The Organization of Transport Massimo Moraglio,Christopher Kopper,2014-12-05 Over the past ten years, the study of mobility has demonstrated groundbreaking approaches and new research patterns. These investigations criticize the concept of mobility itself, suggesting the need to merge transport and communication research, and to approach the topic with novel instruments and new methodologies. Following the debates on the role of users in shaping transport technology, new mobility research includes debates from sociology, planning, economy, geography, history, and anthropology. This edited volume examines how users, policy-makers, and industrial managers have organized and continue to organize mobility, with a particularly attention to Europe, North America, and Asia. Taking a long-term and comparative perspective, the volume brings together thirteen chapters from the fields of urban studies, history, cultural studies, and geography. Covering a variety of countries and regions, these chapters investigate how various actors have shaped transport systems, creating models of mobility that differ along a number of dimensions, including public vs. private ownership and operation as well as individual vs. collective forms of transportation. The contributions also examine the extent to which initial models have created path dependencies in terms of technology, physical infrastructure, urban development, and cultural and behavioral preferences that limit subsequent choices.

The Global Financial Crisis Tony Ciro,2016-03-16 This book offers commentary and analysis on the catastrophic events which have recently confronted the international economy in the modern era and contrasts the current situation with other financial crises. It includes case studies on Lehman Brothers in the US, Babcock & Brown in Australia, and Northern Rock in the UK. Asking many pertinent questions about the causes of the crisis and its effects, the book explores fundamental themes such as: asset bubbles and speculation in the financial and non-financial markets, systemic risks and the role of regulation, and regulators. It also reviews the response of international institutions such as the IMF, the World Bank, the US Federal Reserve, the EU Central Bank and the G20. The book assesses the triggers of the crisis and evaluates rescue packages and policy responses as well as suggesting reform of regulatory and supervisory frameworks to maintain banking and modern financial systems in the future.

A vueltas con la transformación digital de la cooperación jurídico penal internacional Leticia Fontestad Portalés,2022-04-05 Comprender y establecer soluciones jurídico-procesales factibles para la implementación de las TIC ś, tanto en la propia Administración de Justicia como en el concreto proceso penal transfronterizo, promoviendo un sistema eficaz de cooperación jurídico penal internacional, ha constituido el objeto de la investigación realizada en el Proyecto de Investigación PAIDI de la Junta de Andalucía: El uso de las TIC ś en la cooperación jurídica penal internacional: construyendo la sociedad digital andaluza del futuro (P18-RT-1059), que ofrece como resultado la publicación de esta segunda obra. En la primera obra colectiva vinculada al mencionado Proyecto de investigación titulada La transformación digital de la cooperación jurídica penal internacional, publicada también por la Editorial Aranzadi en el año 2021, se han abordado temas de gran actualidad e importancia, como los relativos a las pruebas transfronterizas en materia de cibercriminalidad, el acceso directo a bases de datos en la cooperación procesal transfronteriza, las innovaciones en el ámbito probatorio en el modelo europeo de cooperación jurídica penal internacional, el desarrollo de la plataforma iber@ como un instrumento de este proceso de digitalización de la cooperación penal internacional y la protección del derecho a la intimidad en el marco de las investigaciones tecnológicas en el proceso penal. Continuación de la investigación en el marco de este Proyecto de investigación se ofrecen en esta obra estudios sobre la transformación digital de la cooperación judicial penal con la implementación del sistema e-CODEX o el procedimiento para la obtención y transmisión de las pruebas electrónicas en la primera parte dedicada a la Cooperación judicial y nuevas tecnologías. Asimismo, se analizan los efectos del uso de las nuevas tecnologías en los sistemas de detención y entrega y en las órdenes de investigación y protección y ofrece un riguroso análisis crítico en relación con el uso de la inteligencia artif

