Student engagement in Europe: society, higher education and student governance Manja Klemenčič,Sjur Bergan,Rok Primožič,2015-05-27 Democratic institutions and laws are essential, but they cannot bring about democracy on their own. They will only function if they build on a culture of democracy, and our societies will not be able to develop and sustain such a culture unless education plays an essential role. Student engagement is crucial: democracy cannot be taught unless it is practised within institutions, among students and in relations between higher education and society in general. This 20th volume of the Council of Europe Higher Education Series demonstrates the importance of student engagement for the development and maintenance of the democratic culture that enables democratic institutions and laws to function in practice. This volume covers three aspects of student engagement that are seldom explored: its role in society through political participation and civic involvement; its place in higher education policy processes and policy-making structures; and how student unions represent the most institutionalised form of student engagement. The authors are accomplished scholars, policy makers, students and student leaders.

International Encyclopedia of Hospitality Management 2nd edition Abraham Pizam,2012-06-25 The International Encyclopedia of Hospitality Management is the definitive reference work for any individual studying or working in the hospitality industry. There are 185 Hospitality Management degrees in the UK alone. This new edition updates and significantly revises twenty five per cent of the entries and has an additional twenty new entries. New online material makes it the most up-to-date and accessible hospitality management encyclopedia on the market. It covers all of the relevant issues in the field of hospitality management from a sectoral level (lodging, restaurants/food service, time-share, clubs and events) as well as a functional one (accounting and finance, marketing, strategic management, human resources, information technology and facilities management). Its unique, user-friendly structure enables readers to find exactly the information they require at a glance — whether they require broad detail that takes a more cross-sectional view across each subject field or more focused information that looks closely at specific topics and issues within the hospitality industry today.

One Acre and Security Bradford Angier,2017-09-15 A passport to freedom that shows how to find fun, food, shelter, and income on land that may be within easy-driving distance of the city and suburbs. Why work a lifetime, asks Angier, to accumulate enough money to retire from the rat race during the last, least active years of life, when a little ground can provide healthful, relaxed living—now—and income too? One Acre and Security explains how "three-squares-a-day" and money to spend can come from the earth with instructions on: sheep or pig farming, raising bees for honey, keeping dairy herbs of cows or goats, making money with herb culture, raising and selling rabbits and earthworms, running a poultry farm, raising fish, frogs, and turtles for profit and fun. Angier, the man who has done it all himself, shares too what he has learned about some of the ways to eat from nature's free banquet table, how to stretch country-living with hikes on famous trails or on any untrammeled path, where to find the best hunting and fishing, and how to catch bigger, healthier fish. "This book is written for those who want to move—not to the distant wilderness—but just far enough away from the smog and the screaming traffic to be where meat will be theirs for the raising, fish for the catching, fruit and vegetables for the picking, fuel for the cutting, home for the satisfaction of building…breathing cleaner air, beholden to none, doing what they want to do most and giving it their best," says Bradford Angier in One Acre and Security…

Fan Fiction and Fan Communities in the Age of the Internet Kristina Busse,2014-09-17 Fans have been responding to literary works since the days of Homer's Odyssey and Euripedes' Medea. More recently, a number of science fiction, fantasy, media, and game works have found devoted fan followings. The advent of the Internet has brought these groups from relatively limited, face-to-face enterprises to easily accessible global communities, within which fan texts proliferate and are widely read and even more widely commented upon. New interactions between readers and writers of fan texts are possible in these new virtual communities. From Star Trek to Harry Potter, the essays in this volume explore the world of fan fiction--its purposes, how it is created, how the fan experiences it. Grouped by subject matter, essays cover topics such as genre intersection, sexual relationships between characters, character construction through narrative, and the role of the beta reader in online communities. The work also discusses the terminology used by creators of fan artifacts and comments on the effects of technological advancements on fan communities. Instructors considering this book for use in a course may request an examination copy here.

Community, Competition and Citizen Science Asst Prof Anne Holohan,2013-12-06 Drawing on face-to-face and online ethnographic, survey and interview data with participants in distributed computing projects around the world, this book sheds light on the organizational and social structures of voluntary distributed computing projects, communities and teams, with close attention to questions of motivation in projects that offer little or no traditional forms of reward, either financially or in terms of participants' careers. With its focus on non-market, non-hierarchical cooperation, this book is a case study of networked individuals around the world who are part of a new social production of information.

Pirates of Pensacola Keith Thomson,2005-04 The Cooke and Hood families have been at each other's throats since the Spanish Main days. The latest chapter in their piratic rivalry takes place in 2004, when an old treasure map turns up. None of this seems to matter to Morgan Cooke, a cowardly, landlubbing accountant entirely ignorant of his heritage until his estranged father, Isaac, in need of crewmen, kidnaps him and thrusts him into the fray. When Morgan wakes up on a boat in the middle of the Caribbean, he learns that piracy still flourishes, albeit with far more discretion than in the old days--pirates disguise their fast boats as shrimpers or tugs--but with no less bloodshed. Judging even a shot at riches vastly preferable to a return to his lonely, fluorescent-lit work station existence, Morgan pierces his ear, dons the eye patch and peg leg, and set sail for glorious adventure.

Not by Bread Alone Sjur Bergan,2011-01-01 Not by bread alone gathers essays on higher education, including some written especially for this book. They cover three key areas: the missions of higher education, public responsibility and qualifications. Together, these essays spell out a view of higher education as a key factor in developing modern societies built on the fundamental Council of Europe values of democracy, human rights and the rule of law. They also underline the key role of higher education in developing the ability of our societies to conduct intercultural dialogue. To fulfil its role, higher education needs to prepare for citizenship as well as for employment, for personal development as well as for the development of a broad knowledge base. Our vision of higher education and its multiple purposes must be reflected in the way we view qualifications. We also need to take a close look at how the public responsibility for higher education and research can best be exercised in a society with many actors, all of which have their own legitimate agendas. In this situation, public authorities have an overall responsibility for coherent education policies.

The American Citizen Charles Fletcher Dole,1892

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master ś death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London ś most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.
