Communication and Popularization of Science and Technology in China

Fujun Ren, Jiequan Zhai, 2013-11-12 This book aims to be a reference for researchers studying the promotion of scientific literacy in China, as well as a guide for those interested in promoting scientific awareness. It covers advances in science and technology, communication and popularization practice, and research (STCP) both in China and abroad. Theoretical issues are discussed, and important problems in promoting scientific and technological awareness are identified (e.g.: basic principles, structures, channels of communication and current needs) This book provides a summary of the advances in STCP in China in recent years (especially after the issuing of the "National Scientific Literacy Outline") including STCP resource and capacity building, science popularization policies, practitioner development, infrastructure construction, and the development of the science popularization industry as a whole. At the same time, this book also reviews the design, organization, monitoring and evaluation of science and technology communication and popularization programs. It also highlights current STCP trends and developments in China and calls for a greater emphasis to be placed on research into promoting scientific literacy. It is hoped that this book will be useful to readers both in China and abroad by familiarizing them with the history and theory of STCP as well as its development over time. The 1st chapter briefly reviews the history of STCP. The 2nd through 5th chapters discuss the conceptual framework, basic structure, methods of communication, and current STCP needs. The 6th chapter introduces the principle content of programs aimed at improving Chinese citizens' scientific literacy, while the 7th and 8th chapters analyze the resources, capacities and conditions that have been developed for STCP in China. The 9th chapter investigates the organization, monitoring and evaluation of science popularization practices, and the final chapter

summarizes important STCP topics and trends in contemporary China.

The Gospel, Freedom, and the Sacraments Barry Charles Newman, 2016-01-07 To be baptized, particularly as an adult, indicating a radical change from the self-directed life to the life to be lived under the lordship of Jesus Christ, must be one of the most dramatic experiences available to us. To take part in the Lord's Supper--remembering his death for us--must be one of the most moving services in which we could ever participate. But are these ceremonies obligatory for the believer? Did Jesus explicitly or implicitly make them mandatory? Does it not seem somewhat strange that the gospel, by which we are freed from the Law of Moses, demands that we abide by two new ceremonial laws? However greatly they differed from one another, did the reformers go far enough in examining the Scriptures to see what they did indeed say about such ceremonies? Have we written back into our understanding of Scripture that so much underlies our present beliefs and practices? Does an examination of what the early fathers thought help or hinder us in our search for the truth?

The Papacy: Revisiting the Debate Between Catholics and Orthodox Erick Ybarra, 2022-11-22 The Lord Jesus Christ intended his kingdom present on earth, the Church of God, to be one, holy, catholic, and apostolic. Prior to the Protestant Reformation in the sixteenth century, history tells of the most egregious division in the Church between the Latin West and Byzantine East in AD 1054 and following. How can it be that Catholics and Orthodox share a thousand years of ecclesial life together in one faith, sacramental order, and hierarchical government, only to have that bond of communion broken? Historians and theologians throughout the years have spilled much ink in recounting the causes and effects of this dreadful and heart-wrenching division, and among the many debates that exist between Catholics and Orthodox, none are as vital to the task of reconciliation as the

subject of the papacy. In *The Papacy: Revisiting the Debate between Catholics and Orthodox*, Erick Ybarra examines sources from the first millennium with a fresh look at how methodology and hermeneutics plays a role in the reading of the same texts. In addition, he conducts a detailed investigation into the most significant points of history in order to show what was clearly accepted by both East and West in their years of ecclesiastical unity. In light of this clear evidence, the reader of *The Papacy* is free to decide whether contemporary Catholicism or Eastern Orthodoxy has maintained the heritage of the first millennium on the understanding of the Papal office.

Networks and the Spread of Ideas in the Past Anna Collar, 2022-05-30 *Networks and the Spread of Ideas in the Past: Strong Ties, Innovation and Knowledge Exchange* gathers contributions from an international group of scholars to reconsider the role that strong social ties play in the transmission of new ideas, and their crucial place in network analyses of the past. Drawing on case studies that range from the early Iron Age Mediterranean to medieval Britain, the contributing authors showcase the importance of looking at strong social ties in the transmission of complex information, which requires relationships structured through mutual trust, memory, and reciprocity. They highlight the importance of sanctuaries in the process of information transmission, the power of narrative in creating a sense of community even across geographical space, and the control of social systems in order to facilitate or stifle new information transfer. *Networks and the Spread of Ideas in the Past* demonstrates the value of searching the past for powerful social connections, offers us the chance to tell more human stories through our analyses, and represents an essential new addition to the study and use of networks in archaeology and history. The book will be useful to academics and students working in the Digital Humanities, History, and Archaeology.