The Senate Intelligence Committee Report on Torture (Academic Edition) Senate Select Committee On Intelligence,2020-02-18 The study edition of book the Los Angeles Times called, The most extensive review of U.S. intelligence-gathering tactics in generations. This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people. Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes: • Large, easy-to-read format. • Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text. • An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

World Drug Report 2008 United Nations Office on Drugs and Crime,2008-06-26 The Report continues to provide in depth trend analysis of the four main drug markets in its first section. In addition, to mark the one hundred year anniversary of the Shanghai Opium Commission, and one hundred years of international drug control, the Report contains an in-depth look at the development of the international drug control system. The Report also contains a small statistical annex which provides a detailed look at production, prices and consumption. As in previous years, the present Report is based on data obtained primarily from the annual reports questionnaire (ARQ) sent by Governments to UNODC in 2007, supplemented by other sources when necessary and where available. Two of the main limitations herein are: (i) that ARQ reporting is not systematic enough, both in terms of number of countries responding and of content, and (ii) that most countries lack the adequate monitoring systems required to produce reliable, comprehensive and internationally comparable data. National monitoring systems are, however, improving and UNODC has contributed to this process.

Techno-sexual Landscapes Ángel J. Gordo-López,Richard Cleminson,2004 At first sight, to ask how sex has been influenced by technology over time may appear to be a perplexing question. There is no doubt about the current importance of the new technologies of reproduction, sex-change operations, and the passion that electronic chat-rooms incite. However, it might be argued that this is a recent phenomenon and the past has little to reveal about

techno-sexual relations. This book draws on a number of examples of productive relations between technology and sexuality: the technical and sexual organization of medieval monasteries, the moral and erotic transgression afforded by the early wind and water mill, and the romances forged in the context of the train. The authors focus on three main eras: the medieval period (around the eleventh century with its monasteries as sites of technical innovation and heretical religious movements on the borders of Christianity); early modernity (from the time of the European discoveries and the creation of others including the natives of South America and the witch); and the present and the technologically-mediated future. What might be the connection between mills, navigation techniques and trains and the realm of sexuality? How does the government of sexuality and socio-economic relations in the sixteenth century across distances find resonance in cyberspace? Once the question of technology and sexuality has been placed in a long-term perspective, the reader is invited to reconsider relations often brushed aside, or devalued for their connection with low, popular or quotidian culture, practices and spaces. Acknowledging the uncomfortable social fact of techno-sexuality as a quotidian experience allows us to recuperate a range of often discounted or forgotten social actors, movements and landscapes.

Earth 2020: An Insider's Guide to a Rapidly Changing Planet Philippe Tortell,2020-04-22 Fifty years have passed since the first Earth Day, on 22 April 1970. This accessible, incisive and timely collection of essays brings together a diverse set of expert voices to examine how the Earth's environment has changed over this past half century, and what lies in store for our planet over the coming fifty years. Earth 2020: An Insider's Guide to a Rapidly Changing Planet responds to a public increasingly concerned about the deterioration of Earth's natural systems, offering readers a wealth of perspectives on our shared ecological past, and on the future trajectory of planet Earth. Written by world-leading thinkers on the front-lines of global change research and policy, this multi-disciplinary collection maintains a dual focus: some essays investigate specific facets of the physical Earth system, while others explore the social, legal and political dimensions shaping the human environmental footprint. In doing so, the essays collectively highlight the urgent need for collaboration across diverse domains of expertise in addressing one of the most significant challenges facing us today. Earth 2020 is essential reading for everyone seeking a deeper understanding of the past, present and future of our planet, and the role of humanity in shaping this trajectory.

Maelstrom Andrew Hastie,2018-02-14 A dangerous prophecy An altered timeline And a world of malevolent creatures The second book in Andrew Hastie's imaginative and original Infinity Engines series, Maelstrom is an action-packed, dystopian time travel adventure. Caitlin has disappeared and someone has changed history. Lost in an alternate reality, Josh must discover who has disrupted the timeline and try to fix the continuum. But there's a problem. The Order has become divided over an old manuscript which describes the Maelstrom - a chaotic realm filled with ancient gods that exists outside of the timestream. One faction believes that Josh will be the key to unlocking its power, the other that he needs to die to save them from oblivion. Josh must find Caitlin and a way into the maelstrom, discover the author of the book and rewrite the prophecy.

