*The Kiss of Judice: The Constitution Betrayed* Judge Douglass H. Bartley, 2011-01-05 This work is the first of a multi-volume treatise. In addition to a Prologue, this volume covers the Constitution's Natural Rights Pedigree, its Preamble, and the (very-limited) Federal Legislative Powers and Federal Executive Powers it grants. The volume is styled, *The Kiss of Judice: The Constitution Betrayed—A Coroner's Inquest and Report*. “Judice”, Latin, a pun, means “pertaining to judges”; thus denoting the judicial, Judas-like betrayal of the Constitution. “Coroner's Inquest” denotes that the work is a study into the death of the Constitution. Your author is the Coroner. He proceeds in the Inquest with the aid of his Coroner's Jury: Jefferson, Madison, Hamilton, Story, Locke, and Blackstone. The work, at least in this volume, is a dialogue between the Coroner and his jury on the various parts of the Constitution covered. The jury members answer the Coroner's questions, for the most part in their own words, drawn from a variety of their written works. Occasionally the Coroner puts words in their mouths; those “inventions” are shown in brackets in the jurors' answers. The work is novel, because, to the author's knowledge, it is the only “Constitutional Law” textbook that collects the wisdom of the framers as the Constitution's only authoritative sources; it does not, as most Constitutional Law texts do, emphasize court cases as constitutional authority, for more often than not, the courts have only warped the Constitution. In a broader sense, though, the work is not novel, for it's only an arrangement of the work already done by the jurors. The author is pleased to say that the work, by and large, is not original thought. Its beauty is that it only revives long-forgotten constitutional “discoveries” as set in the words of the main jurors and some others within “interviewed”. **Rules** Lorraine Daston, 2023-08-08 A panoramic history of rules in the Western world Rules order almost every aspect of our lives. They set our work hours, dictate how we drive and set the table, tell us whether to offer an extended hand or cheek in greeting, and organize the rites of life, from birth through death. We may chafe under the rules we have, and yearn for ones we don't, yet no culture could do without them. In *Rules*, historian Lorraine Daston traces their development in the Western tradition and shows how rules have evolved from ancient to modern times. Drawing on a rich trove of examples, including legal treatises, cookbooks, military manuals, traffic regulations, and game handbooks, Daston demonstrates that while the content of rules is dazzlingly diverse, the forms that they take are surprisingly few and long-lived. Daston uncovers three enduring kinds of rules: the algorithms that calculate and measure, the laws that govern, and the models that teach. She vividly illustrates how rules can change—how supple rules stiffen, or vice versa, and how once bothersome regulations become everyday norms. Rules have been devised for almost every imaginable activity and range from meticulous regulations to the laws of nature. Daston probes beneath this variety to investigate when rules work and when they don't, and why some philosophical problems about rules are as ancient as philosophy itself while others are as modern as calculating machines. *Rules* offers a wide-angle view on the history of the constraints that guide us—whether we know it or not.

**Development Role of EU in South Asia** Dr Dhananjay Tripathi, 2011-03-16 Development policy of the European Union (EU) is just not confined to the development assistance programme dedicated purely for philanthropic purposes but has wider dimensions attached to it; It is one of the most imperative instrument of the European foreign policy and determines its relationship with the developing countries. This implies equally to the EU South Asia engagements, which evolved to third generation relationship from simple first generation commercial cooperation agreements. For analysing contemporary linkages of the EU with different South Asian countries, it is crucial to comprehend the role of development policy in South Asia. This book not only focuses on the development policy but also an effort is made to evaluate its relevance, impact and implications. As it is said 'To travel hopefully is a better thing than to arrive and the true success is to labour'. This book is also an outcome of 4/5 years of intense research on

the subject. It will help the students of European studies since there is not enough literature available on the subject. It is a good reader for policy makers dealing with the development policy of the European Union. This book is also useful for South Asians associated with Non-government Organisations (NGOs) and voluntary groups, which are working in collaboration with the European Union.

