Four Approaches to the Book of Psalms Uriel Simon,2012-02-01 Uriel Simon describes the fascinating controversy that raged from the tenth to the twelfth centuries regarding the theological status and literary genre of the Psalms. Saadiah Gaon, who initiated the controversy, claimed that the Psalter was a second Torah—the Lord's word to David—and by no means man's prayer to God. Salmon ben Yerucham and Yefet ben Ali insisted on the Karaite view that the Book of Psalms was the prophetic common prayerbook of Israel. Totally opposing both of these concepts, Rabbi Moses Ibn Gikatilah regarded the Psalms as non-prophetic prayers authored by different poets, beginning with David and ending with the captive Levites in the Babylonian exile. Finally, Rabbi Abraham Ibn Ezra reverted to the belief held by the Talmudic sages—that the Psalms were Israel's divinely inspired and most sacred poetry. The book also includes the full text of a previously unknown introduction to Ibn Ezra's lost commentary on the Psalms, which is much more elaborate and revealing than the introduction to his familiar classical commentary.

Abraham Ibn Ezra and the Rise of Medieval Hebrew Science Shlomo Sela,2003-01-01 This book studies Abraham Ibn Ezra's (1089-1167) scientific thought. His life and oeuvre are viewed as the very embodiment of 'the rise of medieval Hebrew science', a process in which Jewish scholars gradually adopted the holy tongue as a vehicle to express scientific ideas.

The Secret of the Torah Abraham ben Meïr Ibn Ezra,1995 Ibn Ezra addresses the importance of the knowledge of grammar, stating that one cannot fully understand the text of the Torah without it. He also discusses the study of the Bible and the Talmud, arguing that one cannot properly comprehend the Talmud if one does not know the sciences, for there are many passages in the Pentateuch and the Talmud that are either incomprehensible or given to misinterpretation by one who has no prior knowledge of the sciences.

The Hebrew Book in Early Modern Italy Joseph R. Hacker,Adam Shear,2011-08-19 The rise of printing had major effects on culture and society in the early modern period, and the presence of this new technology—and the relatively rapid embrace of it among early modern Jews—certainly had an effect on many aspects of Jewish culture. One major change that print seems to have brought to the Jewish communities of Christian Europe, particularly in Italy, was greater interaction between Jews and Christians in the production and dissemination of books. Starting in the early sixteenth century, the locus of production for Jewish books in many places in Italy was in Christian-owned print shops, with Jews and Christians collaborating on the editorial and technical processes of book production. As this Jewish-Christian collaboration often took place under conditions of control by Christians (for example, the involvement of Christian typesetters and printers, expurgation and censorship of Hebrew texts, and state control of Hebrew printing), its study opens up an important set of questions about the role that Christians played in shaping Jewish culture. Presenting new research by an international group of scholars, this book represents a step toward a fuller understanding of Jewish book history. Individual essays focus on a range of issues related to the production and dissemination of Hebrew books as well as their audiences. Topics include the activities of scribes and printers, the creation of new types of literature and the transformation of canonical works in the era of print, the external and internal censorship of Hebrew books, and the reading interests of Jews. An introduction summarizes the state of scholarship in the field and offers an overview of the transition from manuscript to print in this period.

Understanding Scripture Clemens Thoma,1987 Scholarly essays that explore a wide range of issues of biblical interpretation in the two communities.

Jews Among Christians Sarit Shalev-Eyni,2010 Jews among Christians explores a corpus of illuminated Hebrew manuscripts of the Lake Constance region produced in the first decades of the fourteenth century. The author Sarit Shalev-Eyni, Professor at the Hebrew University of Jerusalem, provides a detailed and insightful study of the content, design, and iconography of the illustrations and decorations of a group of Ashkenahzi codices, thereby uncovering a surprising interface between Jews and Christians in the urban workshops of the time. Here, Christian artists would include midrashic components required by their Jewish instructor while drawing on the iconographic traditions of their Christian education, and artists of both religions were able to represent their own theological attitudes as well as profane tendencies and parody - in short, the various aspects of late medieval culture. A close comparison with the well-known Gradual of St. Katharinenthal, now in Zurich, and manuscripts such as the Schocken Bible, formerly in Jerusalem, and the Tripartite Mahzor -- originally bound as two volumes, but now split between Budapest, London and Oxford -- places the corpus firmly in the Lake Constance region and all but confirms the instructor to be one Hayyim, the scribe. The author's discussion of Hayyim's life and work and her historical overview of the relations between Jews and Christians in the final chapters of the book deepens our understanding of the religious and cultural dialogue between the two faiths not only in the production of this group of manuscripts but in the course of every-day life in the Middle Ages.

