**Lisp in Small Pieces** Christian Queinnec, 2003-12-04 This is a comprehensive account of the semantics and the implementation of the whole Lisp family of languages, namely Lisp, Scheme and related dialects. It describes 11 interpreters and 2 compilers, including very recent techniques of interpretation and compilation. The book is in two parts. The first starts from a simple evaluation function and enriches it with multiple name spaces, continuations and side-effects with commented variants, while at the same time the language used to define these features is reduced to a simple lambda-calculus. Denotational semantics is then naturally introduced. The second part focuses more on implementation techniques and discusses precompilation for fast interpretation: threaded code or bytecode; compilation towards C. Some extensions are also described such as dynamic evaluation, reflection, macros and objects. This will become the new standard reference for people wanting to know more about the Lisp family of languages: how they work, how they are implemented, what their variants are and why such variants exist. The full code is supplied (and also available over the Net). A large bibliography is given as well as a considerable number of exercises. Thus it may also be used by students to accompany second courses on Lisp or Scheme.

He is afforded a rare glimpse of life outside his shell? With all its exuberant joys and crushing sorrows.

**Moon-face and Other Stories** Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

*Rebel for the Hell of It* Armond White,2002-11-22 The ever-controversial Shakur offers a great occasion for a close, passionate reading of rap and ghetto culture. White's understanding of Tupac's art will uncork the bottled up rage and confusion that attends the way hip-hop culture is produced and received. Rebel details each step in Shakur's development, from his early exposure to racism and political activism to his move from New York to the West Coast and his innovative work with early hip hop culture and music. Through connections drawn between Shakur and Public Enemy, Notorious B.I.G., Dr. Dre, Ice Cube, and Sister Souljah, White examines Shakur's life as a prism for the hip-hop world. Photographs, a useful chronology of important dates in the life of Shakur, and an updated discography and filmography of his career as a rapper and actor are included. Talk about diversity, talk about identity, talk about icons—White's in-depth look at Tupac Shakur talks about all of 'em.—Booklist White has written a nuanced, expansive and impassioned study of the life and art of Tupac Shakur.—Tyrone Williams, Metro Times Literary Quarterly Rebel ... is a means of analyzing the rage, fatalism and rootlessness of the contemporary rap scene.—Select Magazine
