The Psychology of Silicon Valley Katy Cook, 2019-10-15 Misinformation. Job displacement. Information overload. Economic inequality. Digital addiction. The breakdown of democracy, civility, and truth itself. This open access book explores the conscious and unconscious norms, values, and characteristics that drive behaviors within the high-tech capital of the world, Silicon Valley, and the sector it represents. In an era where the reach and influence of a single industry has the potential to define the future of our world, it has become apparent just how little we know about the organizations driving these changes. The Psychology of Silicon Valley offers a revealing look inside the mind of world's most influential industry and how the identity, culture, myths, and motivations of Big Tech are harming society. The book argues that the bad values and lack of emotional intelligence borne in the vacuum of Silicon Valley will have lasting consequences on everything from social equality to the future of work to our collective mental health. Katy Cook expertly walks us through the psychological landscape of Silicon Valley, including its leadership, ethical, and cultural problems, and artfully explains why we cannot afford to ignore the psychology and values that are behind our technology any longer.

Combating Desertification in Asia, Africa and the Middle East G. Ali Heshmati, Victor R. Squires, 2013-07-01 This book is about the 'how' of desertification control as opposed to an analysis of the 'why' and fills a gap in the desertification-related literature in that it shows what to do in

situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands. There are numerous illustrations to show the successful techniques. This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia, from mountains in Lesotho to low lands on desert margins in Mongolia. Proven approaches include technical interventions, changes in governance and to the legislative framework and policy reform. The book fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands.

Fourth Regional Plan Regional Plan Association,2019 In the past two decades, the New York-New Jersey-Connecticut region has prospered into one of the world's leading economies. But the benefits of this economic resurgence have been uneven, leaving many behind and resulting in problems that could curtail the region's future prosperity. The Regional Plan Association's Fourth Regional Plan is an ambitious assessment that reviews the most persistent problems and provides a guide to correcting them. Topics discussed include a crisis of housing affordability, overburdened and deteriorating infrastructure, vulnerability to climate change, and a pervasive distrust in government. The plan offers solutions including how to bring nearly two million jobs to the region by 2040, while promoting shared prosperity, well-being and sustainability across the region. The Fourth Regional Plan continues the Regional Plan Association's tradition of providing concrete ideas for improving the tri-state region. Highlights include radically restructuring the MTA and Port Authority to support creation of a

modernized and expanded subway and regional rail network; significantly increasing the availability of housing; and expanding the Regional Greenhouse Gas Initiative to fund climate change initiatives. This highly visual, comprehensive plan will help elected officials, policymakers, and advocates guide any region to a more equitable, sustainable, healthy, and prosperous future.

Reset Ellen Pao, 2017-09-19 The “necessary and incisive” (Roxane Gay) account of the discrimination case that “has blown open a conversation about the status of women” in the workplace (The New York Times) SHORTLISTED FOR THE 2017 FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR | NAMED A BEST FALL BOOK BY ELLE AND BUSTLE In 2015, Ellen K. Pao sued a powerhouse Silicon Valley venture capital firm, calling out workplace discrimination and retaliation against women and other underrepresented groups. Her suit rocked the tech world—and exposed its toxic culture and its homogeneity. Her message overcame negative PR attacks that took aim at her professional conduct and her personal life, and she won widespread public support—Time hailed her as “the face of change.” Though Pao lost her suit, she revolutionized the conversation at tech offices, in the media, and around the world. In *Reset*, she tells her full story for the first time. The daughter of immigrants, Pao was taught that through hard work she could achieve her dreams. She earned multiple Ivy League degrees, worked at top startups, and in 2005 was recruited by Kleiner Perkins, arguably the world’s leading venture capital firm at the time. In many ways, she did everything right, and yet she and other women and people of color were excluded from success—cut out of decisive meetings and email discussions, uninvited to CEO dinners and lavish networking trips, and had their work undercut or appropriated by male executives. It was time for a system reset. After Kleiner, Pao became CEO of reddit, where she took forceful action to change the status quo for the company and its product. She banned revenge porn and unauthorized nude photos—an action other large media

sites later followed—and shut down parts of reddit over online harassment. She and seven other women tech leaders formed Project Include, an award-winning nonprofit for accelerating diversity and inclusion in tech. In her book, Pao shines a light on troubling issues that plague today's workplace and lays out practical, inspiring, and achievable goals for a better future. Ellen K. Pao's *Reset* is a rallying cry—the story of a whistleblower who aims to empower everyone struggling to be heard, in Silicon Valley and beyond. Praise for *Reset* “Necessary and incisive . . . As Ellen Pao detailed her experiences, while also communicating her passion for the work men often impeded her from doing, I was nothing short of infuriated. It was great to see a highly accomplished woman of color speaking out like this, and hopefully this book will encourage more women to come forward, give voice to their experiences in the workplace, and contribute to meaningful change.”—Roxane Gay