Successful Careers beyond the Lab David J.

Bennett, Richard C. Jennings, 2017-06-15 This book provides first-hand accounts of the many career opportunities open to graduates and postgraduates in the sciences and engineering beyond academic research.

Communication and Engagement with Science and Technology John K. Gilbert, Sue Stocklmayer, 2013 This text provides an overview of the burgeoning field of science and technology communication—the issues with which it deals, what is known about it, and the challenges that it faces.

Mellencamp David Masciotra, 2022-05-31 John Mellencamp's numerous hits, awards, and recognitions—including his induction into the Rock and Roll Hall of Fame and the Songwriters Hall of Fame—puts him in such celebrated company as Bruce Springsteen, Neil Young, and Bob Dylan. In *Mellencamp*, David Masciotra explores the life and career of this important talent, persuasively arguing for his space among the most distinguished songwriters of our time. Beginning with Mellencamp's modest start in Seymour, Indiana, Masciotra details the artist's road to fame, examines his struggles with the music industry, and celebrates the success he found by remaining true to his midwestern roots. With themes that range from small-town life, race, and religion to poverty and the struggles of adulthood, Mellencamp's songs remain central to the social and historical context of contemporary America. Acting as an artistic archivist, he has never forgotten the hardships faced by workers and Black Americans, and in line with his tributes to 1960s rock and Americana folk, he tells a story his audience and his country need to hear. From a cultural critic whose work has also appeared in the *Washington Post*, *Atlantic*, and *Los Angeles Review of Books*, this thoughtful analysis—now with a new foreword describing the author's interview with Mellencamp at his private recording studio in Nashville, Indiana—highlights four decades of the artist's music, showing how it has consistently elevated the dignity of everyday people, and spanned the genres of folk, soul,

and rock and roll to amplify the struggle of democracy.

The Advancement of Apologetics in the Early Centuries

Roderick L. Evans, In this third book of the logos apologetics series, we will examine the early advancements of apologetics. A brief overview and analysis will be given of the councils and emerging doctrines contrary to Christian orthodoxy. It is our prayer that this information will strengthen the modern apologist.

The Antiquity of Apologetics Roderick L. Evans, 1901 In this first book of the logos apologetics series, we will trace the earliest manifestations of apologetics. We will examine the biblical record of apologetic expressions and emanations from the Garden throughout Jewish history. In addition, the development of apologetic groups within the Jewish community will be explicated. Moreover, apologetic personalities will be explored. It is our hope that the information presented will help the modern apologist operate in this ministry with a proper understanding and foundation.

The Demonstration of Modern Apologetics Roderick L. Evans, In this fourth book of the logos apologetics series, we will examine the practical demonstrations of apologetics in 21st Century Christian church. We will examine the functions which characterize the apologetic ministry and discipline. In addition, we will address, in brief, modern day doctrines which oppose traditional Christian orthodoxy.

Creating Connections David Chittenden, Graham Farmelo, Bruce V. Lewenstein, 2004-05-17 Science museums are in the business of making science accessible to the public—a public constantly bombarded with new information and research results. How the public understands this information will affect what they expect and take away from a museum's exhibits and programs. *Creating Connections* looks at the public understanding of research (PUR) and how it affects what science museums do. What are the opportunities and critical issues in PUR? What strategies are working and what are some pitfalls? What can be

learned from the media's experiences with PUR? Creating Connections will be an invaluable resource for science museum professionals who want to guide their institutions and their visitors toward a new understanding of and appreciation for current research.

Evidence-Based Resource in Anaesthesia and Analgesia

Martin Tramèr, 2008-04-15 This work discusses the methodology and available evidence from systematic reviews on the current best practice in anaesthesia and analgesia. The first edition is built upon in this thoroughly revised and updated text. Contributions are from acknowledged world authorities on systematic review in the specialty. The free access website continues to provide added detail on the literature.

