Chinese Characteristics: The Hukou System and Migration

Kam Wing Chan, 2018-04-19 Many agree that rapid urbanization in China in the late 20th and early 21st centuries is a mega process significantly reshaping China and the global economy. China's urbanization also carries a certain mystique, which has long fascinated generations of scholars and journalists alike. As it has turned out, many of the asserted Chinese feats are mostly fancied claims or gross misinterpretations (of statistics, for example). There does exist, however, an urbanization that displays rather uncommon Chinese characteristics that remain to inadequately understood. Building on his three decades of careful research, Professor Kam Wing Chan expertly dissects the complexity of China's hukou system, migration, urbanization and their interrelationships in this set of journal articles published in the last ten years. These works range from seminal papers on Chinese urban definitions and statistics; and broad-perspective analysis of the hukou system of its first semi-centennial; to examinations of migration trends and geography; and critical evaluations of China's 2014 urbanization blueprint and hukou reform plan. This convenient assemblage contains many of Chan's recent important works. Together they also form a relatively coherent set on this topic. They are essential readings to anyone serious about gaining a true understanding of the prodigious urbanization in contemporary China.

Pension Sustainability in China Randong Yuan, 2021-11-29 *Pension Sustainability in China: Fragmented Administration and Population Aging* aims to investigate the impact of fragmentation and population ageing on pension sustainability in China. The book demonstrates how pension sustainability is compromised by various adverse effects produced by fragmentation, such as the moral hazard caused by the disarticulated

intergovernmental fiscal responsibility. An overlapping generations (OLG) model is updated with the latest demographic data and is used to assess the impact of population ageing on pension sustainability. The book considers whether adjustment in retirement age can ensure long-term financial sustainability. It explores how, compared to the population ageing, the issues stemming from the fragmentation pose a more insidious threat to pension sustainability in China.

Chinese Politics in the Xi Jinping Era Cheng Li, 2016-10-18 Chinese politics are at a crossroads as President Xi Jinping amasses personal power and tests the constraints of collective leadership. In the years since he became general secretary of the Chinese Communist Party in 2012, Xi Jinping has surprised many people in China and around the world with his bold anti-corruption campaign and his aggressive consolidation of power. Given these new developments, we must rethink how we analyze Chinese politics—an urgent task as China now has more influence on the global economy and regional security than at any other time in modern history. *Chinese Politics in the Xi Jinping Era* examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that inner-party democracy—the concept of collective leadership that emphasizes deal making based on accepted rules and norms—may pave the way for greater transformation within China's political system. Xi's legacy will largely depend on whether he encourages or obstructs this trend of political institutionalization in the governance of the world's most populous and increasingly pluralistic country. Cheng Li also addresses the recruitment and composition of the political elite, a central concern in Chinese politics. China analysts will benefit from the meticulously detailed biographical information of the 376 members of the 18th Central Committee, including tables and charts detailing their family background, education, occupation, career patterns, and mentor-patron ties.

Natural Treatments for Lyme Coinfections Stephen Harrod Buhner, 2015-02-22 A guide to the natural treatment of three coinfections of Lyme disease • Reviews the latest scientific research on Babesia, Ehrlichia, and Anaplasma • Reveals how these three conditions often go undiagnosed, complicate the treatment of Lyme disease, and cause symptoms from headache to seizures • Outlines effective natural treatments with herbs and supplements for specific symptoms and to combat overreactions of the immune system and the inflammation response Harvard researchers estimate there are nearly 250,000 new Lyme disease infections each year--only 10 percent of which will be accurately diagnosed. One of the largest factors in misdiagnosis of Lyme is the presence of other tick-borne infections, which mask or aggravate the symptoms of Lyme disease as well as complicate treatment. Three newly emergent Lyme coinfections are Babesia, Ehrlichia, and Anaplasma. Tens of thousands of people are known to be asymptotically infected and at least ten percent will become symptomatic this year--with symptoms ranging from chronic headache and arthritis to seizures. Distilling the latest scientific research on Babesia, Ehrlichia, Anaplasma, and Lyme disease, Stephen Buhner examines the complex synergy between these infections and reveals how they can go undiagnosed or resurface after antibiotic treatment. He explains how these organisms create cytokine cascades in the body--essentially sending the immune system into an overblown, uncontrolled inflammatory response in much the same way rheumatoid arthritis or cancer can. Providing an in-depth guide for those suffering from Babesia, Ehrlichia, or Anaplasma infection as well as for clinicians who work with those infected by these organisms, Buhner details effective natural holistic methods centered on herbs and supplements, such as Ashwaganda and Chinese Skullcap, and reveals how to treat specific symptoms, interrupt the cytokine cascades, reduce inflammation, and bring the immune system back into balance. He explains how these natural methods not only complement conventional Lyme disease treatments involving antibiotics and other pharmaceuticals but also provide

relief when other forms of treatment have failed.

China's G20 Leadership John J. Kirton, 2016-06-10 Kirton offers a comprehensive, systematic examination of China's G20 approach, diplomacy and influence since the G20's start as a forum for finance ministers and central bankers in 1999. This comprehensive reference tool works its way through China's elevation to the leaders' level with summits from 2008-2014, to the prospects for its Antalya Summit in November 2014 and above all China's first summit as host in Hangzhou in the autumn of 2016. This book contains a full treatment of China's role in the summits from 2011 to 2014, and China's plans, role and prospects for the summits in 2015 and 2016. Analytically, it develops and tests at the level of a single member country the systemic hub model of G20 governance that was developed for and guided in Kirton's 2013 book, *G20 Governance for a Globalized World*.

Tigers without Teeth Scott Wilson, 2015-03-19 This book analyzes the rise of civil society and legal contentiousness in China as the author examines how AIDS carriers and pollution victims pursue justice. His case studies highlight the development of civil society as well as the limitations to the "politics of justice" as the system balances between the rule of law and regime stability.
