Investor Protection and Corporate Governance Alberto Chong,Florencio Lopez de

Silanes,2007-06-26 'Investor Protection and Corporate Governance' analyzes the impact of corporate governance on firm performance and valuation. Using unique datasets gathered at the firm-level the first such data in the region and results from a homogeneous corporate governance questionnaire, the book examines corporate governance characteristics, ownership structures, dividend policies, and performance measures. The book's analysis reveals the very high levels of ownership and voting rights concentrations and monolithic governance structures in the largest samples of Latin American companies up to now, and new data emphasize the importance of specific characteristics of the investor protection regimes in several Latin American countries. By and large, those firms with better governance measures across several dimensions are granted higher valuations and thus lower cost of capital. This title will be useful to researchers, policy makers, government officials, and other professionals involved in corporate governance, economic policy, and business finance, law, and management.

The Sustainable Chef Stefan Gössling, C. Michael Hall, 2021-12-09 This book provides the first systematic and accessible text for students of hospitality and the culinary arts that directly addresses how more sustainable restaurants and commercial food services can be achieved. Food systems receive growing attention because they link various sustainability dimensions. Restaurants are at the heart of these developments, and their decisions to purchase regional foods, or to prepare menus that are healthier and less environmentally problematic, have great influence on food production processes. This book is systematically designed around understanding the inputs and outputs of the commercial kitchen as well as what happens in the restaurant from the perspective of operators, staff and the consumer. The book considers different management approaches and further looks at the role of restaurants, chefs and staff in the wider community and the positive contributions that commercial kitchens can make to promoting sustainable food ways. Case studies from all over the world illustrate the tools and techniques helping to meet environmental and economic bottom lines. This will be essential reading for all students of hospitality and the culinary arts.

The Handbook on Innovations in Learning Marilyn Murphy, Sam Redding, Janet Twyman, 2014-03-01 An innovation in learning improves upon the implementation of the standard practice or introduces a new practice, thus achieving greater learning outcomes. The Handbook on Innovations in Learning, developed by the Center on Innovations in Learning, presents commissioned chapters describing current best practices of instruction before embarking on descriptions of selected innovative practices which promise better methods of engaging and teaching students. Written by a diverse and talented field of experts, chapters in the Handbook seek to facilitate the adoption of the innovative practices they describe by suggesting implementation policies and procedures to leaders of state and local education agencies.

Cleaning Pakistan's Air Ernesto Sánchez-Triana, Santiago Enriquez, Javaid Afzal, Akiko Nakagawa, Asif Shuja Khan, 2014-07-03 The harm to Pakistanis' health, economy, and environment from urban air pollution is among the highest in South Asia, exceeding several high-profile causes of mortality and morbidity in Pakistan. This report details a broad spectrum of research on Pakistan's air quality management challenges and presents concrete steps to achieve improvements.

The Space Race Deborah Cadbury, 2005 From the author of 'The Seven Wonders of the Industrial World' comes the shocking but true story behind the space race -- and the ruthless, brilliant

scientists who fuelled it.

Practice Makes Perfect Charlene Groome, 2015-08-18 She's in the front office. He's a star player. It's a match-up guaranteed to melt the ice... Left winger Jared Landry is one of the (gorgeous) faces of Vancouver's Warriors hockey team—except he's not comfortable in the spotlight. He gets that charity events are important to the community, he just wants to contribute in his own way. Face-time with the fans puts him in a vulnerable position, bringing up past memories—and present complications. But a certain fiery newcomer won't take no for an answer... Meghan O'Riley is the Warriors' new events coordinator, and she wants everyone on board—including Jared. Meghan knows he has a history of flaking out on important occasions, and she has no patience for his devil-may-care attitude. But Meghan will have to hone her rookie flirting skills to get the star to commit to the team—and maybe even to her...

The Atmosphere and Climate of Mars Robert M. Haberle, R. Todd Clancy, François Forget, Michael D. Smith, Richard W. Zurek, 2017-06-29 Humanity has long been fascinated by the planet Mars. Was its climate ever conducive to life? What is the atmosphere like today and why did it change so dramatically over time? Eleven spacecraft have successfully flown to Mars since the Viking mission of the 1970s and early 1980s. These orbiters, landers and rovers have generated vast amounts of data that now span a Martian decade (roughly eighteen years). This new volume brings together the many new ideas about the atmosphere and climate system that have emerged, including the complex interplay of the volatile and dust cycles, the atmosphere-surface interactions that connect them over time, and the diversity of the planet's environment and its complex history.

Including tutorials and explanations of complicated ideas, students, researchers and non-specialists alike are able to use this resource to gain a thorough and up-to-date understanding of this most Earth-like of planetary neighbours.

Motivation, Leadership and Curriculum Design Caroline Koh, 2015-01-06 This book discusses the links between the basis of motivational, leadership and curricular constructs with regards to 21st century and net-generation learning. It brings together recent developments in motivation, educational leadership and curriculum design in order to offer a better understanding of what is already known and what is yet to be explored in these fields. It consists of a collection of findings on recent educational developments, including topics such as motivating the 21st century learner, leadership practices and influences, curriculum design and models, novel learning environments and 21st century learners and their needs.

Audiology in Developing Countries Bradley McPherson, Ron Brouillette, 2008 This book addresses the issue of challenges in audiology for developing countries. It gives the professional reader a clear overview of the specific challenges involved in hearing health care in developing nations and the ways in which these challenges can be met. Another of the key hearing health care advances of the past twenty years has been the introduction of universal systems for new-born hearing screening. Such programs are proliferating all over the developed world; but are those in the developing world any less needy? What is happening there? Of course, one of the most significant advances of the last twenty years is the growth, expansion and recognition of the profession of audiology all over the world. With that change came an appreciation for the significant contribution audiology makes to improving hearing health care. This book will have an impact on the lives of many disabled individuals.

Portable Shell Programming Bruce Blinn,1996 One element that the Korn shell does not contain is portability. Bruce Blinn focuses on shells that are portable, known as Bourne Shells. This practical book treats the shell like a programming language. Lists over 250 major shell examples.

Functional Food and Human Health Vibha Rani,Umesh C. S. Yadav,2018-10-12 Global health and the increasing incidence of various diseases are a cause for concern, and doctors and scientists reason that the diet, food habits and lifestyle are contributing factors. Processed food has reduced the nutritional value of our diet, and although supplementing foods with various additives is considered an alternative, the long-term impact of this is not known. Many laboratories around the world are working to identify various nutritional components in our daily food and their effect on human health. These have been classified as Nutraceuticals or functional food, and they may have preventive and therapeutic effects in a number of pathologies associated with modern dietary habits and lifestyles. This book addresses various aspects of this issue, revitalizing the discussion and

consolidating the latest research on nutritional and functional food and their effects in in-vitro, in-vivo and human clinical studies.

Global Energy Assessment GEA Writing Team, 2012-08-27 The Global Energy Assessment (GEA) brings together over 300 international researchers to provide an independent, scientifically based, integrated and policy-relevant analysis of current and emerging energy issues and options. It has been peer-reviewed anonymously by an additional 200 international experts. The GEA assesses the major global challenges for sustainable development and their linkages to energy; the technologies and resources available for providing energy services; future energy systems that address the major challenges; and the policies and other measures that are needed to realize transformational change toward sustainable energy futures. The GEA goes beyond existing studies on energy issues by presenting a comprehensive and integrated analysis of energy challenges, opportunities and strategies, for developing, industrialized and emerging economies. This volume is an invaluable resource for energy specialists and technologists in all sectors (academia, industry and government) as well as policymakers, development economists and practitioners in international organizations and national governments.