**An Uneasy Hegemony** Shyamika Jayasundara-Smits, 2022-08-31 Sri Lanka has been regarded as a model democracy among former British colonies. It was lauded for its impressive achievement in terms of human development indicators. However, Sri Lanka's modern history can also be read as a tragic story of inter-ethnic inequalities and tensions, resulting in years of violent conflicts. Two long spells of anti-state youth uprisings were followed by nearly three decades of civil war, and most recently a renewed upsurge of events are examples of the on-going uneasy project of state-building. This book discusses that state-building in Sri Lanka is centred on the struggle for hegemony amidst a kind of politics that rejects individual and group equality, opposes the social integration of marginalised groups and appeals to narrow, fearful and xenophobic tendencies among the majority population and minorities alike. It answers the pressing questions of - How do the dynamics of intra-Sinhalese class relations and Sinhalese politics influence the trajectories of post-colonial state-building? What tensions emerge over time, between Sinhalese hegemony-building and wider state-building? How did these tensions manifest in majority and minority relationships?

*Connected Jews* Simon J. Bronner, Caspar Battegay, 2018-11-13 How Jews use media to connect with one another has consequences for Jewish identity, community, and culture. These essays consider how different media shape actions and project anxieties, conflicts, and emotions, and how Jews and Jewish institutions harness, tolerate, or resist media to create their ethnic and religious social belonging.

Greater Mekong Subregion Atlas of the Environment (2nd Edition) Asian Development Bank, 2012-12-01 The second edition of the Greater Mekong Subregion Atlas of the Environment again champions the environment of this unique part of Asia, an area straddled by rivers great and small, with bountiful watersheds, wetlands, and forests. The Atlas celebrates the peoples of the subregion, and presents the environmental and development challenges they face and their responses. It reminds us that the subregion's peoples and communities are key to maintaining its environment. The Atlas captures in one volume maps, remote-sensing images, and essential information on one of the most culturally, ethnically, and biologically diverse regions in the world. The subregion is made up of Cambodia; Guangxi Zhuang Autonomous Region and Yunnan Province of the People's Republic of China; the Lao People's Democratic Republic; Myanmar; Thailand; and Vietnam

1968 Mark Kurlansky, 2005-01-11 NATIONAL BESTSELLER • “In this highly opinionated and highly readable history, Kurlansky makes a case for why 1968 has lasting relevance in the United States and around the world.”—Dan Rather To some, 1968 was the year of sex, drugs, and rock and roll. Yet it was also the year of the Martin Luther King, Jr., and Bobby Kennedy assassinations; the riots at the Democratic National Convention in Chicago; Prague Spring; the antiwar movement and the Tet Offensive; Black Power; the generation gap; avant-garde theater; the upsurge of the women’s movement; and the beginning of the end for the Soviet Union. In this monumental book, Mark Kurlansky brings to teeming life the cultural and political history of that pivotal year, when television’s influence on global events first became apparent, and spontaneous uprisings occurred simultaneously around the world. Encompassing the diverse realms of youth and music, politics and war, economics and the media, 1968 shows how twelve volatile months transformed who we were as a people—and led us to where we are today.

*Folk Culture in the Digital Age* Trevor J. Blank, 2012-11-16 Smart phones, tablets, Facebook, Twitter, and wireless Internet connections are the latest technologies to have become entrenched in our culture. Although traditionalists have argued that computer-mediated communication and cyberspace are incongruent with the study of folklore, Trevor J. Blank sees the digital world as fully capable of generating, transmitting, performing, and archiving vernacular culture. Folklore in the Digital Age documents the emergent cultural scenes and expressive folkloric communications made possible by digital “new media” technologies. New media is changing the ways in which people learn, share, participate, and engage with others as they adopt technologies to complement and supplement traditional means of vernacular expression. But behavioral and structural overlap in many folkloric forms exists between on- and offline, and emerging patterns in digital rhetoric mimic the dynamics of previously documented folkloric forms, invoking familiar social or behavior customs, linguistic inflections, and symbolic gestures. Folklore in the Digital Age provides insights and perspectives on the myriad ways in which folk culture manifests in the digital age and contributes to our greater understanding of vernacular expression in our ever-changing technological world.

