Ceramics in the Victorian Era Rachel Gotlieb, 2023-06-29 This book broadens the discussion of pottery and china in the Victorian era by situating them in the national, imperial, design reform, and domestic debates between 1840 and 1890. Largely ignored in recent scholarship, *Ceramics in the Victorian Era: Meanings and Metaphors in Painting and Literature* argues that the signification of a pot, a jug, or a tableware pattern can be more fully discerned in written and painted representations. Across five case studies, the book explores a rhetoric and set of conventions that developed within the representation of ceramics, emerging in the late-18th century, and continuing in the Victorian period. Each case study begins with a textual passage exemplifying the outlined theme and closes with an object analysis to demonstrate how the fusing of text, image, and object are critical to attaining the period eye in order to better understand the metaphorical meanings of ceramics. Essential reading not only for ceramics scholars, but also those of material culture, the book mines the rich and diverse archive of Victorian painting and literature, from the avant-garde to the sentimental, from the well-known to the more obscure, to shed light on the at once complex and simple implications of ceramics' agencies at this time.

Picture World Rachel Teukolsky, 2020-08-16 The modern media world came into being in the nineteenth century, when machines were harnessed to produce texts and images in unprecedented numbers. In the visual realm, new industrial techniques generated a deluge of affordable pictorial items, mass-printed photographs, posters, cartoons, and illustrations. These alluring objects of the Victorian parlor were miniaturized spectacles that served as portals onto phantasmagoric versions of 'the world.' Although new kinds of pictures transformed everyday life, these ephemeral items have received remarkably little scholarly attention. *Picture World* shines a welcome new light onto these critically neglected yet fascinating visual objects. They serve as entryways into the nineteenth century's key aesthetic concepts. Each chapter pairs a new type of picture with a foundational keyword in Victorian aesthetics, a familiar term reconceived through the lens of new media. 'Character' appears differently when considered with caricature, in the new comics and cartoons appearing in the mass press in the 1830s; likewise, the book approaches 'realism' through pictorial journalism; 'illustration' via illustrated Bibles; 'sensation' through carte-de-visite portrait photographs; 'the picturesque' by way of stereoscopic views; and 'decadence' through advertising posters. *Picture World* studies the aesthetic effects of the nineteenth century's media revolution: it uses the relics of a previous era's cultural life to interrogate the Victorian world's most deeply-held values, arriving at insights still relevant in our own media age.

Ambiguous Selves Barbara Braid, 2019-11-21 This collection of essays on selected texts in literature, film and the media is driven by a shared theme of contesting the binary thinking in respect of gender and sexuality. The three parts of this book – “contesting norms”, “performing selves” and “blurring the lines” – delineate the queer celebration of difference and deviance. They pinpoint the limitation of assumed norms and subverting them, revel in the fluid and ambiguous self that springs from the contestation of those norms, and then repeatedly transgress and, as a result, obscure the limits that separate the normal from the abnormal. The variety of texts included in the collection ranges from a discussion of queer subjects represented in film, television and literature to that of the representations of other non-normative figures (including a madwoman, a freak or a prostitute) and to gender-role contestation and gender-bending practicing evidenced in the press, theatre, film, literature and popular culture.

The Five Levels of Attachment Don Miguel Ruiz, Jr, 2013-02-04 The Five Levels of Attachment picks up from where Don Miguel Ruiz, Jr's father's book, The Four Agreements, left off. Building on the principles found in his father's international bestseller (2.5 million copies sold in the US), Don Miguel explores the ways in which we attach ourselves inappropriately to beliefs and the world. This is ancient wisdom for finding your true self. Ruiz explores the five levels of attachment that cause suffering in our lives. The five levels are: • Authentic Self • Preference • Identification • Internalization • Fanaticism Accessible and practical, The Five Levels of Attachment invites us to look at our own lives and see how an unhealthy level of attachment can keep us trapped in a psychological and spiritual fog. He then teaches us to reclaim our true freedom by cultivating awareness, detaching, and discover our true selves.

