Son of Hamas Mosab Hassan Yousef, Ron Brackin, 2011 The oldest son of Sheikh Hassan Yousef, a founding member of Hamas, reveals new information about the world's most dangerous terrorist organization, unveils the truth about his own role in the organization, and explains his dangerous decision to make his newfound Christian faith public.

Dreaming of Freedom Norma Hashim, 2019-08-21 Dreaming of Freedom presents poignant firsthand accounts of Palestinian minors held in Israeli detention facilities in the occupied West Bank.

Trust Me Nick Morgan, 2008-12-16 Nick Morgan shows how anyone can be an effective speaker by presenting an image of authenticity and respect for their audience, whether in a group presentation or a one-on-one conversation. He presents a four-step process, perfected in his teaching at Harvard, that enables the reader to use their own personal speaking style while becoming a more persuasive and charismatic communicator and leader. The basis of this process is the fact that when words and body language are in conflict, body language wins every time. This isn't easy to overcome, because normally body language is immediate, while the words lag slightly behind, and even a momentary conflict is perceptible to the audience. The key to success is to train your body language to unconsciously align with your message. The four steps: Form the attitude and intent to be open, and then let your body naturally express that intent. This feeling of openness will naturally affect the content of what you are saying, and it's that natural evolution that is at the heart of the process. Become connected to your audience. This creates a mutual energy, and you will naturally begin to think in terms of what the audience wants and needs in shaping your content. Ask yourself, what's my underlying emotion? Why does this matter to me? Becoming passionate about what you have to say naturally makes your audience care about it too. Really listen to the audience. Understanding their

needs and reactions will enable you to direct your communication in mutually beneficial ways.

The Kite Runner Khaled Hosseini, 2011-09-05 Afghanistan, 1975: Twelve-year-old Amir is desperate to win the local kite-fighting tournament and his loyal friend Hassan promises to help him. But neither of the boys can foresee what will happen to Hassan that afternoon, an event that is to shatter their lives. After the Russians invade and the family is forced to flee to America, Amir realises that one day he must return to Afghanistan under Taliban rule to find the one thing that his new world cannot grant him: redemption.

The Petroleum Triangle Steve A. Yetiv, 2011-10-15 In *The Petroleum Triangle*, Steve A. Yetiv tells the interconnected story of oil, globalization, and terrorism. Yetiv asks how Al-Qaeda, a small band of terrorists, became such a real and perceived threat to American and global security, a threat viewed as profound enough to motivate the strongest power in world history to undertake extraordinary actions, including two very costly wars. Yetiv argues that Middle East oil and globalization have combined to augment the real and perceived threat of transnational terrorism. Globalization has allowed terrorists to do things that otherwise would be more difficult and costly: exploit technology, generate fear beyond their capabilities, target vulnerable economic and political nodes, and capitalize on socio-economic dislocation. Meanwhile, Middle East oil has fueled terrorism by helping to bolster oil-rich regimes that terrorists hate, to fund the terrorist infrastructure, and to generate anti-American and anti-Western sentiments about American support for oil-rich regimes and perceived Western designs on Middle East oil. Together, Middle East oil and globalization have

combined in various ways to help create Al-Qaeda's real and perceived threat, and that of its affiliates and offshoots. The combined effect has shaped important contours of the Petroleum Triangle and of world affairs. A sweeping analysis of contemporary world politics and American foreign and military policy, *The Petroleum Triangle* convincingly argues that it is critical to understand the connections among oil, globalization, and terrorism if we seek to comprehend modern global politics. What happens within the Petroleum Triangle will help determine if the death of Osama bin Laden will ultimately cripple Al-Qaeda and its affiliates or be yet another milestone in an ongoing age of terrorism.

Introducing Intercultural Communication Shuang Liu, Zala Volcic, Cindy Gallois, 2010-11-09

Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including:

- theory corners with concise, boxed-out digests of key theoretical concepts
- case illustrations putting the main points of each chapter into context
- learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion
- a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes.

