Dead in the Water Bruce Shoemaker, William Robichaud, 2018-06-19 An urgent call for reassessment of policies supporting very large infrastructure projects in developing countries. This case study examines the planning, implementation, and unexpected outcomes--for both the local people and the environment--of one of the largest dams in Southeast Asia, which the World Bank promoted as a new model of sustainable development.

Imperial Nature Michael Goldman, 2008-10-01 Why is the World Bank so successful? How has it gained power even at moments in history when it seemed likely to fall? This pathbreaking book is the first close examination of the inner workings of the Bank, the foundations of its achievements, its propensity for intensifying the problems it intends to cure, and its remarkable ability to tame criticism and extend its own reach. Michael Goldman takes us inside World Bank headquarters in Washington, D.C., and then to Bank project sites around the globe. He explains how projects funded by the Bank really work and why community activists struggle against the World Bank and its brand of development. Goldman looks at recent ventures in areas such as the environment, human rights, and good governance and reveals how—despite its poor track record—the World Bank has acquired greater authority and global power than ever before. The book sheds new light on the World Bank's role in increasing global inequalities and considers why it has become the central target for anti-globalization movements worldwide. For anyone concerned about globalization and social justice, *Imperial Nature* is essential reading.

Marriages Designed In Heaven Gaylon West, 2015-01-18 The subject of marriage is a timely subject. The Bible simply defines marriage as a man takes a woman. Happiness and well-being in marriage is based on a specific design. This design along with society's mores, civil government expectations, and ecclesiastical laws and fantasies are addressed. Jesus' message is compared and/or contrasted with Moses, the Prophets, the Pharisees, the Apostles, and Medieval church leaders. Over 40 translations of the Bible were consulted in addition to comparing the ancient Hebrew with its Greek equivalents through interlinears, word studies, lexicons, dictionaries, textual variants, and scholastic articles and comments. The appendix gives the history of Christendom's changing positions on marriage, divorce, and remarriage.

Global Tuberculosis Control World Health Organization,2009 This report is WHO's thirteenth annual report on global tuberculosis (TB) control in a series that started in 1997. It presents WHO's latest assessment of the epidemiological burden of TB (numbers of cases and deaths), as well as progress towards the 2015 targets for global TB control that have been established within the context of the Millennium Development Goals (MDGs). It also includes a thorough analysis of implementation and financing of the WHO's Stop TB Strategy and the Stop TB Partnership's Global Plan to Stop TB, since in combination these have set out how TB control needs to be implemented and funded to achieve the 2015 targets. The report gives particular attention to the period 2006-2009, but selected epidemiological, implementation and financial data are presented for previous years as well. This includes epidemiological data back to 1990 and financial data back to 2002. Bringing together data reported by 196 out of 212 countries and territories in 2008, as well as data collected from these countries and territories in previous years, *Global Tuberculosis Control 2009* is the definitive source of information about the national and international response to the worldwide TB epidemic.