Deep Water Pamela Freeman, 2009-04-01 Centuries ago, Acton and his people displaced the Travellers, the original inhabitants of the Eleven Domains. Now, Saker the enchanter is driven by this ancient rage. With the bones of his fallen ancestors and the blood from his own veins, he will raise armies of the dead to slake his revenge. But what really happened when Acton came through Death Pass a millennium ago? To find out, Bramble agrees to risk her life -- and perhaps her soul -- on a voyage of discovery. Will she find the simple answer she needs, or will her experiences shatter her deepest beliefs? Meanwhile, Ash, tormented by his past, must return to the Deep to find his father and uncover the Travellers' secret songs. He thought he had learnt all the ancient music. What has his father kept from him -- and why? The truth, like all their destinies, is hidden in time and lies in deep water.

Re-conceptualizing Enterprise Information Systems Charles Moller, Sohail Chaudhry, 2012-04-05 This book constitutes the post conference proceedings of the 5th International IFIP Working Conference on Research and Practical Issues of Enterprise Information Systems (CONFENIS 2011), held in Aalborg, Denmark, October 16-18, 2011. The 12 papers presented in this volume were carefully reviewed and selected from 103 submissions. The papers are organized in four sections on conceptualizing enterprise information systems; emerging topics in enterprise information systems; enterprise information systems as a service; and new perspectives on enterprise information systems. These papers are complemented by two keynotes and a short summary of the co-located Workshop on Future Enterprise Information Systems using Lego Serious Games.

Applied Corporate Finance Aswath Damodaran, 2014-10-27 Aswath Damodaran, distinguished author, Professor of Finance, and David Margolis, Teaching Fellow at the NYU Stern School of Business, have delivered the newest edition of Applied Corporate Finance. This readable text provides the practical advice students and practitioners need rather than a sole concentration on debate theory, assumptions, or models. Like no other text of its kind, Applied Corporate Finance, 4th Edition applies corporate finance to real companies. It now contains six real-world core companies to study and follow. Business decisions are classified for students into three groups: investment, financing, and dividend decisions.

Blood Ties Pamela Freeman, 2008-04-07 A thousand years ago, the Eleven Domains were invaded and the original inhabitants forced on the road as Travelers, belonging nowhere, welcomed by no-one. Now the Domains are governed with an iron fist by the Warlords, but there are wilder elements to the landscape which cannot be controlled and which may prove their undoing. Some are spirits of place, of water and air and fire and earth. Some are greater than these. And some are human. Bramble: a village girl, whom no-one living can tame . . . forced to flee from her home for a crime she did not commit. Ash: apprentice to a safeguarder, forced to kill for an employer he cannot escape. Saker: an enchanter, who will not rest until the land is returned to his people. As their three

stories unfold, along with the stories of those whose lives they touch, it becomes clear that they are bound together in ways that not even a stonecaster could foresee -- bound by their past, their future, and their blood.

A curatela e a tomada de decisão apoiada Priscilla Jordanne Silva

Oliveira, 2021-03-25 O Brasil possui um contingente populacional de pessoas com deficiência que representava 23,9% da população geral em 2010. A realidade desse contingente populacional, que é profundamente diversificado, quando é tensionado contra a atual formatação da Teoria das Capacidades, denota que a premissa de igual capacidade legal que estrutura o sistema de apoio impõe a desconsideração daquela diversidade em suas diferentes manifestações e graus. Por conseguinte, deixa de expressar o respeito pela dignidade inerente das pessoas com deficiência, em desconformidade com a premissa que funda o Microssistema Jurídico de proteção e promoção da pessoa com deficiência a partir da aprovação da Convenção Internacional sobre os Direitos das Pessoas com Deficiência. Assim, a presente pesquisa emergiu do objetivo geral de desvelar as instâncias de desproporcionalidade do atual sistema de apoio, a fim de que elas pudessem ser supridas pelos influxos da Teoria do Enfoque das capacidades e fossem moduladas como medidas individualizadas e adequadas às circunstâncias particulares de cada pessoa com deficiência, a fim de que resultassem no desenvolvimento ? na maior medida do possível ? da sua autonomia. Para tanto, após a identificação de instâncias de desproporcionalidade do novel sistema de apoio, foram derivadas premissas gerais para a sua releitura integrada, de forma que a curatela e a tomada de decisão apoiada são ordenadas em conformidade com o reconhecimento da dignidade inerente das pessoas com deficiência. Dessa proposta de releitura foram extraídas 3 (três) sugestões de adequação do sistema de apoio que conferem originalidade à presente pesquisa: a) a natureza fungível dos procedimentos jurisdicionais de interdição e de tomada de decisão apoiada, que são destinados ao deferimento de medidas de cuidado; b) a coexistência entre as medidas de assistência, representação e apoio de forma proporcional ao grau de discernimento da pessoa com deficiência; c) expansão e modulação das medidas de cuidado em atenção à natureza da situação subjetiva que será alcançada (patrimonial ou existencial).

