Without a Trace: 1970-2016 Sylvia Wrigley, 2019-05-02 True Stories of Aircraft and Passengers who Disappeared into Thin Air The disappearance of Malaysia Airlines flight 370 in 2014 is considered the greatest aviation mystery of our time but it does not stand alone. The second volume of *Without a Trace* begins in 1970, when a military pilot chased a glowing unidentified object only for both to disappear in an instant. How did India manage to misplace five fighter jets? Did the young pilot chasing an inexplicable aircraft over the Australian coast really get abducted by aliens? These questions and more are explored in *Without a Trace*. We explore modern mysteries as recent as 2016, with the sudden disappearance of an Antonov An-32 on a routine courier flight, while the aircraft ahead and behind saw nothing. Each case is laid out in rich detail and presented chronologically, with explanations of technology, aviation jargon and cultural aspects involved in each mystery. Where did they go? Sylvia Wrigley introduces the crews, innocent bystanders and rescuers in this collection of true stories. Documenting the popular theories from each case, she uses her knowledge and experience as a pilot and an aviation journalist to demystify aviation jargon and narrow down each disappearance to the most likely explanations. The stories range from fighter jets to commercial airliners, all of which have vanished within our lifetimes without a trace.

Conveniently brings together a usable text to which people can easily refer to for an overview of a diffuse area No existing book considers this subject area from a UK and European perspective Also aimed at a non-traditional readership including educationalists, lifelong learning activists and those involved with informal learning activities

Rethinking Rights and Regulations Lorrie Faith Cranor, Steven S.

Wildman, 2003-08-29 Contributors to this volume explore the dynamics of new communications technologies and public policy; from TPRC 2002. The contributors to this volume examine issues raised by the intersection of new communications technologies and public policy in this post-boom, post-bust era. Originally presented at the 30th Research Conference on Communication, Information, and Internet Policy (TPRC 2002)—traditionally a showcase for the best academic research on this topic—their work combines hard data and deep analysis to explore the dynamic interplay between technological development and society. The chapters in the first section consider the ways society conceptualizes new information technologies and their implications for law and policy, examining the common metaphor of cyberspace as place, alternative definitions of the Internet, the concept of a namespace, and measures of diffusion. The chapters in the second section discuss how technological change may force the rethinking of legal rights; topics considered include spectrum rights, intellectual property, copyright and paracopyright, and the abridgement of constitutional rights by commercial rights in ISP rules. Chapters in the third and final section examine the constant adjustment and reinterpretation of regulations in response to technological change, considering, among

other subjects, liability regimes for common carriers and the 1996 detariffing rule, privacy and enhanced 911, and the residual effect of state ownership on privatized telecommunication carriers. The policy implications of Rethinking Rights and Regulations are clear: major institutional changes may be the necessary response to major advances in telecommunications technology.

The Happy Prince Oscar Wilde, 1907

Sharpeville Tom Lodge, 2011-05-12 On 21 March 1960 several hundred black Africans were injured and 69 killed when South African police opened fire on demonstrators in the township of Sharpeville, protesting against the Apartheid regime's racist 'pass' laws. The Sharpeville Massacre, as the event has become known, signalled the start of armed resistance in South Africa, and prompted worldwide condemnation of South Africa's Apartheid policies. The events at Sharpeville deeply affected the attitudes of both black and white in South Africa and provided a major stimulus to the development of an international 'Anti-Apartheid' movement. In Sharpeville, Tom Lodge explains how and why the Massacre occurred, looking at the social and political background to the events of March 1960, as well as the sequence of events that prompted the shootings themselves. He then broadens his focus to explain the long-term consequences of Sharpeville, explaining how it affected South African politics over the following decades, both domestically and also in the country's relationship with the rest of the world.

Jesus' Bluff Hans Atrott, 2009-11-06 Jesus is a cripple (blind in one eye, limping and dwarfish). He did not die on the cross, but gulled Judas Iscariot into dying on the cross in place of him. He laughed up his sleeve at the crucified one. The "official" part of Judas Iscariot as the purported "betrayers" escorting the troops to the delinquent also was screened by another double: Simon of Cyrene. At least two times more he escaped from the death penalty by a stuntman.

The Use of Artificial Intelligence in the Public Sector in Shanghai Diego Todaro,

A Matter of Principle Thomas Cushman, 2005-07-11 Current debate over the motives, ideological justifications, and outcomes of the war with Iraq have been strident and polarizing. *A Matter of Principle* is the first volume gathering critical voices from around the world to offer an alternative perspective on the prevailing pro-war and anti-war positions. The contributors—political figures, public intellectuals, scholars, church leaders, and activists—represent the most powerful views of liberal internationalism. Offering alternative positions that challenge the status quo of both the left and the right, these essays claim that, in spite of the inconsistent justifications provided by the United States and its allies and the conflict-ridden process of social reconstruction, the war in Iraq has been morally justifiable on the grounds that Saddam Hussein was a brutal tyrant, a flagrant violator of human rights, a force of global instability and terror, and a threat to world peace. The authors discuss the limitations of the current system of global governance, which tolerates gross violations of human rights and which has failed to prevent genocide in places such as Bosnia and Rwanda. They also underscore the need for reform in international institutions and international law. At the same time, these essays do not necessarily attempt to apologize for the mistakes, errors, and deceptions in the way the Bush administration has handled the war. Disputing the idea that the only true liberal position on the war is to be against it, this volume charts an invaluable third course, a path determined by a strong liberal commitment to human rights, solidarity with the oppressed, and a firm stand against fascism, totalitarianism, and tyranny.

