The Law of Succession Danaya C. Wright, Lee-Ford Tritt, Patricia Stallwood-Kendall, 2013 This is a completely new trusts and estates casebook and takes a new approach in its material and structure. The book includes a toolbox section, introducing students early on to the basics of wills, trusts, powers, joint tenancies, life insurance, and miscellaneous other forms. Thus, this book organizes material around planning properly, rather than around litigation. The book also covers barriers to succession, such as the rule against perpetuities, slayer statutes, revocation, and litigation (mental capacity, no-contest clauses, and the like). Rather than including long and lightly edited cases, this book utilizes several case squibs that illustrate different factual scenarios for each legal issue followed by the court's decision and reasoning. The book also includes many statutes with lengthy analyses of the different types of statutes using the UPC as the primary model. The author also includes practice points, tax tips, and technology traps throughout the entire book. There are numerous problems throughout the materials, with the answers located at the back of the book.

Painting People in Watercolor Alex Powers, 2022-07-05 A fresh approach to portrait and figure painting in watercolor! In *Painting People in Watercolor*, Alex Powers provides a comprehensive guide on working with watercolor, mastering the principals of design, and understanding the fundamentals of portrait painting. Powers takes the inquiring artist beyond photorealistic painting and acquaints painters with the human form from a design perspective. Shifting the focus from subject matter to composition and aesthetics, Powers demonstrates how you can enjoy watercolor painting by expressively capturing character in faces and figures. An abundance of Powers's paintings illustrate the theories and techniques covered. The culmination of 23 years of Powers's painting experience, *Painting People in Watercolor* provides clarity and insight on successful watercolor painting techniques for novice to advanced students and doubles as a guide for teachers. 175 color plates; 100 black & white illustrations.

How to Paint Like Turner Nicola Moorby, Mike Chaplin, Ian Warrell, Tony Smibert, 2015-05-01 JMW Turner is one of the greatest artists Britain has ever produced. His watercolours, with their extraordinary effects of shifting light and dramatic skyscapes, are especially highly regarded. For the first time, the secrets of Turner's technique are revealed, allowing present-day watercolourists to learn from his achievements. This book combines unrivalled knowledge of Turner's working methods from Tate curators and conservators with practical advice from some of the world's most respected watercolour experts. Twenty-two thematic exercises are illustrated with Turner's works. Expert contemporary watercolourists explain, step-by-step, how to paint a similar composition, learning from Turner's techniques. Packed with invaluable information, from the materials Turner used to achieve the masterpieces we know and love today, to the modern materials the twenty-first-century watercolour artist will need. Backed by the authority of Tate, the world centre for Turner scholarship, with a glossary of technical terms, this is an invaluable resource both for lovers of Turner's art and of watercolour painting.

Vibrant Watercolours Shirley Trevena, 2006 Supremely illustrated book in watercolor painting.

Taking Risks with Watercolour Shirley Trevena, 2004 A practical and well-illustrated book for the intermediate water colourist who is looking for greater challenges in their work.

Egon Schiele Egon Schiele, 2011 This work traces Schiele's development as a portraitist through four principal chronological phases, from 1906 through 1918. Starting with the artists rigorous training at the Vienna Academy, it chronicles Schiele's eventual break with academia and the emergence of his Expressionistic style.
