**Easy Language – Plain Language – Easy Language Plus** Christiane Maaß,2020-09-11 This book shows how accessible communication, and especially easy-to-understand languages, should be designed in order to become instruments of inclusion. It examines two well-established easy-to-understand varieties: Easy Language and Plain Language, and shows that they have complementary profiles with respect to four central qualities: comprehensibility, perceptibility, acceptability and stigmatisation potential. The book introduces Easy and Plain Language and provides an outline of their linguistic, sociological and legal profiles: What is the current legal framework of Easy and Plain Language? What do the texts look like? Who are the users? Which other groups are involved in the production and use of Easy and Plain Language offers? Which qualities are a hazard to acceptability and, thus, enhance their stigmatisation potential? The book also proposes another easy-to-understand variety: Easy Language Plus. This variety balances the four qualities and is modelled in the present book.

**The world universities' response to COVID-19: remote online language teaching** Nebojša Radi, Anastasia Atabekova, Maria Freddi, Josef Schmied,2021-05-24 This collection of case studies is special for several reasons. Firstly, because of the geographical and institutional diversity of the authors, bringing together experiences of teaching under COVID-19 restrictions in the university language classroom from 18 countries and five continents. Secondly, the publication is interesting because of the variety of case studies that testify to different strategies and emphases in dealing with pandemic-related challenges. Finally, the case studies collected strikingly demonstrate the creative responses of language teachers in a variety of contexts to meet the challenges of the pandemic crisis (Dr Sabina Schaffner).

**The Blue Note Label** Michael Cuscuna, Michel Ruppli,2001-03-30 Provides a complete discography of all recordings made or issued on the Blue Note label from 1939 through 1999.

**How Canadians Communicate** David Taras, Frits Pannekoek, Maria Bakardjieva,2003 How Canadians Communicate, Vol. 1 is a timely collection that chronicles the extraordinary changes that are shaking the foundations of Canada's cultural and communications industries in the twenty-first century. With essays from some of Canada's foremost media scholars, this book discusses the major trends and developments that have taken place in government policy, corporate strategies, creative communities, and various communication mediums: newspapers, films, cellular and palm technology, the Internet, libraries, TV, music, and book publishing. This volume addresses many issues unique to Canada in a broader framework of global communications. Specifically, it looks at new media communications in Aboriginal communities, the changing role of the state in cultural institutions, the conglomeratization of the media, the threat of American and global communications to Canadian voices, and the struggle to retain and reclaim local and national identities in the face of globalization. With articles from academics and professionals across Canada, How Canadians Communicate, Vol.1 provides the most current perspectives on communication in Canada in a rapidly changing world of technology and global communication.

**"Only the Super-Rich Can Save Us!"** Ralph Nader,2011-01-04 In the cozy den of the large but modest house in Omaha where he has lived since he started on his first billion, Warren Buffett watched the horrors of Hurricane Katrina unfold on television in early September 2005. . . . On the fourth day, he beheld in disbelief the paralysis of local, state, and federal authorities unable to commence basic operations of rescue and sustenance, not just in New Orleans, but in towns and villages all along the Gulf Coast. . . He knew exactly what he had to do. . . So begins the vivid fictional account by political activist and bestselling author Ralph Nader that answers the question, What if? What if a cadre of superrich individuals tried to become a driving force in America to organize and institutionalize the interests of the citizens of this troubled nation? What if some of America's most powerful individuals decided it was time to fix our government and return the power to the people? What if they focused their power on unionizing Wal-Mart? What if a national political party were formed with the sole purpose of advancing clean elections? What if these seventeen superrich individuals decided to galvanize a movement for alternative forms of energy that will effectively clean up the environment? What if together they took on corporate goliaths and Congress to provide the necessities of life and advance the solutions so long left on the shelf by an avaricious oligarchy? What could happen? This extraordinary story, written by the author who knows the most about citizen action, returns us to the literature of American social movements—to Edward Bellamy, to Upton Sinclair, to John Steinbeck, to Stephen Crane—reminding us in the process that changing the body politic of America starts with imagination.

**Broke, USA** Gary Rivlin,2010-05-25 From the author of the New York Times Notable Book of the Year Drive By comes a unique and riveting exploration of one of America's largest and fastest-growing industries—the business of poverty. Broke, USA is a Fast Food Nation for the “poverty industry” that will also appeal to readers of Barbara Ehrenreich (Nickel and Dimed) and David Shipler (The Working Poor).

