The Evolution and Extinction of the Dinosaurs David E. Fastovsky,David B. Weishampel,2005-02-07 This 2005 edition of The Evolution and Extinction of the Dinosaurs is a unique, comprehensive treatment of this fascinating group of organisms. It is a detailed survey of dinosaur origins, their diversity, and their eventual extinction. The book can easily be used as a teaching textbook for a class, but it is also written as a series of readable, entertaining essays covering important and timely topics appealing to non-specialists and all dinosaur enthusiasts: birds as 'living dinosaurs', the new feathered dinosaurs from China, 'warm-bloodedness'. Along the way, the reader learns about dinosaur functional morphology, physiology, and systematics using cladistic methodology - in short, how professional paleontologists and dinosaur experts go about their work, and why they find it so rewarding. The book is spectacularly illustrated by John Sibbick, a world-famous illustrator of dinosaurs, commissioned exclusively for this book.

Birds of Venezuela Steven L. Hilty,2002-11-11 Venezuela has an immensely rich bird fauna, with 1,381 known species, many of them found nowhere else in the world. This spectacularly illustrated, comprehensive, and up-to-date guide brings together under one cover much of what is known about these species. Its users can identify all the birds in this vast country, from the Caribbean coast in the north to the Amazonian jungles in the south, from the Andes in the west to the Gran Sabana plateau in the east. With a completely new text by Steven Hilty, Birds of Venezuela is a greatly expanded and thoroughly reformatted successor to the pioneering Guide to the Birds of Venezuela (Princeton,1978). It includes sixty-seven beautiful color and black-and-white plates, most by the well-known artists John Gwynne and Guy Tudor, as well as numerous line drawings. The plates and drawings together--almost half of them never before published--depict most of Venezuela's bird species. Introductory chapters cover physical geography, climate, biogeography, vegetation and habitats, conservation, migration, and the history of ornithology in Venezuela. A gallery of forty-four stunning color habitat photos and color habitat and relief maps complete the opening section. Detailed range maps plot collection localities and sight records--a unique feature--for almost all species. Plumage descriptions are provided for each bird, as is extensive information on voice, behavior, and status. More than 800 bibliographic entries accompany the text, making this book an invaluable and broad-based reference to the avifauna of not only Venezuela but much of northern South America. Treating nearly 40 percent of the continent's bird species, Birds of Venezuela is the definitive resource for all birders with an eager eye on this splendorous country and the surrounding region. The Nehrus and the Gandhis Tariq Ali,2005 The Nehrus are a dynasty without precedent in the modern world; nowhere else and at no other time in recent history has a single family wielded such enduring and pervasive power over the country - and the electorate - they serve. From Jawaharlal Nehru to his daughter, Indira Gandhi, and from there, via Sanjay and Rajiv to - most recently - Sonia, this remarkable family have consistently established both the parameters and rhetoric of India's political development. In the eighties, Tariq Ali made several trips to India, meeting a wide range of political and public figures, including Mrs Gandhi, and leaders of both the Congress and Opposition parties. The Nehrus and the Gandhis, first published in 1985, was the result. Now updated to include the most recent chapters in India's political history, it remains as relevant as ever, offering an intricate and revealing portrait of power, seen through the continued rise - and eyes - of one family.

Islands of History Marshall Sahlins,2013-03-06 Marshall Sahlins centers these essays on islands—Hawaii, Fiji, New Zealand—whose histories have intersected with European history. But he is also concerned with the insular thinking in Western scholarship that creates false dichotomies between past and present, between structure and event, between the individual and society. Sahlins's provocative reflections form a powerful critique of Western history and anthropology.