An Alternative Path to Modernity Yosef Kaplan,2000 The essays in this book depict the social and intellectual ferment of the former Marranos from Spain and Portugal who returned to the fold of Judaism in Western Europe during the seventeenth century and established new Jewish communities in Amsterdam, Hamburg and London.

Abraham Ibn Ezra Shlomo Sela,2007 From the Middle Ages until the present, the development of astrology among Jews was associated mainly with the name of Abraham Ibn Ezra (1089-1167). His scientific corpus deals with mathematics, astronomy, scientific instruments and tools, and the Jewish calendar; but especially with astrology. This volume is the first product of a larger enterprise—a scientific edition of all twelve Ibn Ezra's astrological treatises—and offers a critical Hebrew text of the two versions of Ibn Ezra's Sefer ha-Te'amim, the Book of Reasons, accompanied by an annotated translation and commentary. The two treatises presented here were designed by Ibn Ezra to offer reasons, explanations, or meanings of the raw astrological concepts formulated in the introduction to astrology that Ibn Ezra entitled Reshit Hokhmah (Beginning of Wisdom).

Biblia Hebraica Leningradensia Aron Dotan,2014-06 The most accurate edition of the Leningrad Codex in print, the Biblia Hebraica Leningradensia presents a thoroughly revised, reset, and redesigned edition of the Hebrew Bible meticulously prepared by renowned masoretic scholar Aron Dotan. The BHL includes features that suit it for research, classroom, and liturgical use. Scholars will find this a welcome edition of the Leningrad Codex, the oldest complete manuscript of the Hebrew Bible, whose text and layout it precisely follows. A foreword and five appendices provide the researcher with important details and distinctions about the codex. In addition to being a scientific edition, it was originally commissioned in Israel to follow the necessary adaptations that qualify it for Jewish liturgical use, such as divisions into weekly portions and their subdivisions for synagogue reading. Students, too, will find here an ideal text for classroom use, with an uncluttered format and printing that is matchless for its readability.

Shaping the Bible in the Reformation Bruce Gordon,Matthew McLean,2012-06-22 This volume collects significant new scholarship on the late mediaeval and early modern Bible, engaging with the work of theologians, the devotional needs of the laity and the shape their concerns gave to the most important book of the age.

T&T Clark Companion to Nonconformity Robert Pope,2013-11-21 Protestant Nonconformity, the umbrella term for Congregationalists, Presbyterians, Baptists, Methodists and Unitarians, belongs specifically to the religious history of England and Wales. Initially the result of both unwillingness to submit to the State's interference in Christian life and a dissatisfaction with the progress of reform in the English Church, Nonconformity has been primarily motivated by theological concern, ecclesial polity, devotion and the nurture of godliness among the members of the church. Alongside such churchly interests, Nonconformity has also made a profound contribution to debates about the role of the State, to family life and education, culture in general, trade and industry, the development of philanthropy and charity, and the development of pacifism. In this volume, for the first time, Nonconformity and the breadth of its

activity come under the expert scrutiny of a host of recognised scholars. The result is a detailed and fascinating account of a movement in church history that, while currently in decline, has made an indelible mark on social, political, economic and religious life of the two nations.

Introduction to the Rabbinic Bible Jacob ben Hayyim ben Isaac ibn Adonijah,Jacob ben Ḥayim ben Iṣḥaq,1867
The Sephardic Journey, 1492-1992 Yeshiva University. Museum,1992
Rabbi Abraham Ibn Ezra Isadore Twersky,Jay Michael Harris,1993 The six essays in this book explore ibn Ezra's multifaceted work and intellectual legacy. They illuminate his exegetical methodology; the role of astrology in his work; his philological insights into the Hebrew language; the possibility of his influence on the great Jewish philosopher and jurist Maimonides; and modern Jewish perspectives on him.

