Civility and Its Development David C.

Schak,2018-09-04 This is the first book-length study of the development of civility in Chinese societies. Although some social scientists and political philosophers have discussed civility, none has defined it as an analytical tool to systematically measure attitudes and behavior, and few have applied it to a non-Western society. By comparing the development of civility in mainland China and Taiwan, *Civility and Its Development: The Experiences of China and Taiwan* analyzes the social conditions needed for civility to become established in a society. Schak argues that the attempts to impose civility top-down from the state are ineffective. Civility appeared in Taiwan only after state efforts to impose it ceased at the end of the 1980s when Taiwan began to democratize, and the PRC government civility campaigns have so far had only limited success. The book concludes with an examination of various differences between Taiwan and the PRC relevant to Taiwan's having become a society with civility while the PRC still encounters difficulties in doing so. The essential factor in developing civility in Taiwan, Schak contends, was its evolution from a place composed of myriad small, inward-looking communities to a society in which everyone shares a strong identity and civic consciousness, and people consider others as fellow members, not anonymous strangers. "This book represents the most thorough review of what social scientists once called 'the civilizing process' in Chinese society. David C. Schak builds on the earlier studies on this issue and goes well beyond the established literature." —James Watson, Fairbank Professor of Chinese Society and Professor of Anthropology, Emeritus, Harvard University "This is a topic that people talk about all the time, and David C. Schak draws a lot of material together

in a systematic and comprehensive way that can stimulate important discussions beyond the academy.” —Thomas Gold, Professor of Sociology, University of California, Berkeley

Defense and Security [2 volumes] Karl DeRouen Jr., Uk Heo, 2005-09-27 An authoritative, up-to-date examination of the national security and defense policies of 50 influential nations and regions across the globe. *Defense and Security: A Compendium of National Armed Forces and Security Policies* presents highly readable, authoritative essays profiling the defense and security policies of over 50 individual countries and regions, with a focus on present-day developments. Written by leading national and international scholars and edited by eminent political science experts Karl DeRouen and Uk Heo, the essays take an in-depth look at each nation's current security situation, defense spending, present and potential military confrontations, civil-military relations, alliances, relations to terrorism, and other topics of importance. Historical events and conflicts are highlighted as well, with emphasis on the post-Cold War era. The essays are parallel in structure, allowing readers to pinpoint similarities and draw comparisons among nations. The two-volume set also includes a detailed introduction featuring a cross-national comparison.

Zheng Chaolin, Selected Writings, 1942-1998

, 2022-12-05 Zheng Chaolin, a founder of China's Communist Party and its Trotskyist Opposition, was also one of the modern world's longest serving political prisoners, under Chiang Kai-shek (as a revolutionary) and Mao (as a counter-revolutionary) - these are his writings.

The Cleveland Rams James C. Sulecki, 2016-10-21 In 2016 the Rams left St. Louis for Los Angeles--having departed L.A. for St. Louis in 1995--and caused much

heartbreak among fans. NFL teams are notorious for decamping to more profitable markets and the Rams' history of opportunistic moves goes back to 1946, when they left Cleveland, their original hometown, where fans had cheered them to a championship a month earlier. The move to L.A. from Cleveland shocked the NFL and shook up its power structure. It also jolted the all-white league into reintegration, prepared the way for the Browns, and made the Rams the only NFL champs ever to have spent the following season in a different city. This is the story of how the Rams went from a home-grown Ohio team funded by local businessmen to the first major-league franchise on the West Coast, and how their departure jumpstarted a chain of events in Cleveland that continues to this day.

Government by Investigation Paul C. Light, 2013-10-24
Paul C. Light examines and evaluates the 100 most significant investigations of policy failures, bureaucratic mistakes, and personal misconduct undertaken by the U.S. federal government between 1945 and 2012. Launched by Congress or the president, sometimes by both at the same time, the investigations at the core of this book were driven by the search for answers about significant breakdowns in government performance. Light reveals which investigations were most effective, and why.

