Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Construction Safety Rita Yi Man Li,Sun Wah Poon,2013-03-01 A close-to-ideal blend of suburb and city, speedy construction of towers of Babylon, the sparkling proportion of glass and steel buildings' facade at night showcase the wisdom of humans. They also witness the footsteps, sweats and tears of architects and engineers. Unfortunately, these signatures of human civilizations are swathed in towering figures of construction accidents. Fretting about these on sites, different countries adopt different measures on sites. This book firstly sketches the construction accidents on sites, followed by a review on safety measures in some of the developing countries such as Bermuda, Egypt, Kuwait and China; as well as developed countries, for example, the United States, France and Singapore. It also highlights the enormous compensation costs with the courts' experiences in the United Kingdom and Hong Kong.

Java and XSLT Eric Burke,2001 The power of XSLT is its ability to change the structure or format of any content that can be converted to XML. Java and XSLT shows you how to use XSL transformations in Java programs ranging from stand-alone applications to servlets. After an introduction to XSLT, the book focuses on applying transformations in some real-world scenarios, such as developing a discussion forum, transforming documents from one form to another, and generating content for wireless devices. Java and XSLT discusses several common XSLT processors and the TRAX API, paying special attention to performance issues. Although there's a brief tutorial introduction to the XSLT language, the primary focus of the book isn't on learning XSLT or developing stylesheets; it's on making practical use of transformations in Java code. The book covers: Introduction and Technology Review XSLT--The Basics XSLT--Beyond The Basics Java Web Architecture Programmatic Interfaces to XSLT Processors Using XSLT with Servlets Discussion Forum Implementation Advanced XSLT Web Techniques Testing, Tuning and Development Environments WAP and WML XSLT and Wireless Examples

3D modeling to lighting, shading and texturing, *Computer Graphics Through OpenGL®: From Theory to Experiments* is a comprehensive introduction to computer graphics which uses an active learning style to teach key concepts. Equally emphasizing theory and practice, the book provides an understanding not only of the principles of 3D computer graphics, but also the use of the OpenGL® Application Programming Interface (API) to code 3D scenes and animation, including games and movies. The remaining chapters explore more advanced topics, including the structure of curves and surfaces, applications of projective spaces and transformations and the implementation of graphics pipelines. This book can be used for introductory undergraduate computer graphics courses over one to two semesters. The Ranch That Was Us Becky Crouch Patterson, 2013-01-01 Braiding strands of earthen insight with uproarious storytelling, Texas Hill Country legendary author Becky Patterson recreates the history of the Steiler Hill Ranch in twenty-four anecdotal chapters interspersed with original artwork. The result is a mixture of memoir and montage, treasure chest and tableau vivant of a world that's beautiful, brash, and wonderfully heartbreaking. Patterson -- the daughter of Texas folk hero and self-proclaimed mayor of Luckenbach, Hondo Crouch -- has big shoes to fill and she does so successfully in this colorful collection of Hill Country and Texas ranch vignettes. Foreman and general cowboy guru Raymond Kuhlmann tells stories of the Goat King and German drinking songs, the buzzard traps and Mexican corridos that filled the nighttime pastures. First-person accounts and vivid historical narratives evoke the ranch's past, overlaid with Patterson's breathless personal histories of afternoons spent rescuing a doe in a nightgown, or saving a porcupine from a pack of dogs. This is a book that will connect you to whatever patch of earth you hold dear. It is poignant reminder of the landscapes we've forgotten to keep close, of the land that does not belong to us but simply is who we are. *The Ranch That Was Us* is an affectionate reminder to go outside and touch the earth that is you.