The Life of Glückel of Hameln, 1646-1724 Gl of Hameln,Glueckel (of Hameln),2010-01-11 A memoir that began as a 17th century German-Jewish widow's way to tell her life story to her 12 children offers more than just a look into her day-to-day life; it also offers a unique view of the Jewish community in Germany during the 1600s.

Silk Town Gail Malmgreen,1985
Hebraica Veritas? Allison Coudert,Jeffrey S. Shoulson,2004-05-11 In the early modern period, the religious fervor of the Reformation and Counter-Reformation, social unrest, and millenarianism all seemed to foster greater anti-Judaism in Christian Europe, yet the increased intolerance was also accompanied by more intimate and complex forms of interaction between Christians and Jews. Printing, trade, and travel combined to bring those from both sides of the religious divide into closer contact than ever before, while growing interest in magic and the Kabbalah encouraged Christians to study Hebrew in addition to Latin and Greek. In *Hebraica Veritas?* Christian Hebraists and the Study of Judaism in Early Modern Europe, noted scholars trace how these early modern encounters played key roles in defining attitudes toward personal, national, and religious identity in Western culture. As Christians increasingly patronized Jewish scholars, in person and in print, Christian Hebraism flourished. The twelve essays assembled here address the important but often neglected subject of the early modern encounter between Christians and Jews. They illustrate how this involvement shaped each group's self-perception and sense of otherness and contributed to the emergence of the modern study of cultural anthropology, comparative religion, and Jewish studies. But the chapters also reveal how the encounter challenged traditional religious beliefs, fostering the skepticism, toleration, and irreligion conventionally associated with the Enlightenment. Many of the Christian Hebraists described in these essays were linguists and textual critics, and their work highlights the ambiguous role played by language and texts in transmitting natural and divine truth. It was during the early modern period that numerous concepts underpinning modern Western secular society came into existence, and as *Hebraica Veritas?* shows, the subject of Christian Hebraism has direct relevance to understanding the intellectual changes and challenges characterizing the transition from the ancient to the modern world.

The Multiplicity of Scripture: The Confluence of Textual Traditions in the Making of the Antwerp Polyglot Bible (1568-1573). Theodor William Dunkelgrün,University of Chicago,2012 This dissertation is a study of the editorial history of the Antwerp Polyglot Bible (1568-1573), in particular of its Hebrew and Aramaic texts. It begins with the origins of the problem of scriptural multiplicity, the fact that texts sacred to Jews and Christians are unstable, extant in different ancient versions (Hebrew, Aramaic, Greek, Syriac, Latin, and others) as well as in different witnesses in the same language. It offers a history of Renaissance biblical scholarship as seen through the prism of this problem, and considers various responses to it, from Polyglot Bibles to the Tridentine Vulgate decree. Turning to Antwerp, it reevaluates the role of Hebrew in the 1563 foundation of the printing company of Christopher Plantin, his employment of the converted rabbi Johannes Isaac Levita and of Franciscus Raphelengius, and the preparations for a Polyglot Bible. It then gives a new intellectual biography of Benito Arias Montano, told from the point of view of his education as a biblical humanist and antiquarian. Particular attention is devoted to Montano's Hebraic studies, his awareness of Iberian Jewish history prior to the expulsion and of the Sephardic diaspora thereafter, and, as editor-in-chief of the Antwerp Polyglot, his study of the ancient and medieval Jewish transmission of the Hebrew biblical text. Using surviving printing proofs of the Antwerp Polyglot Bible and manuscripts and earlier editions Montano consulted, his method of editing Hebrew texts is reconstructed. I show that he was aware of attacks on the Polyglot before its completion, and I argue that the final edition contains deliberate defenses of the Jewish tradition of textual transmission and of Christian recourse to it. In the case of the Aramaic Targums, too, a host of unpublished and hitherto unstudied material is used to establish which manuscripts and earlier editions were assembled at Antwerp, and what the editorial decisions, by Montano and Raphelengius, reveal about the way they thought about non-Christian and non-Hebrew textual traditions of Scripture. Particular attention is devoted to their use of the library of the humanist Andreas Masius and the Nachlass of the converso Alfonso de Zamora.