Travels of Bollywood Cinema Anjali Gera Roy, Chua Beng Huat, 2014-11-10
From Bombay (Mumbai) and other production centres on the Indian subcontinent, Indian popular cinema has travelled globally for nearly a century, culminating in the Bollywood-inspired, Oscar-winning film *Slumdog Millionaire*. This volume brings together perspectives on Indian popular cinema, universally known as Bollywood now, from different disciplinary and geographical locations to look afresh at national cinemas. It shows how Bollywood cinema has always crossed

borders and boundaries: from the British Malaya, Fiji, Guyana, Trinidad, Mauritius, and East and South Africa to the former USSR, West Asia, the UK, the USA, Canada, and Australia. While looking at the meanings of nation, diaspora, home, and identity in cinematic texts and contexts, the essays also examine how localities are produced in the new global process by broadly addressing nationalism, regionalism, and transnationalism, politics and aesthetics, as well as spectatorship and viewing contexts.

Understanding World Religions David Whitten

Smith, Elizabeth Geraldine Burr, 2014-08-21 *Understanding World Religions* introduces students to major worldviews—including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist—through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition—experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict. *Understanding World Religions* remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.

The Galapagos Henry Nicholls, 2014-04-08 The natural and human history of the Galapagos Islands—beloved vacation spot, fiery volcanic chain, and one of the critical sites in the history of science The Galapagos were once known to the sailors and pirates who encountered them as Las Encantadas: the enchanted islands, home to exotic creatures and dramatic volcanic scenery. In *The Galapagos*, science writer Henry Nicholls offers a lively natural and human history of the archipelago, charting its evolution from deserted wilderness to scientific resource (made famous by Charles Darwin) and global ecotourism hot spot. He describes the island chain's fiery geological origins as well as the long history of human interaction with it, and draws vivid portraits of the Galapagos' diverse life forms, capturing its awe-inspiring landscapes, its understated flora, its stunning wildlife and, crucially, the origin of new species. Finally, he considers the immense challenges facing the islands and what lies ahead. Nicholls shows that what happens in the Galapagos is not merely an isolated concern, but reflects the future of our species' relationship with nature—and the fate of our planet.

Haunted Massachusetts Cheri Farnsworth, 2005-07-21 More than 60 chilling stories. Covers all regions of the state.

Grave New World Stephen D. King, 2017-05-23 A controversial look at the end of globalization and what it means for prosperity, peace, and the global economic order Globalization, long considered the best route to economic prosperity, is not inevitable. An approach built on the principles of free trade and, since the 1980s, open capital markets, is beginning to fracture. With disappointing growth rates across the Western world, nations are no longer willing to sacrifice national interests for global

growth; nor are their leaders able—or willing—to sell the idea of pursuing a global agenda of prosperity to their citizens. Combining historical analysis with current affairs, economist Stephen D. King provides a provocative and engaging account of why globalization is being rejected, what a world ruled by rival states with conflicting aims might look like, and how the pursuit of nationalist agendas could result in a race to the bottom. King argues that a rejection of globalization and a return to “autarky” will risk economic and political conflict, and he uses lessons from history to gauge how best to avoid the worst possible outcomes.

The Story of Shih Jiangnan 謝江南 Cosette

Wu,2020-09-27 You are too afraid of death. If all Taiwanese were as afraid of death as you, then what would we do? The second Taiwanese to receive a doctorate in medicine, Dr. Shih Jiangnan dedicated himself to helping his fellow Taiwanese. He promoted public health education, fought against discrimination and the infringement of human rights by the post-WWII Republic of China government in Taiwan, and organized the return of stranded Taiwanese conscripts in the Japanese military. He demonstrated bravery and altruism in the face of danger. Taken from his home on March 11th, 1947, Dr. Shih Jiangnan became one of the many victims in the 228 Massacre.

Shaping the Future of Work Thomas A. Kochan, Lee Dyer,2020-11-24 This book provides a clear roadmap for the roles workers and leaders in business, labor, education, and government must play in building a new social contract for all to prosper. It is a call to action for a collaborative effort to develop both high-quality jobs and strong, successful businesses while simultaneously overcoming the deep social and economic divisions that are all too apparent in society today. Written by two leading

and trusted experts in the field of employment and work from MIT and Cornell University, this book is a practical, action-oriented guide. Readers will feel empowered to take actions needed to shape a better future of work for themselves, their employees, their co-workers, and others they may represent. It emphasizes the need to fix America's broken social contract and reimagine a new one. The most important message of this book is that we have the ability to shape the work of the future by harnessing the power of new technologies. The book is essential reading for business executives, labor leaders and workforce advocates, government policy makers, politicians, and anyone who is interested in using emerging knowledge and technologies to drive innovation, creating high-quality jobs, and shaping a more broadly shared prosperity.

