Hope in Action Heather Fiske, 2012-07-26 Respectful and effective solution-focused brief therapy (SFBT) for suicidal clients Few tasks are more important—and daunting—than to help someone who is suicidal to go beyond the darkness of hopelessness to the light of hope. *Hope in Action: Solution-Focused Conversations About Suicide* is a unique resource providing fresh approaches to treating individuals and families where suicide is an issue. This comprehensive book provides a thorough grounding in using a solution-focused therapy approach to elicit and reinforce hope and reasons for living. Strategies are demonstrated with stories, case vignettes, and transcripts. Special applications include some of the most challenging high-risk clients that therapists treat, including people who make repeated attempts. This powerful resource offers a set of practice principles based on the existing empirical evidence in the context of clinical utility and client expertise. *Hope in Action: Solution-Focused Conversations About Suicide* provides case transcripts to help in role-play or rehearsal situations as well as numerous practical tips. The book also provides lists of solution-focused questions for use in various situations, including suicide crisis, the use of anti-depressant medications, facilitation of collaborative working relationships with colleagues as well as clients. Each application chapter gives therapists practical, hands-on tools and uses stories and illustrations to make the book user-friendly. The text also offers a brief appendix on the basic skills of SFBT. Topics discussed in *Hope in Action: Solution-Focused Conversations About Suicide* include: current knowledge about preventing suicide at the individual level helping clients to utilize their strengths even when they are in crisis how research in diverse areas supports the solution-focused approach effective treatment for couples and families when one member is suicidal basic approaches to effective therapy with young children and teens who have attempted suicide respectful, effective therapy with people who seem to have adopted being suicidal as their primary coping strategy therapeutic tools that help the therapist to stay hopeful about clients and strengthen the therapeutic relationship *Hope in Action: Solution-Focused Conversations About Suicide* is a valuable resource for counselors and therapists at every experience level.

The Undergraduate's Companion to African Writers and Their Web Sites Miriam E. Conteh-Morgan, 2005-10-30 Now a firmly established part of world literature course offerings in many general education curricula, African literature is no longer housed exclusively with African Studies programs, and is often studied in English, French, Portuguese, Women's Studies, and Comparative Studies departments. This book helps fill the great need for research materials on this topic, presenting the best resources available for 300 African writers. These writers have been carefully selected to include both well-known writers and those less commonly studied yet highly influential. They are drawn from both the Sub-Sahara and the Maghreb, the major geographical regions of Africa. The study of Africa was introduced into the curriculum of institutions of higher learning in the United States in the 1960s, when the Black Consciousness movement in the United States and the Cold War and decolonization movements in Africa created a need for the systematic study of other regions of the world. Between 1986 and 1991, three Africans won Nobel literature prizes: Soyinka, Mahfouz, and Gordimer, and the visibility of African writers increased. They are now a firmly established part of world literature courses in many general education curricula throughout North America. *African Writers* is meant to serve as a resource for introductory material on 300 writers from 39 countries. These writers were selected on the basis on two criteria: that there is material on them in an easily available reference work; and that there is some information of research value on free Web sites. Each writer is from the late-19th or 20th century, with the notable exception of Olaudah Equiano, an 18th-century African whose slave narrative is generally considered the first work of African literature. All entries are annotated.

Film Fatales Tom Lisanti, Louis Paul, 2002-04-10 Sean Connery began the sixties spy movie boom playing James Bond in *Dr. No* and *From Russia with Love*. Their success inspired every studio in Hollywood and Europe to release everything from serious knockoffs to spoofs on the genre featuring debonair men, futuristic gadgets, exotic locales, and some of the world's most beautiful actresses whose roles ranged from the innocent caught up in a nefarious plot to the femme fatale. Profiled herein are 107 dazzling women, well-known and unknown, who had film and television appearances in the spy genre. They include superstars Doris Day in *Caprice*, Raquel Welch in *Fathom*, and Ann-Margret in *Murderer's Row*; international sex symbols Ursula Andress in *Dr. No* and *Casino Royale*, Elke Sommer in *Deadlier Than the Male*, and Senta Berger in *The Spy with My Face*; and forgotten lovelies Greta Chi in *Fathom*, Alizia Gur in *From Russia with Love*, and Maggie Thrett in *Out of Sight*. Each profile includes a filmography that lists the actresses' more notable films. Some include the actresses' candid comments and anecdotes about their films and television shows, the people they worked with, and their feelings about acting in the spy genre are offered throughout. A list of websites that provide further information on women in spy films and television is also included.

