European Integration J. Ørstrøm Møller, 2008 Provides a guide to current EU institutions, practices, and policies, with an overview of the achievements of European integration and the challenges that currently face the European Union.

Political Economy in a Globalized World Joergen Oerstroem Moeller, 2009 The recent global financial crisis illustrates how fragile economic globalization is and how vulnerable all global citizens are to economic events outside their own country. Indeed, global economics is more important for national economic growth than domestic policies. Globalization and change interact and shape the economic environment for citizens and enterprises. These essays represent observations made over a ten-year period which attempt to analyze what is happening, why it happened and the impact on global and national economic growth. Readers may not find solutions or answers to all the perplexing events in the world, but they will gain a better understanding of how global politics and economics work, and in some cases, how they should but actually do not work.

Global Power Europe – Vol. 2 Astrid Boening, Jan-Frederik Kremer, Aukje van Loon, 2013-03-27 This two-volume project provides a multi-sectoral perspective over the EU's external projections from traditional as well as critical theoretical and institutional perspectives, and is supported by numerous case studies covering the whole extent of the EU's external relations. The aim is to strive to present new approaches as well as detailed background studies in analyzing the EU as a global actor. Volume 1: The first volume "Theoretical and Institutional Approaches to the EU's External Relations" addresses the EU's overall external post-Lisbon Treaty presence both globally and regionally (e.g. in its neighborhood), with a special emphasis on the EU's institutional framework. It also offers fresh and innovative theoretical approaches to understanding the EU's international position. – With a preface by Alvaro de Vasoncelos (former Director European Union Institute for Security Studies) Volume 2: The second volume "Policies, Actions and Influence of the EU's External Relations", examines in both quantitative and qualitative contributions the EU's international efficacy from a political, economic and social perspective based on a plethora of its engagements.

EU-ASEAN Relations in the 21st Century D. Novotny, C. Portela, 2012-10-17 Escaping the economic and security-centered approaches, prevalent in contemporary U.S. debate the contributors explore political relations between the European Union (EU) and Association of Southeast Asian Nations (ASEAN). Their inter-disciplinary perspectives touch on domains such as security, comparative integration, human rights, energy.

**Esther** Lynn Cowell, Amy Carroll, 2022-07-12 What do you do when God seems to have vanished? When you have a decision to make, when your stability is shaken, when your sure-fire plan fails—when everything is spinning out of control... Esther is the perfect partner for seeing our invisible God in uncertainty. Though she lived centuries ago, Esther speaks to us when we run into limited control and resources. We find in her a strength and fortitude you and I need today. A strength we discover as we follow her process of listen, feel, do, and speak. We'll see that Esther carved a pathway, not only with faith but with influence, for all women who find themselves walking through uncertainty. This six-week, in-depth study of the book of Esther is a gritty dive into a woman's story that teaches us to: Listen to wise people who fill our gaps of understanding Embrace your feelings as a catalyst for God-directed action. **Insurance and Human Rights** Margarida Lima Rego, Birgit Kuschke, 2022-02-15 This volume examines the impact of and interplay between human rights and insurance. National, supranational and international legal instruments regulating the taking-up and pursuit of the business of insurance and reinsurance, (re)insurance distribution and the insurance contract often refer to or impact on human or fundamental rights. Courts are often faced with the sometimes seemingly impossible task of reconciling insurance core principles, practices and mind-sets with the principles and values stemming from human rights protection. In some cases, such as that of discrimination in insurance, this discussion has been going on for decades. Some deal with hot topics which have more recently emerged in light of developments stemming from technologic innovations ('InsurTech'). The first part of the book

focuses on insurance and the right to equal treatment. Discrimination on the basis of factors such as gender or age is tackled, from the perspectives of the European Union, Canada and South Africa. The second part of the book highlights the very relevant role played by insurance in the upholding of the right to health, covering the United States of America, Africa and Brazil. The third part of the book explores InsurTech's manifold challenges upon the right to privacy, focusing on European Union. The fourth part tackles the threat posed by insurance on the right to life in general, but with a particular focus on the United Kingdom. Written by legal scholars and practitioners, the book offers international, comparative and regional or national perspectives, aiming to contribute to a more thorough and systematic understanding of the interactions between these two very different fields of law, providing the industry as well as the scientific community with insights from both sides of this seemingly difficult to transpose divide.

Advancing the Story Debora Halpern Wenger, Deborah Potter, 2014-08-06 "An eminently useful text for television and Web journalism. No other text does such thorough job of integrating new media into traditional TV reporting. The authors' blog is a great way to keep updated and introduce current material into the class, and the online interactive workbook has some truly inventive exercises." – Michael Cremedas, Syracuse University This fully updated Third Edition of *Advancing the Story*, by Debora Halpern Wenger and Deborah Potter, builds on the essential strengths of the original text by providing clear instruction on reporting and producing for multiple platforms, real-world examples, advice from professional journalists and exercises to stimulate additional conversations. By focusing on the skills journalists need to leverage social media and capitalize on the use of mobile devices, the authors explore the role data-driven journalism is playing in the profession. Throughout the book, new screen shots, images, research and examples of broadcast and multimedia reporting bring concepts to life. Additionally, a greater emphasis on journalism ethics permeates the book, with each chapter now including a series of discussion starters to ensure that students consider the ethical implications of their journalistic decisions.