The Palgrave Handbook of Development Cooperation for Achieving the 2030 Agenda Sachin Chaturvedi, Heiner Janus, Stephan Klingebiel, Xiaoyun Li, André de Mello e Souza, Elizabeth Sidiropoulos, Dorothea Wehrmann, 2021 This open access handbook analyses the role of development cooperation in achieving the 2030 Agenda in a global context of 'contested cooperation'. Development actors, including governments providing aid or South-South Cooperation, developing countries, and non-governmental actors (civil society, philanthropy, and businesses) constantly challenge underlying narratives and norms of development. The book explores how reconciling these differences fosters achievement of the Sustainable Development Goals. Sachin Chaturvedi is Director General at the Research and Information System for Developing Countries (RIS), a New Delhi, India-based think tank. Heiner Janus is a researcher in the Inter- and Transnational Cooperation programme at the German

Development Institute. Stephan Klingebiel is Chair of the Inter- and Transnational Cooperation programme at the German Development Institute and Senior Lecturer at the University of Marburg, Germany. Xiaoyun Li is Chair Professor at China Agricultural University and Honorary Dean of the China Institute for South-South Cooperation in Agriculture. Prof. Li is the Chair of the Network of Southern Think Tanks and Chair of the China International Development Research Network. André de Mello e Souza is a researcher at the Institute for Applied Economic Research (IPEA), a Brazilian governmental think tank. Elizabeth Sidiropoulos is Chief Executive of the South African Institute of International Affairs. She has co-edited *Development Cooperation and Emerging Powers: New Partners or Old Patterns* (2012) and *Institutional Architecture and Development: Responses from Emerging Powers* (2015). Dorothea Wehrmann is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute.

Hurricane Camille Hearn, Philip D., 2009-10-20
Nominated Best Nonfiction Book for 2004 --Mississippi
Institute of Arts and Letters On August 17, 1969,
Hurricane Camille roared out of the Gulf of Mexico and
smashed into Mississippi's twenty-six miles of coastline.
Winds were clocked at more than 200 miles per hour, tidal
waves surged to nearly 35 feet, and the barometric
pressure of 26.85 inches neared an all-time low. Survivors
of the killer storm date events as BC and AC--Before
Camille and After Camille. The history of Hurricane
Camille is told here through the eyes and the memories of
those who survived the traumatic winds and tides. Their
firsthand accounts, compiled a decade after the storm and
archived at the University of Southern Mississippi, form
the core of this book. Property damage exceeded \$1.5

billion, \$48.6 billion in today's dollars. Fashionable beachfront homes, holiday hotels, marinas, night clubs, and souvenir shops were devastated. The death toll in the state's three coastal counties--Harrison, Hancock, and Jackson--reached 131, with another 41 persons never found. The rampaging storm then moved north through Tennessee, Kentucky, West Virginia, and Virginia and sparked flash floods that killed more than 100 in Virginia before moving into the Atlantic. Camille is one of only three Category 5 hurricanes ever to hit the U.S. mainland. Along the Coast today, vacant lots, slabs of concrete, and mysterious staircases and driveways leading to nowhere are Camille's eerie reminders. The ruins that remain, however, are overshadowed by the dazzle and fun at the dozen casinos and high-rise hotels that dominate the modern beachfront. Once more the seashore is thriving. Rambling homes, the neon lights of motels and family restaurants, and the nets and masts of shrimp boats mark the skyline. For the Mississippi Coast, a historic retreat between New Orleans on the west and Mobile on the east--these are the best of times. This gripping story of the Coast's most devastating storm recounts what happened on a terrifying night more than three decades ago. It reminds, too, what can happen again.

