Approaching the Qur'an Michael Sells,2023-10-05 Approaching the Qur'an presents brilliant translations of the short, hymnic chapters, or Suras, associated with the first revelations to the Prophet Muhammad. These early Suras contain some of the most powerful, prophetic, and revelatory passages in religious history, offering the vision of a meaningful and just life that anchors the faith of one fifth of the world's inhabitants. In addition to these translations, Michael Sells provides an introduction to the Qur'an, commentaries on the Suras, a glossary of technical terms, and discussions of the auditory nature and gender aspects of the Arabic text. An ideal resource for students and interested lay readers, this third edition also includes a new full Sura and associated commentary, a new preface, and a thoroughly updated bibliography.

Guests of God Robert Bianchi,2008-03-25 Each year, about two million pilgrims from over 100 countries converge on the Islamic holy city of Mecca for the hajj. While the hajj is first and foremost a religious festival, it is also very much a political event. No government can resist the temptation to manipulate the hajj for political and economic gain. Every large Muslim state has developed a comprehensive hajj policy and a powerful bureaucracy to enforce it. The Muslim world's leading multinational organization, the Organization of the Islamic Conference, has established the first international regime explicitly devoted to pilgrimage. Yet, Robert Bianchi argues, no secular or religious authority - national or international - can really control the hajj. State-sponsored pilgrimage management consistently backfires, giving government opponents valuable ammunition and allowing them to manipulate the symbols and controversies of the hajj to their own ends. Bianchi has been researching the hajj for over ten years and draws on interviews with and data from hajj directors in five Muslim countries (Pakistan, Malaysia, Turkey, Indonesia, and Nigeria), statistics from Saudi Arabian hajj authorities, as well as his personal experience as a pilgrim. The result is the most complete picture of the hajj available anywhere, and a wide-ranging work on Islam, politics, and power.

Religion and State L. Carl. Brown,2001-08-20 If Westerners know a single Islamic term, it is likely to be jihad, the Arabic word for holy war. The image of Islam as an inherently aggressive and xenophobic religion has long prevailed in the West and can at times appear to be substantiated by current events. L. Carl Brown challenges this conventional wisdom with a fascinating historical overview of the relationship between religious and political life in the Muslim world ranging from Islam's early centuries to the present day. Religion and State examines the commonplace notion—held by both radical Muslim ideologues and various Western observers alike—that in Islam there is no separation between religion and politics. By placing this assertion in a broad historical context, the book reveals both the continuities between premodern and modern Islamic political thought as well as the distinctive dimensions of modern Muslim experiences. Brown shows that both the modern-day fundamentalists and their critics

have it wrong when they posit an eternally militant, unchanging Islam outside of history. They are conflating theology and history. They are confusing the oughtand the is, he writes. As the historical record shows, mainstream Muslim political thought in premodern times tended toward political quietism. Brown maintains that we can better understand present-day politics among Muslims by accepting the reality of their historical diversity while at the same time seeking to identify what may be distinctive in Muslim thought and action. In order to illuminate the distinguishing characteristics of Islam in relation to politics, Brown compares this religion with its two Semitic sisters, Judaism and Christianity, drawing striking comparisons between Islam today and Christianity during the Reformation. With a wealth of evidence, he recreates a tradition of Islamic diversity every bit as rich as that of Judaism and Christianity.