*Antitrust between EU law and national law / Antitrust fra diritto nazionale e diritto dell'Unione Europea* Enrico Adriano Raffaelli, 2013-02-22 This work contains the papers of the Tenth Conference on “Antitrust between EU Law and national law”, held in Treviso on May 17 and 18, 2012 under the patronage of the European Lawyers Union - Union des Avocats Européens (UAE), the Associazione Italiana per la Tutela della Concorrenza - the Italian section of the Ligue Internationale du Droit de la Concurrence (LIDC)-, the Associazione Italiana Giuristi di Impresa (AIGI), the European Company Lawyers Association (ECLA), and the Associazione Antitrust Italiana (AAI). Some of the papers have been extensively reviewed and updated by the authors prior to publication. Contributions contained in this volume are the result of an in-depth analysis and study of the most salient issues arising from the application of antitrust rules, carried out by experienced and high-ranking professionals, company lawyers, academics and EU/national institutional representatives who attended the Conference. They deal with extremely topical issues, lying at the heart of current antitrust debate. Some of the most contemporary topics include those relative to the large-scale distribution sector and the control of concentrations at both national and European level. Ample consideration is also given to salient antitrust issues encountered in undertakings’ day-to-day business life, as well as to the future of antitrust in the global economy, also in the light of the new powers recently attributed to the Italian Antitrust Authority to challenge administrative acts. This volume also includes some precious insights on the assessment and quantification of damages in antitrust infringements, from both an economic and legal perspective, as well as reflections on the role of judges in the application of antitrust law, also following the principles set forth by the European Court of Human Rights in the well-known Menarini case.

**Finding What Works in Health Care** Institute of Medicine, Board on Health Care Services, Committee on Standards for Systematic Reviews of Comparative Effectiveness Research, 2011-07-20 Healthcare decision makers in search of reliable information that compares health interventions increasingly turn to systematic reviews for the best summary of the evidence. Systematic reviews identify, select, assess, and synthesize the findings of similar but separate studies, and can help clarify what is known and not known about the potential benefits and harms of drugs, devices, and other healthcare services. Systematic reviews can be helpful for clinicians who want to integrate research findings into their daily practices, for patients to make well-informed choices about their own care, for professional medical societies and other organizations that develop clinical practice guidelines. Too often systematic reviews are of uncertain or poor quality. There are no universally accepted standards for developing systematic reviews leading to variability in how conflicts of interest and biases are handled, how evidence is appraised, and the overall scientific rigor of the process. In *Finding What Works in Health Care* the Institute of Medicine (IOM) recommends 21 standards for developing high-quality systematic reviews of comparative effectiveness research. The standards address the entire systematic review process from the initial steps of formulating the topic and building the review team to producing a detailed final report that synthesizes what the evidence shows and where knowledge gaps remain. *Finding What Works in Health Care* also proposes a framework for improving the quality of the science underpinning systematic reviews. This book will serve as a vital resource for both sponsors and producers of systematic reviews of comparative effectiveness research.

**Surviving the Applewhites** Stephanie S. Tolan, 2012-04-24 The side-splittingly funny Newbery Honor Book about a rebellious boy who is sent to a home-schooling program run by one family—the creative, kooky, loud, and loving Applewhites! Jake Semple is notorious. Rumor has it he managed to get kicked out of every school in Rhode Island, and actually burned the last one down to the ground. Only one place will take him now, and that's a home school run by the Applewhites, a chaotic and hilarious family of artists: poet Lucille, theater director Randolph, dancer Cordelia, and dreamy Destiny. The only one who doesn't fit the Applewhite mold is E.D.—a smart, sensible girl who immediately clashes with the defiant Jake. Jake thinks surviving this new school will be a breeze . . . but is he really as tough or as bad as he seems?
