Z Jonar C. Nader, 2005 What would you fight for? What would you die for? What would you kill for? From the author of 'How to Lose Friends and Infuriate People' comes a philosophical thriller with fast-paced military action, espionage, corporate corruption, human greed, romantic tension, and scientific revelations that are both worrisome and enlightening. Admiral Chris Barrie, the former Chief of the Australian Defence Force said, "Hang on to your seats, and open your eyes. I promise you that Jonar Nader's credible yet very frightening novel is compulsive reading. It will make you think deeply about where today's human race is headed. Nader mixes new and exciting technologies inside a globalised world that is controlled by multi-national corporations who are working beyond the limits of the nation-state. Along the way, ordinary people are swept up by events that turn into the ultimate of Faustian bargains!" The cover contains a battery-operated LCD module.

Szkolni strzelcy. Przewidywanie i zapobieganie morderstwom Jarosław Stukan, Książka w całości poświęcona jest skrajnej przemocy, dokonywanej przez dzieci i młodzież, najczęściej w szkołach. Jej stale nasilająca się fala każe prowadzić badania i poszukiwać wszelkich środków zapobiegawczych, które mogłyby przyczynić się do jej obniżenia. Dlatego też głównym celem autora stało się opracowanie schematu, dzięki któremu można przewidywać zagrożenie potencjalnego morderstwa. Tytułowy „szkolny strzelec”, to nastolatek, który z premedytacją próbuje odebrać życie co najmniej kilku ludziom, w jednostkowym akcie agresji, najczęściej w szkole. W książce opisano 28 takich przypadków, które poddano szczegółowej analizie. Jest to jedyna tego typu publikacja w skali światowej. Powinna zainteresować szerokie grono czytelników poczynając od rodziców, nauczycieli, pedagogów, psychiatrów, psychoterapeutów, kuratorów sądowych, sędziów, kryminologów, prokuratorów i policjantów, a skończywszy na tych czytelnikach, którzy lubią lekturę „z dreszczykiem”. Queen Victoria's Bomb Ronald Clark, 2013-05-14 A sudden intolerably bright fireball lights up a remote and deserted Indian plateau. Searing heat melts rock into incandescent pools of glowing liquid. The earth heaves. A monstrous thunderclap of sound reverberates over the land. An ominous mushroom-shaped cloud boils skywards. For years afterwards, strange plants and even stranger human mutants are discovered in the area, warped spawn of a mysterious and deadly force. Just another atomic test? Not exactly. Because it was Professor Huxtable's brainchild. And the professor is one of the most devoted and loyal servants of Queen Victoria?

Mass Control Jim Keith, 2003 Here stands the New Man. His conception of reality is a dance of electronic images fired into his forebrain, a gossamer construction of his masters, designed so that he will not-under any circumstances-perceive the actual. His happiness is delivered to him through a tube or an electronic connection. His God lurks behind an electronic curtain; when the curtain is pulled away we find the CIA sorcerer, the media manipulator. There has never been a book which so carefully and thoroughly exposes the secret plans to dominate world consciousness. Book jacket.

Cold War Sharon M. Hanes, Richard Clay Hanes, Lawrence W. Baker, 2004 This volume focuses on the origins of the Cold War, the beginning of the nuclear age, the arms race, espionage, and the Korean War.

The Zodiac Atlas R.S. Clemons, 2019-09-12 This book is a shorter, more abbreviated, and cheaper version of my first book, 'The Zodiac Killer Enigma; Cracking the Zodiac Killer Code'. This is not a book about the Zodiac Killer. Hundreds of books, articles, movies, television shows and much more are out there if you want to know about the Zodiac Killer. It is a tale that has been told and retold, written and rewritten, thousands of times.

