**William B. Parsons**

**A Life Less Ordinary** John Hodge,1997 He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

**Semi-Supervised and Unsupervised Machine Learning** Amparo Albalade, Wolfgang Minker,2013-01-24 This book provides a detailed and up-to-date overview on classification and data mining methods. The first part is focused on supervised classification algorithms and their applications, including recent research on the combination of classifiers. The second part deals with unsupervised data mining and knowledge discovery, with special attention to text mining. Discovering the underlying structure on a data set has been a key research topic associated to unsupervised techniques with multiple applications and challenges, from web-content mining to the inference of cancer subtypes in genomic microarray data. Among those, the book focuses on a new application for dialog systems which can be thereby made adaptable and portable to different domains. Clustering evaluation metrics and new approaches, such as the ensembles of clustering algorithms, are also described.

Being Spiritual but Not Religious William B. Parsons, 2018-05-30 In its most general sense, the term Spiritual but Not Religious denotes those who, on the one hand, are disillusioned with traditional institutional religion and, on the other hand, feel that those same traditions contain deep wisdom about the human condition. This edited collection speaks to what national surveys agree is a growing social phenomenon referred to as the Spiritual but Not Religious Movement (SBNRM). Each essay of the volume engages the past, present and future(s) of the SBNRM. Their collective contribution is analytic, descriptive, and prescriptive, taking stock of not only the various analyses of the SBNRM to date but also the establishment of a new ground upon which the continued academic discussion can take place. This volume is a watershed in the growing academic and public interest in the SBNRM. As such, it will

vital reading for any academic involved in Religious Studies, Spirituality and Sociology.