This book

will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

DayWater Daniel R. Thevenot, 2008-03-15 The European DayWater project has developed a prototype of an Adaptive Decision Support System (ADSS) related to urban stormwater pollution source control. The DayWater ADSS greatly facilitates decision-making for stormwater source control, which is currently impeded by the large number of stakeholders involved and by the necessary multidisciplinary knowledge. This book presents the results of this project, providing new insights into both technical and management issues. The main objectives of its technical chapters are pollution source control modelling, risk and impact assessment, and evaluation and comparison of best management practices. It also covers management aspects, such as the analysis of the decision-making processes in stormwater source control, at a European scale, and stormwater management strategies in general. The combination of scientific-technical and socio-managerial knowledge, with the strong cooperation of numerous end-users, reflects the innovative character of this book which includes actual applications of the ADSS prototype in significant case studies. DayWater: an Adaptive Decision Support System for Urban Stormwater Management contains 26 chapters collectively prepared by DayWater scientific partners and end-users associated with this European Research and Development project. It includes: A general presentation of the DayWater Adaptive Decision Support

System (ADSS) structure and operation modes A detailed description of the major components of this ADSS prototype The assessment of its components in significant case studies in France, Germany and Sweden The proceedings of the International Conference on Decision Support Systems for Integrated Urban Water Management, held in Paris on 3-4 November 2005. The book presents the ADSS prototype including a combination of freely accessible on-line databases, guidance documents, “road maps” and modelling or multi-criteria analysis tools. As demonstrated in several significant case studies the challenge for stormwater managers is to make the benefits of urban stormwater management visible to society, resulting in active co-operation of a diversity of stakeholders. Only then, will sustainable management succeed. DayWater: an Adaptive Decision Support System for Urban Stormwater Management advances this cause of sustainable urban management through Urban stormwater management, and makes achievable (by means of risk and vulnerability tools which are included) the goal of integrated urban water management (IUWM).

Popular Dance and Music in Modern Egypt Sherifa Zuhur, 2021-12-10 This book is an exploration into the history, aesthetics, social reality, regulation, and transformation of dance and dance music in Egypt. It covers Oriental dance, known as belly dance or danse du ventre, regional or group-specific dances and rituals, sha'bi (lower-class urban music and dance style), mulid (drawing on Sufi tradition and saints' day festivals) and mahraganat (youth-created, primarily electronic music with lively rhythms and biting lyrics). The chapters discuss genres and sub-genres and their evolution, the demeanor of dancers, trends old and new, and social and political criticism that use the imagery of dance or a dancer. Also considered are the globalization of Egyptian dance, the replication or fantasies of raqs sharqi outside of Egypt, as well as the dance as a hobby, competitive dance form, and focus of international dance festivals.

Customary International Humanitarian Law Jean-Marie Henckaerts, Carolin Alvermann, Comité international de la Croix-Rouge, 2005-03-03 Customary International Humanitarian Law, Volume I: Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts. Comment Don:RWI.

Numerical Methods and Optimization in Finance Manfred Gilli, Dietmar Maringer, Enrico Schumann, 2019-08-30 Computationally-intensive tools play an increasingly important role in financial decisions. Many financial problems-ranging from asset allocation to risk management and from option pricing to model calibration-can be efficiently handled using modern computational techniques. Numerical Methods and Optimization in Finance presents such computational techniques, with an emphasis on simulation and optimization, particularly so-called heuristics. This book treats quantitative analysis as an essentially computational discipline in which applications are put into software form and tested empirically. This revised edition includes two new chapters, a self-contained tutorial on implementing and using heuristics, and an explanation of software used for testing portfolio-selection models. Postgraduate students, researchers in programs on quantitative and computational finance, and practitioners in banks and other financial companies can benefit from this second edition of Numerical Methods and Optimization in Finance. Introduces numerical methods to

readers with economics backgrounds Emphasizes core simulation and optimization problems Includes MATLAB and R code for all applications, with sample code in the text and freely available for download

