The Theory and Practice of Online Learning Terry Anderson,2008 Neither an academic tome nor a prescriptive 'how to' guide, The Theory and Practice of Online Learning is an illuminating collection of essays by practitioners and scholars active in the complex field of distance education. Distance education has evolved significantly in its 150 years of existence. For most of this time, it was an individual pursuit defined by infrequent postal communication. But recently, three more developmental generations have emerged, supported by television and radio, teleconferencing, and computer conferencing. The early 21st century has produced a fifth generation, based on autonomous agents and intelligent, database-assisted learning, that has been referred to as Web 2.0. The second edition of The Theory and Practice of Online Learning features updates in each chapter, plus four new chapters on current distance education issues such as connectivism and social software innovations.--BOOK JACKET.

Viral Spiral David Bollier,2008 From free and open-source software, Creative Commons licenses, Wikipedia, remix music video mashups and open science, digital media has spawned a new sharing economy in competition with media giants. Media journalist Bollier provides a comprehensive history of the attempts of this new free culture' community to create a digital republic committed to freedom and innovation. Interweaving disparate and eclectic strands of activity with major technological developments, pivotal legal struggles and case studies, Bollier exposes the magical processes of this era.'

Peer-to-peer File Sharing and Secondary Liability in Copyright Law Alain Strowel,2009-01-01 This is a book that has a lot to offer. Many of its readers will benefit from the first chapters which comprehensively analyse the case law and put it in context, whilst others will benefit more from the more conceptual chapters and the criticism of certain points and suggestions for a way forward contained in them. Paul L.C. Torremans, European Intellectual Property Review This timely volume offers a comprehensive review of case law, in various jurisdictions, on secondary liability for copyright infringement, particularly P2P file sharing and online infringements. Moreover, the book includes forward-looking contributions of prominent academics from the USA and the EU, which provide original perspectives on the future shape of online copyright law, looking at questions such as whether it could or even should evolve towards a compensation system. By combining these different avenues, the book will be of particular interest to practitioners, academics, researchers and legal scholars involved in the field of copyright law.

Innovation, Economic Development, and Intellectual Property in India and China Kung-Chung Liu,Uday S. Racherla,2019-09-06 This open access book analyses intellectual property codification and innovation governance in the development of six key industries in India and China. These industries are reflective of the innovation and economic development of the two economies, or of vital importance to them: the IT Industry; the film industry; the pharmaceutical industry; plant varieties and food security; the automobile industry; and peer production and the sharing economy. The analysis extends beyond the domain of IP law, and includes economics and policy analysis. The overarching concern that cuts through all chapters is an inquiry into why certain industries have developed in one country and not in the other, including: the role that state innovation policy and/or IP policy played in such development; the nature of the state innovation policy/IP policy; and whether such policy has been causal, facilitating, crippling, co-relational, or simply irrelevant. The book asks what India and China can learn from each other, and whether there is any possibility of synergy. The book provides a real-life understanding of how IP laws interact with innovation and economic development in the six selected economic sectors in China and India. The reader can also draw lessons from the success or failure of these sectors.

Hawthorne in Concord Philip McFarland,2007-12-01 A richly textured account of the writer's three sojourns in New England "illuminates Hawthorne's art and the intellectual ferment originating in that small, bucolic town" (Publishers Weekly). On his wedding day in 1842, Nathaniel Hawthorne escorted his new wife, Sophia, to their first home, the Old Manse in Concord, Massachusetts. There, enriched by friendships with Thoreau and Emerson, he enjoyed an idyllic time. But three years later, unable to make enough money from his writing, he returned ingloriously, with his wife and infant daughter, to live in his mother's home in Salem. In 1853, Hawthorne moved back to Concord, now the renowned author of The Scarlet Letter and The House of the Seven Gables. Eager to resume writing fiction at the scene of his earlier happiness, he assembled a biography of his college friend Franklin Pierce, who was running for president. When Pierce won the election, Hawthorne was appointed the lucrative post of consul in Liverpool. Coming home from Europe in 1860, Hawthorne settled down in Concord once more. He tried to take up writing one last time, but deteriorating health found him withdrawing into private life. In Hawthorne in Concord, acclaimed historian Philip McFarland paints a revealing portrait of this well-loved American author during three distinct periods of his life, spent in the bucolic village of Concord, Massachusetts. "I don't know when I have read a book as satisfying as Hawthorne in Concord." -David Herbert Donald

Mrs Farnsworth A. R. Gurney,2004 Typescript, dated March 21, 2004. The play opened March 7, 2004, at Flea Theater, New York, N.Y. with a cast led by Sigourney Weaver and John Lithgow, directed by Jim Simpson.

Shadow Planet William Shatner,2003-11-25 The scum of the galaxy are the last hope of humankind . . . Aboard the stolen, renamed starship Endeavor, the Stone Cowboys rocket across the heavens toward a confrontation they cannot avoid. . . and, most likely, will not survive. But first, Jim Endicott must mold the street-hardened gang of thugs and hoodlums into a disciplined commando unit. Once harboring dreams of joining the Space Academy, Endicott has already altered one past using the astonishing powers of Omega. And now the untried captain and his misfit crew must take on a powerful alien race devoted to the obliteration of the human cancer. With tension, unrest, and mutiny brewing dangerously all around him, Endicott faces the deadliest challenge he has ever known. Because the cutthroats riding the Endeavor into the enemy's turf for a war to the death are the only champions courageous -- and foolhardy -- enough for the mission. And they have nothing in the universe left to lose . . .

