**No One Avoided Danger** John F Di Virgilio,Robert J Cressman,J Michael Wenger,2015-12-15 “No One Avoided Danger” is a detailed combat narrative of the 7 December 1941 Japanese attacks on NAS Kaneohe Bay, one of two naval air stations on the island of O’ahu. Partly because of Kaneohe’s location—15 air miles over a mountain range from the main site of that day’s infamous attack on Pearl Harbor—military historians have largely ignored the station’s story. Moreover, there is an understandable tendency to focus on the massive destruction sustained by the U.S. Pacific Fleet. The attacks on NAS Kaneohe Bay, however, were equally destructive and no less disastrous, notwithstanding the station’s considerable distance from the harbor. The work focuses on descriptions of actions in the air and on the ground at the deepest practical, personal, and tactical level, from both the American and Japanese perspectives. Such a synthesis is possible only by pursuing every conceivable source of American documents, reminiscences, interviews, and photographs. Similarly, the authors sought out Japanese accounts and photography from the attacks, many appearing

in print for the first time. Information from the Japanese air group and aircraft carrier action reports has never before been used. On the American side, the authors also have researched the Official Military Personnel Files at the National Personnel Records Center and National Archives in St. Louis, Missouri, extracting service photographs and details of the military careers of American officers and men. The authors are among the first historians to be allowed access to previously unused service records. The authors likewise delved into the background and personalities of key Japanese participants, and have translated and incorporated the Japanese aircrew rosters from the attack. This accumulation of data and information makes possible an intricate and highly integrated story that is unparalleled. The interwoven narratives of both sides provide a deeper understanding of the events near Kane'ohe Bay than any previous history.

The Film Handbook Geoff Andrew,1990 The Film Handbook examines the current status of filmmaking, how film is produced and distributed and its relation with today's digital and web-based climate.

The Films of Edgar G. Ulmer Bernd Herzogenrath,2009-05-20 Considered the 'King of Poverty Row,' Edgar G. Ulmer (1904-1972) was an auteur of B productions. A filmmaker with an individual voice, Ulmer made independent movies before that category even existed. From his early productions like The Black Cat (1934) and Yiddish cinema of the late 1930s to his final films of the late 1950s and early 1960s, Ulmer created enduring works within the confines of economic constraints. Almost forgotten, Ulmer was rediscovered first in the 1950s by the French critics of the Cahiers du Cinema and then in the early 1970s by young American directors, notably Peter Bogdanovich. But who was Edgar G. Ulmer? The essays in this anthology attempt to shed some light on the director and the films he created\_films that are great possibly because of, rather than despite, the many restrictions Ulmer endured to make them. In The Films of Edgar G. Ulmer, Bernd Herzogenrath has assembled a collection of essays that pay tribute to Ulmer's work and focus not only on his well-known films, including Detour, but also on rare gems such as From Nine to Nine and Strange Illusion. In addition to in-depth analyses of Ulmer's work, this volume also features an interview with Ulmer's wife and an interview Ulmer gave in 1965, in which he comments on actors Bela Lugosi and Boris Karloff, as well as fellow directors Tod Browning and James Whale.