Postharvest Handling Wojciech J. Florkowski, Stanley E. Prussia, Robert L. Shewfelt, Bernhard Brueckner, 2009-02-21 Consideration of the interactions between decisions made at one point in the supply chain and its effects on the subsequent stages is the core concept of a systems approach. Postharvest Handling is unique in its application of this systems approach to the handling of fruits and vegetables, exploring multiple aspects of this important process through chapters written by experts from a variety of backgrounds. Newly updated and revised, this second edition includes coverage of the logistics of fresh produce from multiple perspectives, postharvest handling under varying weather conditions, quality control, changes in consumer eating habits and other factors key to successful postharvest handling. The ideal book for understanding the economic as well as physical impacts of postharvest handling decisions. Key Features: *Features contributions from leading experts providing a variety of perspectives *Updated with 12 new chapters *Focuses on application-based information for practical implementation *System approach is unique in the handling of fruits and vegetables

Battlegrounds H. R. McMaster, 2021-09-21 New York Times Bestseller Now with new text from McMaster addressing the January 2021 assault on the U.S. Capitol and recommending how citizens across the free world can work together to restore confidence in democratic institutions and processes From Lt. General H.R. McMaster, U.S. Army, ret., the former National Security Advisor and author of the bestselling classic *Dereliction of Duty*, comes a bold and provocative re-examination of the most critical foreign policy and national security challenges that face the United States, and an urgent call to compete to preserve America's standing and security. Across multiple administrations since the end of the Cold War, American foreign policy has been misconceived, inconsistent, and

poorly implemented. As a result, America and the free world have fallen behind rivals in power and influence. Meanwhile threats to security, freedom, and prosperity, such as nuclear proliferation and jihadist terrorism have grown. In *BATTLEGROUND*, H.R. McMaster describes efforts to reassess and fundamentally shift policies while he was National Security Advisor. And he provides a clear pathway forward to improve strategic competence and prevail in complex competitions against our adversaries. *Battlegrounds* is a groundbreaking reassessment of America's place in the world, drawing from McMaster's long engagement with these issues, including 34 years of service in the U.S. Army with multiple tours of duty in battlegrounds overseas and his 13 months as National Security Advisor in the Trump White House. It is also a powerful call for Americans and citizens of the free world to transcend the vitriol of partisan political discourse, better educate themselves about the most significant challenges to national and international security and work together to secure peace and prosperity for future generations.

Understanding Contexts Of Business In Western Asia: Land Of Bazaars And High-tech Booms Leopaul Dana, Aidin Salamzadeh, Veland Ramadani, Ramo Palalic, 2022-05-05 Not one size fits all. Yet, some books teach business with minimal focus on the context for business. In reality, firms — large and small — are highly affected by the context in which they operate; yet, context is not uniformly conceptualized, theorized, and operationalized by scholars of business and management. While most theories have come from developed countries with bountiful contexts, the diverse contexts of Western Asia are little understood. Religious factors are profoundly dominant in Western Asia, and businesses in this diverse area operate with considerations that are rarely considered in research. This book reveals a variety of schools of thought that have molded several business models and mechanisms, which are, to some extent, different from the context of Western economies.

Armed Conflicts in South Asia 2008 D. Suba Chandran,P. R. Chari,2020-11-29 This book examines the major armed conflicts in South Asia — in India (with special reference to the Northeast, Jammu & Kashmir and the Naxalites), Pakistan, Nepal, Bangladesh, Sri Lanka and Afghanistan. Designed as an annual series, the articles cover a set of issues across volumes. Each article provides a brief historical sketch of the emergence of armed conflict and outlines its various phases. The roles, objectives and strategies of the major state, non-state and international actors are critically evaluated.