The Rise and Fall of Interregionalism in EU External Relations Alan Hardacre, 2009 International Relations Studies Series, 9 (International Studies Library, 20) The proliferation of regionalism in recent decades has led to increased relations between regional groups in different parts of the world, and the European Union (EU) has been central to the development of this new interregional phenomenon. This book sets out to analyse the rise and fall of interregionalism in EU external relations by looking at how the EU has strategically pursued interregionalism over time, and at how this has subsequently worked in practice. The EU, in the 1990s, strategically employed interregionalism in Africa, Asia and Latin America and this book takes the specific case of Latin America to chart the course of EU interregionalism. Table of Contents Introduction: The Rise and Fall of Interregionalism: The Case of the European Union and Latin America Chapter 1: Interregionalism in the Global Political Economy Chapter 2: The European Union And Interregionalism Chapter 3: The European Union Complex Interregional Model In Latin America Chapter 4: European Union – Mercosur Relations: The Seeds Of The Fall Of Interregionalism Conclusions: The Rise and Fall of Interregionalism in EU External Relations Bibliography 1. Primary Sources 2. Interviews 3. Secondary Sources Appendices This volume makes a significant contribution to our understanding of the ways in which the European Union engages with other regions in the global arena. Its original framework, based on the analysis of 'complex inter-regionalism', provides a strong focus for evaluation of the multi-level processes that have emerged from the EU's pursuit of regional partnerships, and its detailed empirical study of EU relations with Latin America is a model of the ways in which such work should be carried out. The book will be useful not only to academics and students working in this area, but also to policy-makers in a variety of contexts. Mike Smith at the University of Loughborough About the Author(s)/Editor(s) Alan Hardacre Ph.D. in International Relations, Loughborough University is a Lecturer at the European Institute of Public Administration in Maastricht, the Netherlands. He has published in the areas of EU External Relations, Better Regulation and Lobbying in the EU.

Rising Above the Gathering Storm, Revisited Institute of Medicine, National Academy of Engineering, National Academy of Sciences, 2005 "Rising Above the Gathering Storm" Committee, 2010-10-23 In the face of so many daunting near-term challenges, U.S. government and industry are letting the crucial strategic issues of U.S. competitiveness slip below the surface. Five years ago, the National Academies prepared *Rising Above the Gathering Storm*, a book that cautioned: Without a renewed effort to bolster the foundations of our competitiveness, we can expect to lose our privileged position. Since that time we find ourselves in a country where much has changed—and a great deal has not changed. So where does America stand relative to its position of five years ago when the *Gathering Storm* book was prepared? The unanimous view of the authors is that our nation's outlook has worsened. The present volume, *Rising Above the Gathering Storm, Revisited*, explores the tipping point America now faces. Addressing America's competitiveness challenge will require many years if not decades; however, the requisite federal funding of much of that effort is about to terminate. *Rising Above the Gathering Storm, Revisited* provides a snapshot of the work of the government and the private sector in the past five years, analyzing how the original recommendations have or have not been acted upon, what consequences this may have on future competitiveness, and priorities going forward. In addition, readers will find a series of thought- and discussion-provoking factoids—many of them alarming—about the state of science and innovation in America. *Rising Above the Gathering Storm, Revisited* is a wake-up call. To reverse the foreboding outlook will require a sustained commitment by both individual citizens and government officials—at all levels. This book, together with the original *Gathering Storm* volume, provides the roadmap to meet that goal. While this book is essential for policy makers, anyone concerned with the future of innovation, competitiveness, and the standard of living in the United States will find this book an ideal tool for engaging their government representatives, peers, and community about this momentous issue.

**Hegemony and Resistance Around the Iranian Nuclear Programme** Moritz Pieper, 2017-04-21 This book is the first to provide comprehensive and comparative analyses to conceptualise the interaction between 'hegemonic structures' and those actors resisting them using the Iranian nuclear case as an illustration. It analyses the foreign policies of China, Russia and Turkey towards the Iranian nuclear programme and thereby answers the question to what extent these policies are indicative of a security culture that resists hegemony. Based on 70 elite interviews with experts and decision-makers closely involved with the Iranian nuclear file, it analyses resistance to hegemony across its ideational, material and institutional framework conditions. The cases examined show how 'compliance' on the part of China, Russia and Turkey with parts of US approaches to the Iranian nuclear conflict has been selective, and how US policy preferences in the Iran dossier have been resisted on other occasions. As such, the Iran nuclear case serves as an illustration to shed light on the contemporaneous interaction of the forces of consent and coercion in international politics.
