**Candidaturas Apartidárias na Constituição Cidadã** Thiago Coelho Sacchetto, O instituto das candidaturas apartidárias atravessa a história política brasileira desde os primeiros períodos coloniais até a posterior Declaração de Independência, desde as épocas imperiais até a Proclamação da República, de intervalos de estabilidade democrática a hiatos de governos autoritários. Apesar de o constituinte de 1987-1988 ter optado por alçar a filiação partidária à condição de elegibilidade da República Federativa do Brasil (art. 14, §3º, V, CF), recentes discussões hermenêuticas e propostas de emenda à Constituição têm aventado a possibilidade de o âmbito de abrangência dessa exigência ser mitigado por não consagrar uma adequada concepção de sufrágio universal (art. 14, caput, CF). Porquanto o preceito do art. 14, §3º, V é de inquestionável constitucionalidade em razão da sua gênese originária, o livro examina se a amplitude exegética que tem sido atribuída ao dispositivo desde 1988 - de vedação às candidaturas apartidárias - mantém-se harmônica, contemporaneamente, aos fundamentos da República, aos direitos fundamentais da Constituição e às normas internacionais de Direitos Humanos.

*Chronology of the Birth of Cinema 1833-1896* Deac Rossell,2022-10-18 Written from an international perspective, this account of the origins of the cinema begins in 1833 with the introduction of optical toys for reproducing movement and ends with a thorough examination of the first full year of projected moving pictures in 1896. Comprehensive and verifiable, with citations that support each individual entry, the book examines the events that culminated in the establishment of the moving picture world that was the dominant visual medium of the last century. Drawing on a range of international sources, this chronology is a readable, vivid account that corrects many longstanding errors in the story of moving pictures while at the same time recording the astounding diversity of ideas, apparatus, personalities, and exhibitions that turned a passing novelty

into a major industry. Populated by dreamers, inventors, scientists, and entrepreneurs with widely different skills, interests, and backgrounds, the many origins of the cinema are all recorded here in a rich tapestry that has been woven with attention to the detailed shape and placement of each individual thread. The result is a fully- indexed reference that reflects the state of modern scholarship and should be useful over the long term as both a reference to the period of early cinema and as a starting point for further research.