Return from the Dead David Stuart Davies,2004 Beware, the Dead are coming back! This is a unique and fascinating collection of early mummy stories that helped to establish the chilling concept of the Dead returning to life as a potent sub-genre of horror fiction.The main feature on the mummy bill, 'The Jewel of the Seven Stars' by Bram Stoker, is generally regarded as his best work after Dracula. A weird mixture of adventure, the supernatural and science fiction is found in Jane Webb's 'The Mummy', a tale written in 1827 but set in 2126. 'Some Words with a Mummy' is by the great horror writer Edgar Allen Poe. Arthur Conan Doyle's 'The Ring of Thoth' is the classic mummy tale and was the basis for the 1932 movie 'The Mummy' starring Boris Karloff and, indeed most mummy films ever since. 'Lot 249', another Doyle chiller, completes this collection, which is guaranteed to entertain and possibly prompt a nightmare.

The Networked Society David Bollier,1997 This roundtable report draws on recent developments and trade press articles to show the trends and drivers that are redefining the fundamental conditions and relationships of markets, organizations, and social relationships. The report is divided into four main sections. In the first, The New Competitive Landscape brought on by networked technologies is described. Implications for defining quality of service and new business models are

discussed, as well as the dynamics of competition in a networked environment. The second section, How Intranets are Transforming Organizations, addresses transformations in organizational structures, leadership styles, and reward systems within companies brought on by electronic mail, intranets, and shared access to company files. The third section, The Promise of Virtual Keiretsus, describes one model for interfirm electronic cooperation which is based on the networks of Japanese businesses that enter into long-term commitments among partners. In the final section, Networked Environments, Community, and the New Market for Loyalty, the report examines the effect of technology on identify formation, interpersonal relationships, and community building. A list of conference participants is appended. (AEF)

The ASTD E-learning Handbook Allison Rossett,2002 The entire training industry is undergoing dramatic change, as training is moved out of traditional classrooms and onto the Web. Training publications and conferences are now dominated by speakers, writers, and vendors talking about e-Learning. The e-Learning revolution is forcing companies to spend millions on new technology and new web-based courseware, threatening the role of traditional classroom trainers, and saving companies millions of dollars in housing and travel costs because trainees no longer need a plane ticket and 3 nights' accommodation to attend a corporate training program - the training can be delivered to each learner's desktop over the Web. But because e-Learning is still in the revolution stage, there are no clear standards and models for how to create and deliver e-Learning successfully. Everyone is asking the same questions: how does web-based training fit in with traditional classroom based training? What are the standards for designing high-quality e-Learning? How much interaction with an instructor do e-Learning participants need? What is the role of the instructional designer in online learning? The ASTD e-Learning Yearbook will be the first annual refe

Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. World Literatures Helena Wulff,Yvonne Lindqvist,Stefan Helgesson,2020-10-09 Placing itself within the burgeoning field of world literary studies, the organising principle of this book is that of an open-ended dynamic, namely the cosmopolitan-vernacular exchange. As an adaptable comparative fulcrum for literary studies, the notion of the cosmopolitan-vernacular exchange accommodates also highly localised literatures. In this way, it redresses what has repeatedly been identified as a weakness of the world literature paradigm, namely the one-sided focus on literature that accumulates global prestige or makes it on the Euro-American book market. How has the vernacular been defined historically? How is it inflected by gender? How are the poles of the vernacular and the cosmopolitan distributed spatially or stylistically in literary narratives? How are cosmopolitan domains of literature incorporated in local literary communities? What are the effects of translation on the encoding of vernacular and cosmopolitan values? Ranging across a dozen languages and literature from five continents, these are some of the questions that the contributions attempt to address. Born Into Hitler's War Gisela Wicks,2014-03 This memoir is the story of my childhood and teen years. It begins when I was very young with my parents' divorce, then goes on to living with a spiteful and unloving stepmother, World War II, my father being wounded, the fear of the approaching Russian front, our fleeing from them and bombings. After the end of war, as we tried to make our way back home, I was terrified of the Russian soldiers and war prisoners who roamed our countryside. I feared my father would be shot or imprisoned. I listened to women screaming for help while being raped. I endured the sorrow of losing my beloved father, followed by living with my stepmother's cruelty. My agony ended with the happy reunion with my real mother, my sister, Oma my loving grandmother, and family. After WWII ended, my family and I lived behind the Iron Curtain in East Germany under the Russian occupation Stalin's Iron Fist. His communist regime imposed such strict isolation and extreme hunger on us that in June of 1953 the citizens of East Germany waged an unsuccessful uprising to gain freedom from Russia and communism. Finally, in the fall of 1953, when I was eighteen, we escaped to West Germany. These are the memories of my childhood and teen years.