Chinese Revolution in Practice Guo Wu, 2023-10-24

This book employs multiple case studies to explore how the Chinese communist revolution began as an ideology-oriented intellectual movement aimed at improving society before China's transformation into a state that suppresses dissenting voices by outsourcing its power of coercion and incarceration. The author examines the movement's methods of early self-organization, grass-roots level engagement, creation of new modes of expression and popular art forms, manipulation of collective memory, and invention of innovative ways of mass incarceration. Covering developments from 1920 to 1970, the book considers a wide range of Chinese individuals and groups, from early Marxists to political prisoners in the PRC, to illustrate a dynamic, interactive process in which the state and individuals contend with each other. It argues that revolutionary practices in modern China have created a regime that can be conceptualized as an "ideology-military-propaganda" state that prompts further reflection on the relationships between revolution and the state, the state and collective articulation and memory, and the state and reflective individuals in a global context. Illustrating the continuity of the Chinese revolution and past decades' socialist

practices and mechanisms, this study is an ideal resource for scholars of Chinese history, politics, and twentieth-century revolutions.

Evidence-based Handbook of Neonatology William Oh, 2011 The aim of this book is to provide evidence-based information in the management of high risk newborn infants. The book is not meant to be a comprehensive textbook of Neonatology. It is a handbook that will provide useful and practical information for the clinician who manages the sick newborn infants. Sick newborn infants represent a very high risk population that carries high mortality and morbidity. Neonatal Intensive Care Units around the world have been built and staffed to take care of these sick newborns. Although many of the treatment modalities to improve their outcomes are based on solid data derived from basic science and clinical research, some are not and are simply based on anecdotal experience and clinicians' intuition and belief. This publication will elaborate and affirm the management strategies that are based on solid scientific evidence and discuss those that are not. The information will assist neonatologists and pediatricians in providing the best management options for various illnesses that affect this vulnerable population.

The Ghostwriters Tommaso Pavone, 2022-04-07 The European Union is often depicted as a cradle of judicial activism and a polity built by courts. Tommaso Pavone shows how this judge-centric narrative conceals a crucial arena for political action. Beneath the radar, Europe's political development unfolded as a struggle between judges who resisted European law and lawyers who pushed them to embrace change. Under the sheepskin of rights-conscious litigants and activist courts, these "Euro-lawyers" sought clients willing to break state laws conflicting with European law, lobbied national judges to uphold European rules, and propelled them to submit noncompliance cases to the European Union's supreme court – the European Court of Justice

- by ghostwriting their referrals. By shadowing lawyers who encourage deliberate law-breaking and mobilize courts against their own governments, *The Ghostwriters* overturns the conventional wisdom regarding the judicial construction of Europe and illuminates how the politics of lawyers can profoundly impact institutional change and transnational governance.

Postmissionary Messianic Judaism Mark S. Kinzer, 2005-11-01
In recent years, a new form of Messianic Judaism has emerged that has the potential to serve as a bridge between Jews and Christians. Giving voice to this movement, Mark Kinzer makes a case for nonsupersessionist Christianity. He argues that the election of Israel is irrevocable, that Messianic Jews should honor the covenantal obligations of Israel, and that rabbinic Judaism should be viewed as a movement employed by God to preserve the distinctive calling of the Jewish people. Though this book will be of interest to Jewish readers, it is written primarily for Christians who recognize the need for a constructive relationship to the Jewish people that neither denies the role of Jesus the Messiah nor diminishes the importance of God's covenant with the Jews.

Sugar and Spice and No Longer Nice Deborah Prothrow-Stith, Howard R. Spivak, 2005-05-06
Sugar and Spice and No Longer Nice is a groundbreaking book that offers parents and teachers a primer for understanding and preventing the increasing incidents of physical violence--hazing, brutality, fighting, weapons, murder--by young girls. Written by Drs. Deborah Prothrow-Stith and Howard R. Spivak—the renowned Harvard- and Tufts-based experts on preventing youth violence—this important book offers a plan to help our daughters become strong, confident, powerful, and independent young women without being violent.

The Future of Nursing Institute of Medicine, Committee on the Robert Wood Johnson Foundation Initiative on the Future of Nursing, at the Institute of Medicine, 2011-02-08 The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles-including limits on nurses' scope of practice-should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.