The American Marshall Plan Film Campaign and the Europeans Maria Fritsche, 2018-02-08 The US government launched the European Recovery Programme, otherwise known as the 'Marshall Plan', in order to save war-torn Europe from collapse in 1948. Yet while much is known about the economic side of the Marshall Plan, the extensive film campaign that accompanied it has been largely overlooked until now. *The American Marshall Plan Film Campaign and the Europeans* is the first book to explore the use of the Marshall Plan films and, importantly, their

distribution and reception across Europe. The study examines every available film - the 170 that remain from the 200 estimated to have been made - and looks at how they were designed to instil hope, argue the case for economic restructuring and persuade the Europeans of the superiority of the liberal-capitalist system. The book goes on to reason that the films served as a powerful weapon in the cultural Cold War, but that the European audiences were by no means passive victims of the US propagandist effort. Maria Fritsche discusses the Marshall Plan films in the context of countries across Western, Northern and Southern Europe, covering the majority of the 17 European countries that participated in the Plan in the process. The book incorporates 70 images and utilises a vast number of archival sources to explore the strategies the US adopted to sway the minds of the Europeans, the problems they encountered in the process and, not least, the varied responses of the European audiences. It is a vital study for any scholar or student keen to know more about postwar recovery in Europe, the legacy of the Second World War or America's relationship with Europe in the 20th century.

Government of Peace Ranabir Samaddar, 2016-03-03
Government of Peace addresses a major question in world politics today: how does post-colonial democracy produce a form of governance that copes with conflicts, insurgencies, revolts, and acute dissents? The contributors view social governance as a crucial component in answering this question and their narratives of governance aim to show how certain appropriate governing modes make social conflicts more manageable or at least also occasions for development. They show how government often expands to cope with acute conflicts; money is made more readily available; the transfer of resources acquires frantic pace; and so society becomes more attuned to a money-centric,

modern life. Yet this style of governance is not the only approach. Dialogues from below challenge this accepted path to peacebuilding and new subjectivities emerge from movements for social justice by women, migrants, farmers, dalits, low-caste, and other subaltern groups. The idea of a government of peace sits at the core of the interlinked issues of social governance, peace-building, and security. By exploring this idea and analysing the Indian experience of insurgencies and internal conflicts the contributors collectively show how rules of social governance can and have evolved.

Mapping the Path to Maturity Bipasha Raha, Subhayu Chattopadhyay, 2017-12-22 This book delves into varied aspects of the history of Bengal and North east situated within a time frame of more than a hundred years, from the colonial times to the present. The individual essays deal with ideas, literary texts, politics, gender, industries, culture, health, sports and tribal issues relevant to these regions. Probing health issues in the colonial period the volume also explains the development of the modern coal industry on the one hand and the survival of the traditional potter's craft on the other. The significance of traditional healing practices is dwelt upon as also the question of female health and dissemination of knowledge. The pen-picture of the happenings at the bathing ghat reveals the vibrant rural social life of the times. The modernization of the theatre gives a glimpse into the cultural ethos. The institutionalization of sports is examined. Analysis of contemporary cinema throws light on the perception of a woman's position in society. As the reader travels from Bengal to the North-East, the impact of missionary activities on tribal life is revealed. The tribals' search for identity is explored. The issues of peace, security and the interests of independent India are also dissected. This

volume would be indispensable for scholars of literature, history, film studies, political science and contemporary studies in South Asia. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

The Universe--solved! Jim Elvidge,2007

The Palgrave Handbook of Globalization with Chinese Characteristics Paulo Afonso B. Duarte,Francisco José B. S. Leandro,Enrique Martínez Galán,2023-01-07 This handbook offers readers various perspectives on globalization and multilateralism with Chinese characteristics. Its originality is derived from the hybrid approaches the handbook takes, where chapters provide complementary, intertwined, and multi-level analysis on the topic. Based on contributions of scholars and practitioners from a number of countries, the handbook helps readers to comprehend ongoing debates on the Belt and Road Initiative and global governance, within a shifting balance of world power, characterized by competing views between Western and Chinese norms, standards, values, and narratives. Split into three Parts, and consisting of 46 chapters, the handbook views globalization as comprehensive concept that benefits from the contributions of various disciplines such as geography, geo-economics, political science and international relations. In producing one of the most ambitious and updated outputs on the topic, the handbook as a whole seeks to discuss what globalization with Chinese characteristics looks like, and the role of the Belt and Road Initiative in this process.

Contemporary Issues in The Balkans, Middle East, Asia & Africa Nesrin Kenar,2022-08-22 This book entitled Contemporary Issues in The Balkans, Middle East, Asia & Africa consists of various topics and intends to focus on

contemporary issues in The Balkans, Middle East, Asia & Africa. The content of this book was created on a regional basis because the crises and conflicts in the international arena are mostly experienced between the states in the same region and emerge as a result of the regional balance of power and regional dynamics in the region, which is also called the geographical subsystem.
