The Wongs of Beloit, Wisconsin Beatrice McKenzie, 2022-04-26 Through family interviews, original photographs, and national records, Beatrice Loftus McKenzie traces the many lives of a resilient multigenerational family whose experiences parallel the complicated relationship between America and China in the twentieth century. In the early 1900s, Charles Wong moved from Guangdong Province to the United States and opened the Nan King Lo Restaurant in Beloit, Wisconsin. Soon after, his wife Yee Shee joined him to build the Chop House into a local institution and start a family. When the Great Depression hit, the Wongs shared what they had with their neighbors. In 1938, Charles's tragic murder left Yee Shee to raise their seven children—ages one through fourteen—on her own. Rather than return to family property in Hong Kong, she and her children stayed in Beloit, buoyed by the friendships they had forged during the worst parts of the 1930s. The Wongs thrived in Beloit despite facing racism and classism, embracing wartime opportunities, education, love, and careers within the U. S. McKenzie's collaboration with descendent Mary Wong Palmer reveals a poignant story of Chinese immigrant life in the Upper Midwest that adds a much-needed Wisconsin perspective to existing literature by and about Asian Americans.

Natural Energy, Lighting, and Ventilation in Sustainable Buildings Morteza Nazari-Heris, 2023-11-16 This book explores the theoretical background and provides an experimental analysis of using natural energy resources in sustainable building design. It brings together an international group of contributors focusing on ways natural energy, lighting, and ventilation can improve the performance of electrical, lighting, and mechanical systems. Contributions explore how natural resources can contribute to sustainable development goals while meeting energy demands and maintaining acceptable interior air quality and natural illumination needs. Coverage includes green building design, renewable energy integration, photovoltaic systems, small-scale wind turbines, natural lighting, and natural ventilation. *Natural Energy, Lighting, and Ventilation in Sustainable Buildings* offers practical and promising solutions for novel challenges in sustainable design for electrical engineers, energy engineers, architectural engineers, and related professionals, as well as researchers and developers from engineering science.

The Eagles of Heart Mountain Bradford Pearson, 2021-01-05 The impeccably researched, deeply moving, never-before-told tale about a World War II incarceration camp in Wyoming and its extraordinary high school football team—for fans of *The Boys in the Boat* and *The Storm on Our Shores*. In the spring of 1942, the United States government forced 120,000 Japanese Americans from their homes in California, Oregon, Washington, and Arizona and sent them to incarceration camps across the West. Nearly 14,000 of them landed on the outskirts of Cody, Wyoming, at the base of Heart Mountain. Behind barbed wire fences, they faced racism, cruelty, and frozen winters. Trying to recreate comforts from home, many established Buddhist temples and sumo wrestling pits. Kabuki performances drew hundreds of spectators—yet there was little hope. That is, until the fall of 1943, when the camp's high school football team, the Eagles, started its first season and finished it undefeated, crushing the competition from nearby, predominantly white high schools. Amid all this excitement, American politics continued to disrupt their lives as the federal government drafted men from the camps for the

front lines—including some of the Eagles. As the team's second season kicked off, the young men faced a choice to either join the Army or resist the draft. Teammates were divided, and some were jailed for their decisions. The Eagles of Heart Mountain honors the resilience of extraordinary heroes and the power of sports in a sweeping and inspirational portrait of one of the darkest moments in American history.

Wirelessness Adrian Mackenzie, 2010 For Mackenzie, entanglements with things, gadgets, infrastructures, and services---tendencies, fleeting nuances, and peripheral shades of often barely registered feeling that cannot be easily codified, symbolized, or quantified---mark the experience of wirelessness, and this links directly to James's expanded conception of experience. Wirelessness designates a tendency to make network connections in different times and places using these devices and services. Equally, it embodies a sensibility attuned to the proliferation of devices and services that carry information through radio signals. Above all, it means heightened awareness of ongoing change and movement associated with networks, infrastructures, location, and information. --

Once Were Warriors Alan Duff, 2023-08 This classic has been released in the Popular Penguin format to mark 50 years of publishing in New Zealand. The format reaches further back to 1935, when Allen Lane founded Penguin Books with a clear vision- 'We believed in the existence of a vast reading public for intelligent books at a low price, and staked everything on it.' Ground-breaking. Original. Heart-rending. Most talked about book in New Zealand, ever. Adapted into a blockbuster movie. Still in print three decades later.

