A Shortcut Through Time George Johnson,2007-12-18 In this remarkably illustrative and thoroughly accessible look at one of the most intriguing frontiers in science and computers, award-winning New York Times writer George Johnson reveals the fascinating world of quantum computing—the holy grail of super computers where the computing power of single atoms is harnessed to create machines capable of almost unimaginable calculations in the blink of an eye. As computer chips continue to shrink in size, scientists anticipate the end of the road: A computer in which each switch is comprised of a single atom. Such a device would operate under a different set of physical laws: The laws of quantum mechanics. Johnson gently leads the curious outsider through the surprisingly simple ideas needed to understand this dream, discussing the current state of the revolution, and ultimately assessing the awesome power these machines could have to change our world.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui,2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry.The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations?For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights?Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

The Vendetta Honoré de Balzac,2022-10-03 Fans of 'The Godfather' trilogy and 'The Sopranos' will know a thing or two about vendettas. In Honoré de Balzac's The

Vendetta’ , tragic consequences are laid bare. What begins as a love story between two Corsican immigrants, Ginevra and Luigi, soon becomes a tale of misery. Luigi is the sole survivor of a blood feud with Ginevra's family. And Ginevra's father Bartolomeo is determined to finish the job by killing Luigi. However, when the love-sick couple marries, he has to stay his hand – but he cuts them off, leaving them poverty-stricken. As Bartolomeo has an epiphany, his daughter is locked in a life-and-death struggle as she gives birth. Will she survive? And will her father get the chance to make things right? 'The Vendetta' is an excoriating attack on the nature of honour and a tale of tragic romance that calls to mind 'Romeo and Juliet' by William Shakespeare. Honoré de Balzac (1799–1850) was a French novelist and playwright, most famous for a sequence of novels, collectively called 'The Human Comedy'. His signature style was a warts-and-all representation of post-Napoleonic French life, rich in detail and featuring complex, unfiltered characters. The style means Balzac is regarded as one of the pioneers of European literary realism. He is named as an influence on writers including Emile Zola, Henry James, Charles Dickens, and Gustave Flaubert. The first novel he published under his own name was 'Les Chouans' in 1829. In 1834 he hit upon the idea of grouping his novels together to record all of society. The result, over a period of years, was 'The Human Comedy', which comprised three categories: 'Analytic Studies'; 'Philosophical Studies'; and 'Studies of Manners'.