**Cities for Smart Environmental and Energy Futures** Stamatina Th. Rassia, Panos M. Pardalos,2013-08-15 Cities for Smart Environmental and Energy Futures presents works written by eminent international experts from a variety of disciplines including architecture, engineering and related fields. Due to the ever-increasing focus on sustainable technologies, alternative energy sources, and global social and urban issues, interest in the energy

systems for cities of the future has grown in a wealth of disciplines. Some of the special features of this book include new findings on the city of the future from the macro to the micro level. These range from urban sustainability to indoor urbanism, and from strategies for cities and global climate change to material properties. The book is intended for graduate students and researchers active in architecture, engineering, the social and computational sciences, building physics and related fields.

**Nuclear Weapons under International Law** Gro Nystuen, Stuart Casey-Maslen, Annie Golden Bersagel, 2014-08-28 Nuclear Weapons under International Law is a comprehensive treatment of nuclear weapons under key international law regimes. It critically reviews international law governing nuclear weapons with regard to the inter-state use of force, international humanitarian law, human rights law, disarmament law, and environmental law, and discusses where relevant the International Court of Justice's 1996 Advisory Opinion. Unique in its approach, it draws upon contributions from expert legal scholars and international law practitioners who have worked with conventional and non-conventional arms control and disarmament issues. As a result, this book embraces academic consideration of legal questions within the context of broader political debates about the status of nuclear weapons under international law.

Human Rights in Armed Conflict Gerd Oberleitner, 2015-03-05 A comprehensive analysis of the legal challenges and practical consequences of applying international human rights law in armed conflict situations.

The European Union and Russia Great Britain. Parliament. House of Lords. European Union Committee, 2008 The relationship between the European Union and Russia has been going through a difficult phase with disputes over energy supplies, foreign policy issues, and tension between Russia and individual Member States. The change of presidency in Russia provides an opportunity to take stock and to consider whether this deterioration can and should be reversed. Russian politicians emphasise the importance of the relationship. This report discusses how the relationship might be developed in practice. The report examines Russia as a European country, its recent history, and the current economic situation in Russia. It then considers the institutional framework for Russia-EU relations, including the Partnership and Co-operation Agreement. The Committee believes closer co-operation should be fostered in several areas of common interest: economic, freedom, security and justice, research and education and culture. Energy is an important subject: there are concerns about whether Russia can supply sufficient gas and oil to meet its current and foreseeable domestic demand and international commitments. The security of energy supply to the EU is vital. The Russian view of international security issues is also very different from that of the West, and developments in the near neighbourhood of Russia are a very sensitive geopolitical area. Russian support for Serbia is contrasted with their co-operation on Iran. The two sides work together usefully on the Middle East, terrorism, non-proliferation, and other issues. The EU should continue and strengthen its efforts to reach common ground with the Russians on such international issues, but should also speak out if the Russian government falls short of the standards it has formally accepted in a number of international agreements.

**Pinot Envy** Edward Finstein, 2013 A wine expert investigates the theft of a rare and priceless bottle of red Burgundy that once belonged to Napoleon Bonaparte.

**Dare to Question** Ted Kuntz, 2018-02-06 The vaccine experiment is based upon the assumption that injecting a mixture of complex biological substances will protect humans from infectious diseases. While there is evidence that some vaccines have been effective in the suppression of some infectious diseases (measles, chicken pox, whooping cough), the total impact of the artificial stimulation of the immune system on overall health is not well understood or established. The artificial immunization program was developed in an era when virtually nothing was known about the impact of injecting these complex biochemical substances on organ systems, the neurological system, the immune system, and at the cellular level. Today there is substantial evidence of the harm caused by injecting vaccine ingredients. As more and more evidence of adverse events and injury from vaccination is acknowledged, including death, there is a growing movement to modify the official CDC vaccine schedule. Is it reasonable to consider a modified or delayed vaccine schedule in response to vaccine injury and death, or is it time to question everything about the vaccine program? This is a plea from one parent to another - dare to question.

*Most Exceptional ME* Tiffany Malas, Lauren Maerz, 2020-10-15 Sam has out-of-this-world dreams for himself and he just started an exciting adventure- kindergarten! While he's looking forward to learning many new

things, Sam wasn't prepared for all the challenges he would face along the way. With a little help and encouragement from his teacher, he learns to explore his emotions so he can do anything he sets his mind to. As it turns out, learning to love himself has been his favorite lesson yet!

*Moon-face and Other Stories* Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.