India's Approach to Border Management Pushpita Das, 2022-12-29 This book attempts to provide a comprehensive understanding of the circumstances which have shaped India's approach towards its international borders and the framework it has developed to better manage its borders. The book argues that persistence of various cross-border threats and challenges and an absence of robust intra-regional trade among its neighbouring countries forced India to employ a security-centric and unilateral approach to border management with emphasis on hardening the borders to cross-border trade and travel and keeping the border areas underdeveloped to act as a buffer against external conventional threats. Besides discussing the threats and challenges that India faces along the borders, the book aims to develop an understanding of India's border management practices by analysing various programmes and initiatives such as the raising of border guarding forces; building of physical and electronic fences; the establishment of modern facilities for smoothening legitimate cross-border travel; the development of the border areas through special programmes; and increasing trade and connectivity as well as other cooperative bilateral mechanisms. Strategic Environmental Assessment in Action Riki Therivel, 2012-12-06 This practical guide, written by a practitioner for practitioners, presents a coherent and straightforward 'how-to-do-it' approach to the strategic environmental assessment (SEA) process. Part one provides an overview of the aims, principles, advantages and problems of SEA as well as looking at key SEA regulations and their requirements. Part two examines the SEA process in considerable detail including setting the policy context, describing the baseline, identifying alternatives, predicting and evaluating impacts and

using the SEA information in decision-making. Part three is devoted to assuring SEA quality with a discussion of resources and capacity building. This new edition incorporates five years' worth of practical application of the SEA Directive and SEA practice more broadly. Additions and updates include: the findings of various reviews into SEA effectiveness and efficiency emerging approaches to identifying and comparing alternatives, cumulative impacts, the likely future baseline without the plan, documenting changes made to the plan in response to the SEA process, and environmental limits consideration of both the 'baseline-led' and the 'objectives-led' approach to SEA, and the two approaches' advantages and disadvantages SEA's links to 'appropriate assessment' of plans under the European Habitats Directive. Employing a host of real-life case studies and examples, each chapter presents a range of techniques and discusses what the final product should look like. Appendices provide a wealth of additional information including text of the SEA Directive and the UNECE Protocol on SEA, and a 'toolkit' of SEA techniques. The approach and techniques in Strategic Environmental Assessment in Action are useful for anyone carrying out or studying SEA at any level, from policy to programme, international to local, but particularly for practitioners responsible for implementing the SEA Directive.

Little Ohio Kieran Robertson,2019-11-26 Ohio's small towns have great stories. Little Ohio presents 100 of the state's tiniest towns and most miniature villages. With populations under 500, these charming and unique locations dot the entire state—from Lake Seneca in the Northwest corner to Neville, bordering the Ohio River and the state of Kentucky. Little Ohio even ventures into Lake Erie, telling the story of Put-in-Bay. The selected locations help readers to appreciate the broader history of small-town life in Ohio. Yet each featured town boasts a distinct narrative, as unique as the citizens who call these places home. Some villages offer hundreds of years of history, such as Tarlton, laid out before Ohio had even gained statehood. Others were built with more expedience, such as Yankee Lake, a town that was incorporated simply so its founder could host dances on Sundays without breaking state law. With full-color photographs, fun facts, and fascinating details about every locale, it's almost as if you're walking down Main Street, waving hello to folks who know you by name. These residents are innovators, hard workers, and—most of all—good neighbors. They're people who have piled into small school houses to wait out roaring flood waters, rebuilt after disastrous fires took their homes, and captured bandits straight out of the Wild West. Little Ohio, written by lifelong resident Kieran Robertson, is for anyone who grew up in a small town and for everyone who takes pride in being called an Ohioan. It's one book with one hundred places to love.

