Medical Writing Neville W. Goodman, Martin B. Edwards, 2006-10-26 Effective communication is the ultimate, but often daunting, purpose of any piece of medical research. *Medical Writing: A Prescription for Clarity* provides practical information enabling first drafts to be turned into clear, simple, unambiguous text, without loss of individuality. Written by a medical consultant and an experienced medical editor, it is sympathetic to the problems and needs of medical writers. Like the preceding two editions, this expanded third edition deals with the basic craft of writing for publication, from spelling and grammar to choosing the best word or phrase. Whether writing a simple clinical report or thesis, wanting to supervise others, or wanting just to develop greater skill in effective writing, this book is the ideal guide and reference. Clear, simple and precise, and illustrated with apt cartoons, this is an invaluable handbook.

The Translator Daoud Hari, 2009-02-24 If God must break your leg He will at least teach you to limp - so it is said in Africa. This book is my poor limping - a modest account that cannot tell every story that deserves telling. I have seen and heard many things in Darfur that have broken my heart. I bring the stories to you because I know most people want others to have good lives and, when they understand the situation, they will do what they can to bend the world back toward kindness. This is when human beings, I believe, are most admirable. The young life of Daoud Hari - his friends call him David - has been one of bravery and mesmerizing adventure. As a translator and the guide of choice to media, the US Embassy, and the United Nations, Hari became a vital link to the outside world, a living witness to the brutal genocide underway in Darfur. Most of the reporting on the great tragedies of our day has been written by journalists, and after-the-fact. Rarely, in a conflict of this magnitude, has there been an eyewitness voice to the events as they are still happening. Daoud Hari is that voice. *The Translator* is a suspenseful, harrowing and deeply moving memoir of how one person can make a difference in the world - an on-the-ground account of one of the biggest stories of our time.

Campus Rules and Moral Community David A. Hoekema, 1994 Colleges and universities have largely abandoned their traditional stance in loco parentis, as moral guardians over student life, and instead seek to promote toleration while preventing conflict. In this volume David A. Hoekema argues that in doing so, they fail to provide an atmosphere conducive to the attainment of the kind of responsible independence that such goals presuppose.

Bridge Management Bojidar Yanev, 2007-01-22 A comprehensive, up-to-the-minute account of bridge management developments for researchers, designers, builders, administrators, and owners *Bridge Management* draws on Bojidar Yanev's thirty years of research, teaching, and consulting as well as his management of 800 of New York City's 2,200 bridges. It offers an insider's view of the problems to be resolved in bridge management by civil and

transportation engineers, budget and asset managers, abstract analysts, and hands-on field workers. Bridge Management uniquely integrates the priorities, constraints, objectives, and tastes governing the domains of structural mechanics, economics, public administration, and field operations at both the project and network levels. It features: A review of current bridge management vulnerabilities, objectives, tools, and products Dozens of case studies illustrating the application of analytic models, and practical developments currently shaping the field Unique chapters exploring the evolution of bridge design, construction, and maintenance, from the origins of deliberate planning to the current integrated lifecycle asset management models