Looking for the Summer Jim Brandenburg, 2005-09-01 New in Paperback World-renowned photographer Jim Brandenburg once again uses the hidden world of his beloved northern woods as the setting for a daunting artistic challenge. From June 21st to September 21st, Jim spent each day capturing the spirit of the Northern Minnesota wilderness through his camera. At the end of each day, Jim edited the day's shoot and picked the best shot to represent that day's adventure. The resulting book literally teems with life. It is filled with the color and action of a pristine natural world during its most energetic season of the year. It features all of Brandenburg's favorite subjects: wildlife and wildflowers, water and wide-open skies. As always, Jim brings the photojournalist's instinct for the critical moment to each photo. His is a style quite unlike any other nature or wildlife photographer. As was true of the best-selling *Chased by the Light*, Jim's exercise in photographic technique became something much, much more: a study in human perspective and vision. For, in addition to being a world-class photographer, Jim Brandenburg is a philosopher/poet. As any reader of his work knows,

Jim's influences are broad: native American mythology; classical Japanese culture; and Zen Buddhism. Most of all, though, Jim has lived his life as a dedicated student of the natural world-of earth and sky, of water and wind, of plants and creatures. It is in the cyclical rhythms of the natural world that Jim discovers serenity and the meaning of life, and these lessons are conveyed brilliantly through the images and words married together in this book.

Wired Child Richard Freed,Richard Freed Ph D,2015-03-12 In *Wired Child*, child and adolescent psychologist Dr. Richard Freed exposes the powerful myths that underlie our kids' use of technology. These myths have encouraged the wiring up of a generation of youth, seducing kids to spend endless hours with digital self-amusements that damage family bonding and education, and put kids at risk of addiction. Written for parents, teachers, and others who care for children, *Wired Child* uses the science of behavior and brain function to provide a common-sense guide to build the strong families children and teens need, promote their success in school, limit their risk of tech addiction, and encourage their productive use of technology.

Leadership and Innovation in Subnational Government Tim Campbell,Harald

Fuhr,2004-01-01 This publication examines the various innovative projects on-going in Latin America, where fledging and developing local government policies are being introduced for reforming and improving services for the local communities whom they serve. The emergence of decentralised democracies in this region of the world offers may new challenges, that are dependent on building communities open to enterprise and innovation. Among such innovations are popular participation, service delivery, privatization and personnel management. Case studies of such developments are documented in this publication. For outside agencies and countries providing donor finance to this region, a greater awareness is required of the local policies that are being implemented. The World Bank recommends a process of participation in public choice, and a fostering of greater co-operation at a local level.

Prayer Strategy Resource Book Ruth Shinness,2014-11-14 Do you want to jump into the stream of God's blessings and float along and say, At last it is happening to me.? Ruth Shinness teaches how the average anybody can fine tune their prayer life with scriptural skills, so the heavens will burst forth with the blessings Jesus died to give them. Ruth has published 10 books plus Unlocking the Heavens, her own story of how God worked these incredible Prayer Strategies into her life as she prayed in her own revival and ministry. She reports that the 'Go-Ye' page sent her forth all over the world speaking and doing seminars. The 'Prosper' page paid her way. The 'Lost' page made her a soul winner and brought her into a deeper repentance. The 'Knowing Jesus' page brought her into the presence and fellowship of Jesus Himself. The 'Children' page changed a heartache into a victory.

Ruth believes that many Christians are a treasure house, waiting spring forth into God's program and ministry just tailor made for them. Ruth's way of prayer activated the Word of God so it is not about you doing the work, but Jesus working His will in and through you: not about you, but about Him, and it is like you are going along for the ride and being amazed at every turn as He unfolds the goodness He has been waiting to give you.

The Empathy Instinct Peter Bazalgette, 2019-10-22 'If we hope to meet the moral test of our times, then I think we're going to have to talk more about the empathy deficit. The ability to put ourselves in somebody else's shoes, to see the world through somebody else's eyes . . .' Barack Obama Empathy is the power of understanding others, imaginatively entering into their feelings. It is a fundamental human attribute, without which mutually co-operative societies cannot function. In a revolutionary development, we now know who has it, who lacks it and why. Via the MRI scanner we are mapping the human brain. This is a new frontier that reveals a host of beneficial ideas for childcare, teens challenged by the internet, the justice system, decent healthcare, tackling racism and resolving conflicts. In this wide-ranging and accessible book full of entertaining stories that are underlined by the latest scientific research, Peter Bazalgette also mounts a passionate defence of arts and popular culture as a means of bridging the empathy gap. As the world's population expands, consuming the planet's finite resources, as people haunted by poverty and war are on the move and as digital communications infinitely complicate our social interactions, we find our patience and our sympathy constantly challenged. Here is the antidote. Culminating in a passionate manifesto on empathy, *The Empathy Instinct* is what makes us human and what can make us better humans.
