**The Undergraduate's Companion to African Writers and Their Web Sites** Miriam E. Conteh-Morgan, 2005-10-30 Now a firmly established part of world literature course offerings in many general education curricula, African literature is no longer housed exclusively with African Studies programs, and is often studied in English, French, Portuguese, Women's Studies, and Comparative Studies departments. This book helps fill the great need for research materials on this topic, presenting the best resources available for 300 African writers. These writers have been carefully selected to include both well-known writers and those less commonly studied yet highly influential. They are drawn from both the Sub-Sahara and the Maghreb, the major geographical regions of Africa. The study of Africa was introduced into the curriculum of institutions of higher learning in the United States in the 1960s, when the Black Consciousness movement in the United States and the Cold War and decolonization movements in Africa created a need for the systematic study of other regions of the world. Between 1986 and 1991, three Africans won Nobel literature prizes: Soyinka, Mahfouz, and Gordimer, and the visibility of African writers increased. They are now a firmly established part of world literature courses in many general education curricula throughout North America. *African Writers* is meant to serve as a resource for introductory material on 300 writers from 39 countries. These writers were selected on the basis on two criteria: that there is material on them in an easily available reference work; and that there is some information of research value on free Web sites. Each writer is from the late-19th or 20th century, with the notable exception of Olaudah Equiano, an 18th-century African whose slave narrative is generally considered the first

work of African literature. All entries are annotated.

**I Am Not Yvonne Nelson** Yvonne Nelson,2023-05-16 I Am Not Yvonne Nelson is an explosive and riveting account of a young woman who sets out to discover herself, but finds out that she has been living with a false identity. The drama and the twists and turns of this moving story have all the markings of a spell-binding movie script, except that the protagonist, who is an actor, is contending with a reality that intermittently soaks her pillow with tears. Uncharacteristic of an autobiography, the author comes to her audience stark naked. The book opens the door widely into the life of the author and exposes the good, the bad and the ugly sides, not only of her life, but also of the make-believe world of celebrities.

*Film Fatales* Tom Lisanti,Louis Paul,2002-04-10 Sean Connery began the sixties spy movie boom playing James Bond in Dr. No and From Russia with Love. Their success inspired every studio in Hollywood and Europe to release everything from serious knockoffs to spoofs on the genre featuring debonair men, futuristic gadgets, exotic locales, and some of the world's most beautiful actresses whose roles ranged from the innocent caught up in a nefarious plot to the femme fatale. Profiled herein are 107 dazzling women, well-known and unknown, who had film and television appearances in the spy genre. They include superstars Doris Day in Caprice, Raquel Welch in Fathom, and Ann-Margret in Murderer's Row; international sex symbols Ursula Andress in Dr. No and Casino Royale, Elke Sommer in Deadlier Than the Male, and Senta Berger in The Spy with My Face; and forgotten lovelies Greta Chi in Fathom, Alizia Gur in From Russia with Love, and Maggie Thrett in Out of Sight. Each profile includes a filmography that lists the actresses' more notable films. Some include the actresses' candid comments and anecdotes about their films and television shows, the people they worked with, and their feelings about acting in the spy genre are offered throughout. A list of websites that provide further information on women in spy films and television is also included.

**Right to Recover** Yvonne Perry,2007 Yvonne Perry's book enrages and inspires: it leaves you with the feeling that something must be done, that it can be done, and that it will be done-because we will do it. This book changes the equation. -Don C. Reed, Roman Reed Spinal Cord Injury Research Act It is such a pleasure to work with a writer like Yvonne Perry. She has truly researched the research and spent hundreds of hours to find the facts to share with the readers of RIGHT TO RECOVER. Over the years I have read literally thousands of articles and documents from around the world about this subject and RIGHT TO RECOVER is the most complete work I have ever read. It provides an honest evaluation and asks readers to consider the facts and then form their own opinion instead of listening to

people who have never researched the subject. -Reverend Dan Bloodworth, The Brian Bloodworth Stroke and Head Injury Research Foundation In a world confused with chaos in regard to Stem cell research. Yvonne Perry has moved beyond the political to the healing in her new book *Right to Recover Winning the Political and Religious Wars over Stem Cell Research in America* This educational book sheds light on the way Americans view embryonic stem cell and provides well-researched facts about all types of stem cell treatments throughout the world. This book will shed light on the future, today. -Dr. Eric S. Kaplan, Author of *Dying to be Young, From Botox to Botulism and Lifestyles of the Fit and Famous Finally*, the truth about stem cell research. I search the Internet daily for articles on stem cell research to pass along to other advocates. It's so maddening to constantly read the oppositions blatant lies concerning stem cell research. -Diane Wyshak, Stem Cell Battles.com

**Things My Mothers Never Told Me** Yvonne Craig Inskip, 2013-07-25 Im six years old and having a life crisis. Are you my mummy? is the question I could never ask because I love both my mothers equally: Tyna, the tiny one and Bigga, who is bigger. I havent got a daddy either, and it seems rude to ask. This is a sharp and entertaining true story, beginning in war-torn London, of how the author navigated her way through family passions and oddities, secrets and multiple identities. On the way she encounters a Christmas pudding sent annually care of the Bank of Scotland; sitting on a Tutors cat during a Cambridge University interview; running the family corner shop as a school girl; discovering a cache of beautiful postcards from all over Europe; and the seaside wedding of one of her mothers. One of my mothers is has yet another stroke. Im by her side when the consultant points to a scar on her belly and asks her what it is. Silently she raises her hand and gestures towards me. A Caesarean section all those years ago. I am her daughter. We never speak of it. After Bigga and Tyna died, I begin a paper trail to find news of my father. One morning I walk across Westminster Bridge to meet a half-sister. I have been an only child for 50 years. Over lunch I discover that I am the sixth of seven siblings born to four women - and I have a famous Swiss grandfather. The book ends by tackling some questions Im often asked, such as: Were your mothers lesbians? Does a child need a father? Is the past good for you? Do therapists help?

*Religion and Community in the New Urban America* Paul D. Numrich, Elfriede Wedam, 2015-04-14 Religion and Community in the New Urban America examines the interrelated transformations of cities and urban congregations. The authors ask how the new metropolis affects local religious communities and what role those communities play in creating the new metropolis. Through an in-depth study of fifteen Chicago congregations-Catholic parishes, Protestant churches, Jewish synagogues, Muslim mosques, and a Hindu temple, both city and suburban-this book describes congregational life and measures congregational influences on urban environments. Paul D. Numrich and Elfriede Wedam challenge the view held by many urban studies scholars that religion plays a small role-if any-in shaping postindustrial cities and that religious communities merely adapt to urban structures in a passive fashion. Taking into account

the spatial distribution of constituents, internal traits, and external actions, each congregation's urban impact is plotted on a continuum of weak, to moderate, to strong, thus providing a nuanced understanding of the significance of religion in the contemporary urban context. Presenting a thoughtful analysis that includes maps of each congregation in its social-geographic setting, the authors offer an insightful look into urban community life today, from congregations to the places in which they are embedded.
