Border Leon Claire Metz,2008 Fourteen years in the making, this is a chronicle of the nearly two-thousand-mile international line between the United States and Mexico. It is an historical account largely through the eyes and experiences of government agents, politicians, soldiers, revolutionaries, outlaws, Indians, engineers, immigrants, developers, illegal aliens, business people, and wayfarers looking for a job. It is essentially the untold story of lines drawn in water, sand, and blood, of an intrepid, durable people, of a civilization whose ebb and flow of history is as significant as any in the world. Award-winning historian Leon Metz takes the reader from America's early westward expansion to today's awesome border problems of water rights, pollution, immigration, illegal aliens, and the massive effort of two nations attempting to pull together for a common cause.

Oudry's Painted Menagerie Mary Morton,2007-06-25 In the 1720s and 1730s, Jean-Baptiste Oudry established himself as the preeminent painter in France of hunts, animals, still lifes, and landscapes. Oudry's Painted Menagerie focuses on a suite of eleven life-size portraits of exotic animals from the royal menagerie at Versailles, painted by Oudry between 1739 and 1752. These paintings eventually found their way into the ducal collection in Schwerin, Germany. Among them is the magnificent portrait of Clara, an Indian rhinoceros who became a celebrity in mid-eighteenth-century Europe. Her portrait has been out of public view for more than a century, and it is presented here in its newly conserved state.

Can't Pay, Won't Pay Collective Debt,2020-06-23 Debtors have been mocked, scolded and lied to for decades. We have been told that it is perfectly normal to go into debt to get medical care, to go to school, or even to pay for our own incarceration. We’ve been told there is no way to change an economy that pushes the majority of people into debt while a small minority hoard wealth and power. The coronavirus pandemic has revealed that mass indebtedness and extreme inequality are a political choice. In the early days of the crisis, elected officials drew up plans to spend trillions of dollars. The only question was: where would the money go and who would benefit from the bailout? The truth is that there has never been a lack of money for things like housing, education and health care. Millions of people never needed to be forced into debt for those things in the first place. Armed with this knowledge, a militant debtors movement has the potential to rewrite the contract and assure that no one has to mortgage their future to survive. Debtors of the World Must Unite. As isolated individuals, debtors have little influence. But as a bloc, we can leverage our debts and devise new tactics to challenge the corporate creditor class and help win reparative, universal public goods. Individually, our debts overwhelm us. But together, our debts can make us powerful.
