Paul D. Wolfowitz Lewis D. Solomon,2007-05-30 With the announcement of his resignation from the World Bank, the ongoing saga of Paul Wolfowitz, played out in the front pages of the world's newspapers, came to a dramatic conclusion. Paul D. Wolfowitz, as columnist George F. Will wrote in the Washington Post (May 12, 2005), has never been elected to office or served in a president's cabinet, but he has mattered much more than most who have. A longtime State Department hand (Assistant Secretary of State for East Asian and Pacific Affairs, Ambassador to Indonesia), a leading scholar/intellectual (Dean of the Johns Hopkins School of Advanced International Studies), Deputy Secretary of Defense for four years, and one of the architects of the Bush Doctrine, Wolfowitz is a crucial figure in post-Cold War foreign and security policy. He most recently served as President of the World Bank. In each of these roles, he has stood out for his neoconservative and often uncompromising positions. It is no wonder that he is often vilified by the Left and lionized by the Right. In this first full-length biography of Wolfowitz, Solomon attempts to capture him not by delineating the quotidian details of his career, but by tracing his intellectual development and bureaucratic influence at key points along the road to Baghdad and beyond.

Essentials of Chinese Humanism Xiaoyue Xu,2023-05-10 Professor Xu Xiaoyue, a top-notch scholar specializing in ancient Chinese philosophies and religions, displays essential constituents of Chinese humanism before readers. According to him, key concepts such as Confucian ten virtues, Daoist Way and Buddhist metaphysical voidness play quite a significant role in shaping the Chinese humanism, which not only is historically indispensable to the creation of traditional Chinese culture but it also realistically matters to present-day China's cultural reconstruction in the world that is being remolded by the roots.

Jamil Jamil Kazoun,2018-03-20 The spirit world is practically totally unknown to most. Its secrets are usually not accessible or available. This book offers a window and a big door into this world, giving details not found, so that earth and heaven can connect to each other in a transparent way. We will communicate with them as we do with each other. For those suffering from this world, such as what is labeled schizophrenics, those who hear voices internally in their head, or see images or spirits, or feel strange sensations in their body or on it, this book has much to explain and to help those people, to understand their situation. The book talks about future computers and robots built based on advanced non-solid state electromagnetic structures. And how these robots can travel to the moon and planets in seconds and minutes instead of years. It also talks about essential living on earth, and how to do it well. It includes a brief biography of the author, especially as it relates to the spirit world.

Sir Bone Funk Eddie Tebbe,2020-02-24 A fixture on the New Orleans music scene for years, native son Eddie Tebbe has attended multiple concerts a night, composed lyrics picked up and recorded by the likes of George Porter and Paul Sanchez, and made friends with anyone and everyone in the popular clubs. He has, as he says, felt the funk in his bones. Music is Eddie's way to cope with the triple whammy life has dealt him: born with cerebral palsy, developed epilepsy as the result of a fall at age 9, and gradually consumed from his thirties on by Huntington's disease. Yet he remains friendly, funny and outrageous as he flashes his famous smile. Now at age 50, Eddie is no longer able to write or to stay out late, instead offering the short stories, a play and his poetry he's written through the years to his many loyal friends in this inspiring collection. Local writer Colman DeKay puts it well: Eddie writes with simplicity, urgency and honesty about the town that he loves. He's the real deal - a New Orleanian who, despite personal setbacks, grabs the city in a gigantic life-affirming hug. He played the guitar like a God I couldn't keep my eyes off him For the first time I didn't feel odd That was when I picked up a guitar And