This is something you have never seen before, even if you follow this subject. While the book must cover the basics of the case and introduce new readers to just exactly what a Zodiac Killer is, what he did, and the many letters he had written, the bulk of the book is dedicated to something completely new that most have never seen. Zodiac mailed a map to the newspapers and police with one of the many letters he had written. This map was completely blank except for a compass that had been drawn over a place called Mt. Diablo. Zodiac said this map could be used to find an alleged string of bombs he had planted beside of a road somewhere waiting for a school bus to go by. He also said this map somehow involved something called radians. But no one knew how to use a blank map to find marked locations. For over half a century this remained a mystery, until now. A bomb schematic sent by the mad man and puzzle maker turned out to be one of the keys for this map, one of a couple. An overlay key. Using a method that many examples can be found in history and is also taught in the military, he created a map overlay disguised as a bomb drawing. When two points on this drawing are aligned with two points on the map, one being the compass, marked locations can be revealed as well as a section of highway marked with a string of bombs. Whether these bombs were real or not is beside the point (but you would think that the world would want an answer to that question), what the real mystery and importance of these places are is another question entirely. Zodiac was most famous for the codes he created to taunt the police and not the murders he committed. Only one of his codes was ever said to have been solved while several others remain a mystery to this very day. His most famous unsolved code is called the '340 code' for the 340 symbols that comprise the code in a grid like formation. This book will also delve into the possibility that this code is also an overlay key for this map and it used to find the long sought after radians that Zodiac said we would find. Clues and evidence from his letters go to support this very idea. That is for you to decide. Don't believe what I tell you. Believe what I show you. Believe your own eyes. This may be the key that someone uses to solve the mystery once and for all.

The Politically Incorrect Guide to Women, Sex And Feminism Carrie L. Lukas, 2006-03-01 Argues that American feminism advocates values which do not take into account some of the complexities of career, family, and sexuality faced by women and that women need to make more informed choices using factual evidence rather than ideology.

The Zodiac Killer Map R. S. Clemons,2019-09-05 Do you want to know a secret? A secret that no one else has ever seen, about one of the greatest unsolved mysteries of our time, not to mention history, that is actually real? This book will show you. It's all about a mysterious map. A map created by a serial killer, that once unlocked, reveals the marked locations of bombs, murders, and mystery. It all started in San Francisco in the summer of 1969, when a butcher calling himself The Zodiac, mailed this map along with a series of codes to police and newspapers. In the decades that followed, FBI, NSA, CIA, every intelligence agency in the country, code breakers around the globe, millions of dollars, and untold man hours and have all went into trying to solve the mystery of these codes and map. All to no avail, until now. The key to it all, lie hidden in a simple sketch the killer had created. A blueprint he claimed to be a bomb, but wasn't a depiction of a bomb at all. In reality, it was one of the keys to the map. A key meant to be overlaid, exposing a section of highway marked by a string of bombs. This was not the only key to the map. There are more. Do you want to know the secret to the Zodiac Map? The secret of the Zodiac Killer Enigma? Of course, you do. Just click on the link and read the book. This print issue features full color images.

The Great Leader and the Fighter Pilot Blaine Harden,2016-04-07 A non-fiction thriller by international bestselling author Blaine Harden (*Escape from Camp 14*) that explores the worlds most repressive state through the intertwined lives of two North Koreans, one infamous, one obscure: Kim Il Sung, the former North Korean leader and No Kum Sok, once the state's youngest jet fighter pilot. Shortly before the Korean War ended, No Kum Sok met Kim Il Sung, who congratulated him for his flying skill and his courage. A few months later, No Kum Sok stole a Soviet-made MiG-15 and flew it to a US airfield in South Korea. Beginning with the arbitrary division of Korea in 1945 and ending two months after the shaky armistice that halted combat in the Korean War, *The Great Leader & the Fighter Pilot* is an ambitious and gripping book which digs deeply into the character of the Kim family dictatorship. At once an irresistible adventure story and an authoritative guide to the notorious state, it explains why North Korea remains so isolated, why it created and maintains a vast gulag of concentration camps, and why it is still so angry at the western world.

Malta Spitfire George Beurling,Leslie Roberts,2011-07-14 An aviator's true story of WWII air combat, including two dramatic weeks in the skies above the besieged island of Malta. Twenty-five thousand feet above Malta—that is where the Spitfires intercepted the Messerschmitts, Macchis, and Reggians as they swept eastward in their droves, screening the big Junkers with their bomb loads as they pummeled the island beneath: the most bombed patch of ground in the world. One of those Spitfire pilots was George Beurling, nicknamed “Screwball,” who in fourteen flying days destroyed twenty-seven German and Italian aircraft and damaged many more. Hailing from Canada, Beurling finally made it to Malta in the summer of 1942 after hard training and combat across the Channel. *Malta Spitfire* tells his story and that of the gallant Spitfire squadron, 249, which day after day ascended to the “top of the hill” to meet the enemy against overwhelming odds. With this memoir, readers experience the sensation of

being in the cockpit with him, climbing to meet the planes driving in from Sicily, diving down through the fighter screen at the bombers, dodging the bullets coming out of the sun, or whipping up under the belly of an Me for a deflection shot at the engine. This is war without sentiment or romance, told in terms of human courage, skill, and heroism—a classic of WWII military aviation.