IBM Power Systems Private Cloud with Shared Utility Capacity: Featuring Power Enterprise Pools 2.0 Scott Vetter,Lokesh Bhatt,Turgut Genc,Sabine Jordan,Wasif Mohammad,IBM Redbooks,2022-08-04 This IBM® Redbooks® publication is a guide to IBM Power Systems Private Cloud with Shared Utility Capacity featuring Power Enterprise Pools (PEP) 2.0. This technology enables multiple servers in an to share base processor and memory resources and draw on pre-paid credits when the base is exceeded. Previously, the Shared Utility Capacity feature supported IBM Power E950 (9040-MR9) and IBM Power E980 (9080-M9S). The feature was extended in August 2020 to include the scale-out IBM Power servers that were announced on 14 July 2020, and it received dedicated processor support later in the year. The IBM Power S922 (9009-22G), and IBM Power S924 (9009-42G) servers, which use the latest IBM POWER9™ processor-based technology and support the IBM AIX®, IBM i, and Linux

operating systems (OSs), are now supported. The previous scale-out models of Power S922 (9009-22A), and Power S924 (9009-42A) servers cannot be added to an enterprise pool. With the availability of the IBM Power E1080 (9080-HEX) in September 2021, support for this system as part of a Shared Utility Pool has become available. The goal of this book is to provide an overview of the solution's environment and guidance for planning a deployment of it. The book also covers how to configure IBM Power Systems Private Cloud with Shared Utility Capacity. There are also chapters about migrating from PEP 1.0 to PEP 2.0 and various use cases. This publication is for professionals who want to acquire a better understanding of IBM Power Systems Private Cloud, and Shared Utility Capacity. The intended audience includes: Clients Sales and marketing professionals Technical support professionals IBM Business Partners This book expands the set of IBM Power documentation by providing a desktop reference that offers a detailed technical description of IBM Power Systems Private Cloud with Shared Utility Capacity.

IBM i Program Conversion: Getting Ready for 6.1 and Beyond Deb Landon, Mike Charlton, Theresa Gardiner, Paul Godtland, Mayumi Matsukawa, Ian J. Mills, Roger Southwick, IBM Redbooks, 2010-03-17 IBM® delivered IBM i 6.1 in March 2008. With 6.1, IBM exploits the capabilities of the Machine Interface (MI) architecture to significantly improve programs. Programs can benefit from better performance, a range of new operating system and processor capabilities, and even stronger system integrity. To enable these improvements, all MI programs created for previous releases must be converted to run on 6.1 or a later release. MI programs include integrated language environment (ILE) and original program model (OPM) programs. To convert a program, its creation data, which is a subset of observability, must be available. MI programs retain creation data by default, so that most programs can be converted, going all the way back to programs that were originally created for System/38. Even if an option was chosen to remove creation data from external access, Licensed Internal Code (LIC) can still access the creation data if the target releases of the program and its constituent modules are V5R1 or later. Thus a program lacks sufficient creation data for conversion only if the program or at least one of its modules was created for IBM OS/400® V4R5 or an earlier release and creation data was explicitly removed. You can run the Analyze Object Conversion (ANZOBJCVN) command on V5R4 or V5R3 to help plan for your upgrade. The ANZOBJCVN command identifies programs that will not convert to run on 6.1 or later releases, if any, and estimates the times that are required for the program conversions. It also provides information about two other types of conversions: integrated file system names and spooled files. You can access the ANZOBJCVN command by loading and applying the appropriate PTFs that are listed in this paper. This IBM Redpaper™ publication is intended for system administrators and field technicians to help them understand and prepare for upgrading or migrating to 6.1 or a later release. It explains what the program conversion is and why programs are being created or recreated on 6.1 or a later release. It then provides detailed steps for using the ANZOBJCVN tool on V5R3 or V5R4 to prepare for object conversions. Finally, it discusses the program conversion methods for converting programs to run on 6.1 or a later release. Note: The first edition of this paper was entitled IBM i5/OS Program Conversion: Getting Ready for i5/OS V6R1, REDP-4293-00. The title of this second edition has been slightly modified to IBM i Program Conversion: Getting Ready for 6.1

and Beyond, REDP-4293-01, to reflect the new naming conventions for IBM i.
