Foundations for a Low-Carbon Energy System in China Henry Lee, Daniel P. Schrag, Matthew Bunn, Michael Davidson, Wei Peng, Wang Pu, Mao Zhimin, 2021-12-09 Overview of how decisions by China on climate, energy, and environmental policy will influence the country's capacity to decarbonize.

China's environmental policy in terms of European Union standards Jan Wiktor Tkaczyński, Łukasz Gacek, 2020-11-16 It is beyond dispute that both China and the European Union stand to gain from promoting low-carbon development through the dissemination of clean and renewable energy sources, as this inevitably leads to increased environmental protection. The depletion of fossil fuel resources and the accompanying changes in the global energy mix make Europe and China not only competitors in the global economic race, but also *nolens volens* partners. Their pragmatic partnership is characterized, on the one hand, by the need to take action to reduce the consumption of fossil fuels and, on the other, by the desire to minimize the negative environmental impact of their use. Hence, the existing and emerging cooperation between the two actors, while challenging for a number of reasons, is not only an attempt to set up channels to exchange vital information, but also an exercise in setting the standards under which further cooperation will be forged.

The WillPower Advantage Tom Peterson, Ryan Hanning, 2020-10-08 Christians, as well as all men and women, are called to holiness and happiness, but everyone struggles to take the practical steps necessary to overcome the vices that rob us of our peace and steal our joy. The WillPower Advantage shows that we need to renew our minds with the truth about ourselves in order to develop the good habits we need to handle the challenges we face. We are not called to be passive; we are called to use our will and our strength to receive God's grace and transform the world, beginning with ourselves. The WillPower Advantage helps people to build the virtues they need by providing practical wisdom from ancient and contemporary sources. The book includes a Spiritual Audit, which identifies a person's temperament along with its strengths and weaknesses. The virtues each temperament needs to work on are then presented systematically with practical tips for strengthening them.

A Way Through the Wilderness Rob Renfroe, 2015-07-31 At one time or another, everyone has a wilderness experience, a time when life is barren and difficult and we feel alone and desperate, not knowing where to turn. Whether it's the loss of a loved one, a financial or health crisis, divorce, or some other painful experience, we see no end in sight and wonder how we can make it through another day. In the Scriptures we see that often God's people went through a wilderness experience, and these experiences changed them in profound ways. The truth is that it's impossible to go through the wilderness without being changed. There's a way through the wilderness that can leave us broken and bitter and far away from God. But there's another way through—God's way—that leaves us with a deeper faith and draws us closer to God than we ever imagined. With sensitivity and warmth, Rob Renfroe explores the wilderness experience—what it is, how we get there, why God allows it, and how we can get through it. God's way so that we learn the lessons that can be learned only in the desolate seasons of life when we are totally dependent on God. A DVD featuring six interviews with the author and a full leader guide are also available for group study.

Cywilizacja ekologiczna i transformacja energetyczna w Chinach Łukasz Gacek, Budowa cywilizacji ekologicznej stała się współcześnie podstawą ideologiczną wyznaczającą ramy krajowej polityki środowiskowej w Chinach. Lansowana od początku nowego milenium nie miała spójnego charakteru i była ukierunkowana wyłącznie na chińskie społeczeństwo. W momencie dojścia do władzy Xi Jinpinga w 2012 r. sytuacja diametralnie się zmieniła. Najwyższe kierownictwo partyjne przyjęło ów koncept, osadzając go w nacjonalistycznej interpretacji historii. Władze w Pekinie odwołując się do cywilizacji ekologicznej, starają się instrumentalnie kształtować przeświadczenie o istniejącej ciągłości kulturowej i narodowej. Przyjmowane rozwiązania mają zarówno odpowiadać na postępującą degradację środowiska w kraju, jak i stanowić skierowaną na zewnątrz propozycję budowania wspólnej globalnej przyszłości. Warto zauważyć, że w prezentowanej wizji cywilizacji ekologicznej nie ma mowy o zahamowaniu wzrostu gospodarczego, redystrybucji bogactwa czy zmniejszeniu produkcji celem zapobieżenia dalszej degradacji środowiska. Jest ona wyraźnie sprzężona z globalnym porządkiem kapitalistycznym i nie stanowi radykalnego zwrotu oznaczającego akceptację dla spowolnionego tempa rozwoju na poziomie globalnym i w samych Chinach. Cywilizacja ekologiczna nawiązuje do starożytnych rodzimych tradycji filozoficznych, które akcentowały istniejącą harmonię pomiędzy człowiekiem a naturą. Ożywiając tę starą ideę, władze w Chinach mówią dziś o potrzebie budowania wspólnej zielonej przyszłości.

Alianza del Pacífico: condiciones migratorias laborales y de seguridad social Varios,2022-01-11 La Alianza del Pacífico (AP) nació el 28 de abril de 2011, se formalizó el 6 de junio de 2012 y entró en vigor en julio de 2015. En esta se prevé la integración política, económica, social y cultural de los cuatro países parte: Chile, Colombia, México y Perú para lo cual, se deben establecer compromisos efectivos de acción conjunta que mejoren el bienestar y los niveles de vida de sus habitantes y promuevan el desarrollo sostenible en sus respectivos territorios En la medida que la Alianza se ha considerado como una forma de nuevo regionalismo en la que se retoma el proceso de integración comercial en la región, que se había dejado de lado desde el Acuerdo de Libre Comercio de las Américas (ALCA), y que plantea dentro de sus objetivos la libre circulación de las personas, es necesario que este tipo de acuerdos vayan acompañados de procesos migratorios regulados que den seguridad jurídica, garanticen derechos y faciliten el cumplimiento de los mismos. Por lo general, este tipo de acuerdos comerciales son lacónicos al momento de regular los temas migratorios, más aún si se trata de migración laboral, y la Alianza del Pacífico no es la excepción. En ese sentido, se formuló y llevó a cabo una investigación con miras a resolver el problema ¿cómo deben trabajar los países latinoamericanos de la AP para garantizar la libre circulación de trabajadores dentro de sus territorios y la protección de sus derechos laborales y de seguridad social en los países de acogida? Para ello, se conformó un equipo académico de docentes de las Universidades de Chile, Externado de Colombia, Autónoma del Estado de Morelos y Pontificia Católica del Perú para abordar, desde la legislación y políticas públicas de cada país, el estudio de los aspectos migratorios laborales y de seguridad social actuales y llegar a una propuesta de insumos para una política migratoria laboral para los países de la Alianza, que garantice a los migrantes de la región sus derechos laborales y de seguridad social y paralelo a ello, se logre esa libre circulación de la que habla el Acuerdo.
