The Substance of Truth Tolu Olorunda, 2012-01-01 Tolu Olorunda is a cultural critic whose work has regularly appeared on AlterNet, Black Commentator, CounterPunch, Truthout, and several other publications including ColorLines magazine, The Nation magazine, and Wiretap magazine. His book, *The Substance of Truth*, takes a frank look into what has become of a society that touts grand and lofty ideals which it often fails to fulfill. With essays addressing issues as broad as the education

system, 21st century media culture, Hip-Hop culture, youth culture, neoliberalism, and moral poverty, Olorunda argues the days ahead would darken in promise if rigorous action isn't soon applied to rectify the way people think, how they respond to their surroundings, and the decisions they take to make the world better than it stands today. This struggle, he insists, could define whether or not a livable future would exist for the most vulnerable of all—children, whose plights are increasingly cast aside and ignored. From the book: “At risk of appearing alarmist, it’s easy to ignore all the warning signs hanging around us that suggest the clock is ticking fast—real fast!—and that time left for due action is short. But if life for the next generation should contain some semblance of sanity—where life itself means more than shopping malls and commodities, where Power stands accountable to the demands of communities—all fear of coming across hyperbolic would have to give way to the realities staring us down. The risk also extends to coming across Pollyannaish, as though all the impurities and iniquities holding hostage society can be cured with essays or lectures. But we cannot afford to let this moment slip by unattended, unengaged. The problems number endless—and so do the possibilities. And at no other moment has a generation been more fortunate, with the ease of technology, to make miracles happen amidst frightening circumstances. At no other moment has the clarion call blared this clearly and loudly.”

Anzac's Long Shadow James Brown, 2014-02-15 ‘A century ago we got it wrong. We sent thousands of young Australians on a military operation that was barely more than a disaster. It’s

right that a hundred years later we should feel strongly about that. But have we got our remembrance right? What lessons haven't we learned about war, and what might be the cost of our Anzac obsession?' Defence analyst and former army officer James Brown believes that Australia is expending too much time, money and emotion on the Anzac legend, and that today's soldiers are suffering for it. Vividly evoking the war in Afghanistan, Brown reveals the experience of the modern soldier. He looks closely at the companies and clubs that trade on the Anzac story. He shows that Australians spend a lot more time looking after dead warriors than those who are alive. We focus on a cult of remembrance, instead of understanding a new world of soldiering and strategy. And we make it impossible to criticise the Australian Defence Force, even when it makes the same mistakes over and over. None of this is good for our soldiers or our ability to deal with a changing world. With respect and passion, Brown shines a new light on Anzac's long shadow and calls for change. Bold, original, challenging - James Brown tackles the burgeoning Anzac industry and asks Australians to re-examine how we think about the military and modern-day service. - Leigh Sales The best book yet written, not just on Australia's Afghan war, but on war itself and the creator/destroyer myth of Anzac. - John Birmingham James Brown is a former Australian Army officer, who commanded a cavalry troop in Southern Iraq, served on the Australian taskforce headquarters in Baghdad, and was attached to Special Forces in Afghanistan. Today he is the Military Fellow at the Lowy Institute for International Policy where he works on strategic military issues and defence policy. He also chairs the NSW Government's Contemporary Veterans Forum. He lives in Sydney.

Media and Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It's no secret today's media landscape is evolving at a fast and furious pace — and students are experiencing these developments firsthand. While students are familiar with and may be using the

latest products and newest formats, they may not understand how the media has evolved to this point or what all these changes mean. This is where Media and Culture steps in. The eighth edition pulls back the curtain and shows students how the media really works, giving students the deeper insight and context they need to become informed media critics.

Beyond the Familiar Patrick Barwise, Sean Meehan, 2011-09-19 Strong customer-focused companies have a clear, relevant promise which they obsessively deliver day-in, day-out. At the same time, they relentlessly drive the market by evolving the offer in the face of market developments and opportunities. Because they meet customer needs better than the competition, again and again, they are able to generate sustainable, profitable, market-leading organic growth. The problem the book

addresses is how to achieve this. The authors identify five key steps using their framework for success: Offer a clear, relevant customer promise Build customer trust by reliably delivering that promise Continuously improve the promise, while still reliably delivering it Drive the market by innovating beyond the familiar Support all this with an open organization that promotes frank discussion based on clear facts and market feedback. Above all the book runs counter to the fashionable claim that the starting-point for business success should be to find a 'blue-sky', 'out-of-the-box' breakthrough innovation. Barwise and Meehan use many compelling cases to illustrate how managers can find ways within their existing network and organization to achieve long term growth.
