**The State of Copyright** Debora Halbert,2014-02-05 This book seeks to make an intervention into the ongoing debate about the scope and intensity of global copyright laws. While mapping out the primary actors in the context of globalization and the modern political economy of information ownership, the argument is made that alternatives to further expansion of copyright are necessary. By examining the multiple and competing interests in creating the legal regime of copyright law, this books attempts to map the political economy of copyright in the information age, critique the concentration of ownership that is intrinsic in the status quo, and provide an assessment of the state of the contemporary global copyright landscape and its futures. It draws upon the current narratives of copyright as produced by corporate, government, and political actors and frames these narratives as language games within a global political project to define how information and culture will be shared and exchanged in the future. The text problematizes the relationship of the state to culture, comments on the global flows of culture, and critiques the regulatory apparatus that is in place to commodify culture and align it with the contemporary nation-state. In the end, the possibility of non-commodified and more open futures are explored. The State of Copyright will be of particular interest for students and scholars of international political economy, law, political science, anthropology, sociology, cultural studies, library sciences, and communication studies. It also will appeal to a growing popular audience that has taken an interest in the issues of copyright.

**Citizen Islam** Zeyno Baran,2011-07-21 Since September 11, Western governments have legitimized and empowered nonviolent Islamists as representatives of Islam for all Muslims in the West, an approach that has worried Muslim moderates. Citizen Islam addresses the implications of this approach. The book opens with an overview of the theology and history of Islam, to show that violence and intolerance are not fundamental aspects of the religion. It then explains the growth of Islamism in Europe and in the United States before suggesting that both are finally beginning to recognize the threat posed by nonviolent Islamists. Lastly, it outlines steps that Western and Muslims leaders can take to strengthen moderate Islam and counter the threat of Islamism. Written by Zeyno Baran, a Turkish-born Muslim, Citizen Islam sheds a sharp light on Muslim communities in the West. It concludes that there is much that Western governments can still do to reverse the spread of Islamism. But they must act quickly.

Global Faith, Worldly Power John Corrigan,Melani McAlister,Axel R. Schäfer,2022-09-15 Assessing the grand American evangelical missionary venture to convert the world, this international group of leading scholars reveals how theological imperatives have intersected with worldly imaginaries from the nineteenth century to the present. Countering the stubborn notion that conservative Protestant groups have steadfastly maintained their distance from governmental and economic affairs, these experts show how believers' ambitious investments in missionizing and humanitarianism have connected with worldly matters of empire, the Cold War, foreign policy, and neoliberalism. They show, too, how evangelicals' international activism redefined the content and the boundaries of the movement itself. As evangelical voices from Africa, Asia, and Latin America became more vocal and assertive, U.S. evangelicals took on more pluralistic, multidirectional identities not only abroad but also back home. Applying this international perspective to the history of American evangelicalism radically changes how we understand the development and influence of evangelicalism, and of globalizing religion more broadly. In addition to a critical introduction and essays by editors John Corrigan, Melani McAlister, and Axel R. Schafer are essays by Lydia Boyd, Emily Conroy-Krutz, Christina Cecelia Davidson, Helen Jin Kim, David C. Kirkpatrick, Candace Lukasik, Sarah Miller-Davenport, Dana L. Robert, Tom Smith, Lauren F. Turek, and Gene Zubovich.

**Free World** Timothy Garton Ash,2005-12-06 “We, the free, face a daunting opportunity. Previous generations could only dream of a free world. Now we can begin to make it.” In his welcome alternative to the rampant pessimism about Euro-American relations, award-winning historian Timothy Garton Ash shares an inspiring vision for how the United States and Europe can collaborate to promote a free world. At the start of the twenty-first century, the West has plunged into crisis. Europe tries to define itself in opposition to America, and America increasingly regards Europe as troublesome and irrelevant. What is to become of what we used to call “the free world”? Part history, part manifesto, Free World offers both a scintillating assessment of our current geopolitical quandary and a vitally important argument for the future of liberty and the shared values of the West.

**The American South in a Global World** James L. Peacock,Harry L. Watson,Carrie R. Matthews,2006-03-13 Looking beyond broad theories of globalization, this volume examines the specific effects of globalizing forces on the southern United States. Eighteen essays approach globalization from a variety of perspectives, addressing such topics as relations between global and local communities; immigration, particularly of Latinos and Asians; local industry in a time of globalization; power and confrontation between rural and urban worlds; race, ethnicity, and organizing for social justice; and the assimilation of foreign-born professionals. From portraits of the political and economic positions of Latinos in Miami and Houston to the effects of mountaintop removal on West Virginia communities, these snapshots of globalization across a broad southern ground help redirect the study of the South in response to how the South itself is being reshaped by globalization in the twenty-first century. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history’s darkest hours.
