Real Education Charles Murray,2009-08-25 The most talked-about education book this semester. —New York Times From the author of *Coming Apart*, and based on a series of controversial Wall Street Journal op-eds, this landmark manifesto gives voice to what everyone knows about talent, ability, and intelligence but no one wants to admit. With four truths as his framework, Charles Murray, the bestselling coauthor of *The Bell Curve*, sweeps away the hypocrisy, wishful thinking, and upside-down priorities that grip America's educational establishment. •Ability varies. Children differ in their ability to learn, but America's educational system does its best to ignore this. •Half of the children are below average. Many children cannot learn more than rudimentary reading and math. Yet decades of policies have required schools to divert resources to unattainable goals. •Too many people are going to college. Only a fraction of students struggling to get a degree can profit from education at the college level. •America's future depends on how we educate the academically gifted. It is time to start thinking about the kind of education needed by the young people who will run the country.

Protecting Pollinators Jodi Helmer,2019-04-18 We should thank a pollinator at every meal. These diminutive creatures fertilize a third of the crops we eat. Yet half of the 200,000 species of pollinators are threatened. Birds, bats, insects, and many other pollinators are disappearing, putting our entire food supply in jeopardy. *Protecting Pollinators* breaks down the latest science on environmental threats and takes readers inside the most promising conservation efforts. Efforts range from cities creating butterfly highways to citizen scientists monitoring migration. Along with inspiring stories of revival and lessons from failed projects, readers will find practical tips to get involved. And they will be reminded of the magic of pollinators--the iconic monarchs, dainty hummingbirds, and homely bats alike who bring food to our tables.

Financially Fearless Alexa von Tobel,2013-12-31 Finally, a financial plan that lets you be YOU, only richer. It's time to throw away all your old notions of what financial advice should look like. Because if you're looking for a book to put you on an austerity savings plan that has you giving up vacations and lattes, you're out of luck. But if you're looking to get your finances in rock-hard shape--in less time than it takes to finish a workout--then Alexa von Tobel, Founder and CEO of LearnVest, has your back. How? Through the LearnVest Program. First, you'll take stock of where you stand today. Then, you'll create your customized 50/20/30 plan. 50/20/30 simply refers to the percentage breakdown of how to spend your take-home pay each month. The 50 gets the essentials out of the way so you don't have to stress about them. The 20 sets your foundation for the future, then the 30 is left to spend on the things that bring happiness to your life. By the time you're finished reading this book, you'll walk away with a financial game plan tailored to your priorities, your hopes and dreams, and your lifestyle. And, because von Tobel and the team at LearnVest are experts at financial planning in the online era, you'll also learn how to integrate your financial plan into your mobile, social, digital life. Like your own personal financial planner between two covers, this book will set you up for a secure, worry-free money future, without having to give up things you love. So toss those old-school financial guides out the window, and get ready to start living your richest life.

The volume reviews various aspects of HRT and breast cancer, the physiology of the menopause, the current use of HRT in practice, osteoporosis and epidemiology and presents results from a range of European, American and Australian studies on the role of breast cancer and HRT, finishing with an overview of benefits, use and cost-effectiveness and a general summary. The book represents a definitive statement of current knowledge in this field and an informative update on the implications of recent research.