Proceedings of the 2004 Northeastern Recreation Research Symposium Kelly Bricker, Sarah J. Millington, 2005

The War to Oust Saddam Hussein James Turner Johnson, 2005 This is the first and only book to provide a moral analysis of the war in Iraq and its implications for the future of the

war and peacemaking. The War to Oust Saddam Hussein addresses the key questions most people are asking today: What should be the standard for pre-emptive uses of military force? What of the other arguments offered for the need to remove Saddam Hussein and restructure Iraq? What is to be said for the future of fruitful relations between the cultures of the West and of Islam?

Understanding World Religions David Whitten Smith, Elizabeth Geraldine Burr, 2007 *Understanding World Religions* studies major worldviews in relation to justice and peace: Hindu, Buddhist, Muslim, Jewish, Christian, Marxist, and Native American. The Israeli-Palestinian conflict is given as a case study for how worldviews impact justice and peace. Further chapters explore Christian social teaching, liberation theologies, active nonviolence, and just war theory.

Refugee Women Susan Forbes Martin, 2004 This new and revised edition includes new material on the legal issues and policies developed to protect displaced women, and addresses the increasingly recognised problem of internally displaced persons, focusing on the unique hardships for women who are forced from their homes.

International Migration and Global Justice Satvinder Singh Juss, 2006 How should international law approach the critical issue of movement of peoples in the 21st century? This book presents a radical reappraisal of this controversial problem. Written in a clear and succinct style the volume presents an important critical addition to the literature on migration studies and human rights law.

Facing An Unequal World Raquel Sosa Elizaga, 2018-02-26 Raquel Sosa Elízaga has assembled an incredibly complete set of analyses of inequality written by a range of scholars about a wide range of issues. Incomparable essential reading. - Immanuel Wallerstein, Senior Research Scientist, Sociology, Yale University Over recent decades, living conditions in poorer countries have deteriorated, leaving us faced with the present phenomenon of global inequality. Arguably the biggest challenge of the 21st Century is the confrontation and eventual elimination of the processes of structural inequality that affect these millions of human beings today. *Facing an Unequal World* tackles and critically examines key issues and challenges for global sociology across these interrelated themes: The dimensions of inequality and the configurations of structural inequalities and structures of power Conceptions of justice in different historical and cultural traditions Conflicts on environmental justice and sustainable futures The social injuries of inequality, and overcoming inequalities Written by a selection of international key sociologists and academics, this is a valuable resource for undergraduate and postgraduate students, and researchers in sociology alike.

Romero's Legacy Pilar Hogan Closkey, John P. Hogan, 2007-08-04 This volume brings together the annual Romero Lectures presented in Camden, New Jersey, one of America's poorest cities. The book not only remembers Romero but evokes his model of ministry and leadership to give direction to some of the thorny social justice issues confronting American Catholics. The essays are by Robert McDermott, John Hogan, Thomas Gumbleton, Gustavo Gutierrez, Helen Prejean, Diana Hayes and Daniel Groody. They address urban problems, liturgy and justice, poverty and war, the preferential option, capital punishment, race and economics, and immigration.

Women and the Nigeria-Biafra War Gloria Chuku, Sussie U. Aham-Okoro, 2020-10-07 This first comprehensive study of the Nigeria-Biafra War (1967-1970) through the lens of gender explores the valiant and gallant ways women carried out old and new responsibilities in wartime and immediate postwar Nigeria. The book presents women as embodiments of vulnerability and agency, who demonstrated remarkable resilience and initiative, waging war on all fronts in the face of precarious conditions and scarcities, and maximizing opportunities occasioned by the hostilities. Women's experiences are highlighted through critical analyses of oral interviews, memoirs, life histories, fashion

and material culture, international legal conventions, music, as well as governmental and non-governmental sources. The book fills the gap in the war scholarship that has minimized women's complex experiences fifty years after the hostilities ended. It highlights the cost of the conflict on Nigerian women, their participation in the hostilities, and their contributions to the survival of families, communities and the country. The chapters present counter-narratives to fictional and nonfictional accounts of the war, especially those written by men, which often peripheralize or stereotypically represent women as passive spectators or helpless victims of the conflict; and also highlight and exaggerate women's moral laxity and sensationalize their marital infidelities.

Rediscovering the Other America Keith Michael Kilty, Elizabeth A. Segal, 2003 This vital book examines recent research on poverty and inequality, identifies strategies for ensuring adequate services, and challenges many of the inaccurate beliefs that were used to justify welfare reform legislation in 1996. You'll find up-to-date information on various marginalized groups and their social problems, including lack of health coverage for women with mental health, substance abuse, and domestic violence problems. In addition, you'll find data on the health coverage situation for the poor, for Appalachians, and for women in general. Finally, *Rediscovering the Other America: The Continuing Crisis of Poverty and Inequality in the United States* suggests strategies for changing public perceptions about the nature of poverty and the poor.