Religion and Community in the New Urban America Paul D. Numrich, Elfriede Wedam, 2015-04-14 Religion and Community in the New Urban America examines the interrelated transformations of cities and urban congregations. The authors ask how the new metropolis affects local religious communities and what role those communities play in creating the new metropolis. Through an in-depth study of fifteen Chicago congregations-Catholic parishes, Protestant churches, Jewish synagogues, Muslim mosques, and a Hindu temple, both city and suburban-this book describes congregational life and measures congregational influences on urban environments. Paul D. Numrich and Elfriede Wedam challenge the view held by many urban studies scholars that religion plays a small role-if any-in shaping postindustrial cities and that religious communities merely adapt to urban structures in a passive fashion. Taking into account the spatial distribution of constituents, internal traits, and external actions, each congregation's urban impact is plotted on a continuum of weak, to moderate, to strong, thus providing a nuanced understanding of the significance of religion in the contemporary urban context. Presenting a thoughtful analysis that includes maps of each congregation in its social-geographic setting, the authors offer an insightful look into urban community life today, from congregations to the places in which they are embedded.

Right to Recover Yvonne Perry, 2007 Yvonne Perry's book enrages and inspires: it leaves you with the feeling that something must be done, that it can be done, and that it will be done-because we will do it. This book changes the equation. -Don C. Reed, Roman Reed Spinal Cord Injury Research Act It is such a pleasure to work with a writer like Yvonne Perry. She has truly researched the research and spent hundreds of hours to find the facts to share with the readers of RIGHT TO RECOVER. Over the years I have read literally thousands of articles and documents from around the world about this subject and RIGHT TO RECOVER is the most complete work I have ever read. It provides an honest evaluation and asks readers to consider the facts and then form their own opinion instead of listening to people who have never researched the subject. -Reverend Dan Bloodworth, The Brian Bloodworth Stroke and Head Injury Research Foundation In a world confused with chaos in regard to Stem cell research. Yvonne Perry has moved beyond the political to the healing in her new book Right to Recover Winning the Political and Religious Wars over Stem Cell Research in America This educational book sheds light on the way Americans view embryonic stem cell and provides well-researched facts about all types of stem cell treatments throughout the world. This book will shed light on the future, today. -Dr. Eric S. Kaplan, Author of Dying to be Young, From Botox to Botulism and Lifestyles of the Fit and Famous Finally, the truth about stem cell research. I search the Internet daily for articles on stem cell research to pass along to other advocates. It's so maddening to constantly read the oppositions blatant lies concerning stem cell research. -Diane Wyshak, Stem Cell Battles.com

Somali Piracy Jade Lindley, 2016-06-23 Maritime piracy off the coast of Somalia was first recognised as a global concern in 2008 after the hijackings of World Food Programme vessels. It remains a serious impediment to international maritime trade and a significant risk to seafarers. Bringing a criminological perspective to the subject, this book presents an analysis of Somali piracy by means of Routine Activity Theory and regulatory pluralism. Based on data from a range of sources, including published documents and in-depth interviews with representatives of industry, government, and international organisations, the study concludes that no one institution or policy will suffice to control Somali piracy. Accordingly, a number of different actors and institutions have a role to play in reducing the supply of motivated offenders, the vulnerability of prospective victims, and in enhancing guardianship. The book envisages a holistic counter-piracy program based on a pluralistic regulatory model that is sustainable within the region, and

managed by the region, providing the best opportunity for both the immediate future, and for long-term success. This study will be essential reading for criminologists, public policy and legal scholars, as well as policy makers and regulators in countries affected by and dealing with piracy, and international professional advocacy groups operating in the maritime space.

Stonewall Martin Duberman,2019-06-04 The definitive account of the Stonewall Riots, the first gay rights march, and the LGBTQ activists at the center of the movement. “Martin Duberman is a national treasure.”—Masha Gessen, The New Yorker On June 28, 1969, the Stonewall Inn, a gay bar in New York's Greenwich Village, was raided by police. But instead of responding with the typical compliance the NYPD expected, patrons and a growing crowd decided to fight back. The five days of rioting that ensued changed forever the face of gay and lesbian life. In Stonewall, renowned historian and activist Martin Duberman tells the full story of this pivotal moment in history. With riveting narrative skill, he re-creates those revolutionary, sweltering nights in vivid detail through the lives of six people who were drawn into the struggle for LGBTQ rights. Their stories combine to form an unforgettable portrait of the repression that led up to the riots, which culminates when they triumphantly participate in the first gay rights march of 1970, the roots of today's pride marches. Fifty years after the riots, Stonewall remains a rare work that evokes with a human touch an event in history that still profoundly affects life today.