World Drug Report 2008 United Nations Office on Drugs and Crime, 2008-06-26 The Report continues to provide in depth trend analysis of the four main drug markets in its first section. In addition, to mark the one hundred year anniversary of the Shanghai Opium Commission, and one hundred years of international drug control, the Report contains an in-depth look at the development of the international drug control system. The Report also contains a small statistical annex which provides a detailed look at production, prices and consumption. As in previous years, the present Report is based on data obtained primarily from the annual reports questionnaire (ARQ) sent by Governments to UNODC in 2007, supplemented by other sources when necessary and where available. Two of the main limitations herein are: (i) that ARQ reporting is not systematic enough, both in terms of number of countries responding and of content, and (ii) that most countries lack the adequate monitoring systems required to produce reliable, comprehensive and internationally comparable data. National monitoring systems are, however, improving and UNODC has contributed to this process.

Think Bayes Allen B. Downey, 2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way,

the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

Biosecurity Challenges of the Global Expansion of High-Containment

Biological Laboratories Committee on Anticipating Biosecurity Challenges of the Global Expansion of High-Containment Biological Laboratories, Board on Life Sciences, Committee on International Security and Arms Control, Division on Earth and Life Studies, Policy and Global Affairs, National Academy of Sciences, National Research Council, 2012-03-16 During July 10-13, 2011, 68 participants from 32 countries gathered in Istanbul, Turkey for a workshop organized by the United States National Research Council on Anticipating Biosecurity Challenges of the Global Expansion of High-containment Biological Laboratories. The United States Department of State's Biosecurity Engagement Program sponsored the workshop, which was held in partnership with the Turkish Academy of Sciences. The international workshop examined biosafety and biosecurity issues related to the design, construction, maintenance, and operation of high-containment biological laboratories- equivalent to United States Centers for Disease Control and Prevention biological safety level 3 or 4 labs. Although these laboratories are needed to characterize highly dangerous human and animal pathogens, assist in disease surveillance, and produce vaccines, they are complex systems with inherent risks. Biosecurity Challenges of the Global Expansion of High-Containment Biological Laboratories summarizes the workshop discussion, which included the following topics: Technological options to meet diagnostic, research, and other goals; Laboratory construction and commissioning; Operational maintenance to provide sustainable capabilities, safety, and security; and Measures for encouraging a culture of responsible conduct. Workshop attendees described the history and current challenges they face in their individual laboratories. Speakers recounted steps they were taking to improve safety and security, from running training programs to implementing a variety of personnel reliability measures. Many also spoke about physical security, access controls, and monitoring pathogen inventories. Workshop participants also identified tensions in the field and suggested possible areas for action.

The Mastery of Self Don Miguel Ruiz, Jr., 2016-01-01 The ancient Toltecs believed that life as we perceive it is a dream. We each live in our own personal dream, and all of our dreams come together to make the Dream of the Planet. Problems arise when we forget that the dream is just a dream and fall victim to believing that we have no control over it. The Mastery of Self takes the Toltec philosophy of the Dream of the Planet and the personal dream and explains how a person can: Wake up Liberate themselves from illusory beliefs and stories Live with authenticity Once released, we can live as our true, authentic, loving self, not only in solitude and meditation, but in any place--at the grocery store, stuck in traffic, etc.--and in any situation or scenario that confronts us. The Ruiz family has an enormous following, and this new book from don Miguel, Jr. will be greeted with enthusiasm by fans around the world.
