Health Services in Latin America and Asia José Núñez del Arco,2001 On either side of the globe, poor people often do not have access to the health services they need. Improvements in health care systems in Asia have lagged behind economic development, and progress in expanding health coverage in Latin America has been skewed across income levels. *Health Services in Latin America and Asia* takes a close look at how countries in both regions provide health care services, including the strategies that work and the problems that persist. The book documents encouraging progress in Bolivia, Brazil, China and Vietnam, and important preventive care programs in Central America and Thailand. It also examines health services in Chile, Colombia, the Philippines and Malaysia, as well as the health system and insurance model in Japan. Even though public and preventive health require specific and sustained allocations, both regions continue to use health insurance and other supply mechanisms to expand health service coverage. The book recommends broadening the supply of services through family doctors and community health workers, an alternative approach that would likely improve the equity, efficiency and sustainability of services.

Housing Estates in Europe Daniel Baldwin Hess,Tiit Tammaru,Maarten van Ham,2018-08-14 This open access book explores the formation and socio-spatial trajectories of large housing estates in Europe. Are these estates clustered or scattered? Which social groups originally had access to residential space in housing estates? What is the size, scale and geography of housing estates, their architectural and built environment

composition, services and neighbourhood amenities, and metropolitan connectivity? How do housing estates contribute to the urban mosaic of neighborhoods by ethnic and socio-economic status? What types of policies and planning initiatives have been implemented in order to prevent the social downgrading of housing estates? The collection of chapters in this book addresses these questions from a new perspective previously unexplored in scholarly literature. The social aspects of housing estates are thoroughly investigated (including socio-demographic and economic characteristics of current and past inhabitants; ethnicity and segregation patterns; population dynamics; etc.), and the physical composition of housing estates is described in significant detail (including building materials; building form; architectural and landscape design; built environment characteristics; etc.). This book is timely because the recent global economic crisis and Europe's immigration crisis demand a thorough investigation of the role large housing estates play in poverty and ethnic concentration. Through case studies of housing estates in 14 European centers, the book also identifies policy measures that have been used to address challenges in housing estates throughout Europe.

Unlimited Horizons Peter W. Merlin, 2015 Designed as a stopgap measure to provide overhead reconnaissance capability during the early years of the Cold War, the versatile U-2 has since evolved to meet changing requirements well into the 21st century. Though many authors have documented the airplane's operational history, few have made more than a cursory examination of its technical aspects or its role as a NASA research platform. This volume includes an overview of the origin and development of the Lockheed U-2 family of aircraft with early National Advisory Committee for Aeronautics (NACA) and National

Aeronautics and Space Administration (NASA) involvement, construction and materials challenges faced by designers and builders, releasable performance characteristics and capabilities, use of U-2 and ER-2 airplanes as research platforms, and technical and programmatic lessons learned.

The Story of Chautauqua Jesse Lyman Hurlbut, 1921 The Story of Chautauqua, written by Jesse Lyman Hurlbut and originally published in 1921, is a comprehensive account of the history and development of the Chautauqua Institution, a cultural and educational center located in Chautauqua, New York. The book traces the origins of the Chautauqua movement, which began as a series of summer lectures and religious retreats in the late 19th century, and follows its growth into a national phenomenon that attracted millions of visitors each year. Hurlbut's book delves into the various aspects of the Chautauqua experience, including its religious and educational programs, its recreational activities, and its impact on American culture and society. He explores the lives and contributions of key figures in the Chautauqua movement, such as John Heyl Vincent and Lewis Miller, and describes the various buildings and landmarks that make up the Chautauqua grounds. Throughout the book, Hurlbut emphasizes the importance of the Chautauqua Institution as a place of intellectual and spiritual growth, and as a symbol of the progressive ideals of the era. He also touches on the challenges and controversies that the institution faced over the years, including financial struggles, changing social attitudes, and the impact of World War I. Overall, The Story of Chautauqua offers a fascinating glimpse into the history of one of America's most beloved cultural institutions, and provides

insights into the social and intellectual currents that shaped the nation during the late 19th and early 20th centuries. This scarce antiquarian book is a facsimile reprint of the old original and may contain some imperfections such as library marks and notations. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions, that are true to their original work.