Leveraging Data for Student Success Laura G. Knapp,Elizabeth Glennie,Karen J. Charles,2016-09-29 People providing services to schools, teachers, and students want to know whether these services are effective. With that knowledge, a project director can expand services that work well and adjust implementation of activities that are not working as expected. When finding that an innovative strategy benefits students, a project director might want to share that information with other service providers who could build upon that strategy. Some organizations that fund programs for students will want a report demonstrating the program's success. Determining whether a program is effective requires expertise in data collection, study design, and analysis. Not all project directors have this expertise—they tend to be primarily focused on working with schools, teachers, and students to undertake program activities. Collecting and obtaining student-level data may not be a routine part of the program. This book provides an overview of the process for evaluating a program. It is not a detailed methodological text but focuses on awareness of the process. What do program directors need to know about data and data analysis to plan an evaluation or to communicate with an evaluator? Examples focus on supporting college and career readiness programs. Readers can apply these processes to other studies that include a data collection component.

Masquerade Austen Andrews,2002 In the aftermath of a time-rending cataclysm, the splintered world of Sosaria is now a patchwork of nations, ripped from the distant past, the present, and the far future. Three great kingdoms are on the brink of war. The wizards and knights of New Britannia prepare to join the warlike Juka in a battle against the mysterious, calculating Technocrats led by the twisted Lord Blackthorn.

Nation and Migration György Csepeli,Antal Örkény,2021-03-15 Nation and Migration provides a way to understand recent migration events in Europe that have attracted the world's attention. The emergence of the nations in the West promised homogenization, but instead the imagined national communities have everywhere become places of heterogeneity, and modern nation states have been haunted by the specter of minorities. This study analyses experiences relating to migration in 23 European countries. It is based on data from the International Social Survey Programme, a global cross-national collaborative exercise, with surveys made in 1995, 2003, and 2013. In the authors' view, a critical test for Europe will be its ability to find adequate responses to the challenges of globalization. The book provides a detailed overview of how citizens in Europe are coping with a xenophobia fueled by their own sense of insecurity. The authors reconstruct the competing sociological reactions to migration in the forms of integration, assimilation and segregation. Hungary receives special attention: the data show that people living there are far less closed and xenophobic than they might seem through the prism of a media-instigated moral panic.

Non-State Actors in the Middle East Galia Golan,Walid Salem,2013-11-26 As the recent revolutions in the Middle East have demonstrated, civil society in this part of the world is on the move. The increasingly important role of non-state actors — a phenomenon of globalization- has characterized developments throughout the region, affecting the struggle for democracy and for peace. This volume brings together scholars primarily form the region to analyse the varied activities and contributions of NGOs, the private sector and the new media, from Morocco to Iran, along with the involvement of diaspora groups. The chapter on facebook in the recent Egyptian revolution captures the role of this new media while the study on similar technology in Iran outlines the barriers raised by the authorities in the current struggles there. Even the fledgling process of democratization in Saudi Arabia is

driven by non-state actors while the veteran women's movements in the Maghreb serve as an example for the post-Arab spring era in those countries. Providing one of the first assessments of the role of non-state actors in the Middle East, this book will be essential reading for students of Political Science, Sociology and Civil Society, amongst others.

Opportunities and Challenges for Applied Demography in the 21st Century Nazrul Hoque,David A. Swanson,2013-01-13 Applied demography continues its rapid pace of evolution in concert with the emerging trends of the 21st century. One significant area of change is the extension of applied demography beyond the United States; this book includes material dealing with applied demography in Australia, Canada, Estonia, and Mexico. Opportunities and Challenges for Applied Demography in the 21st Century presents a score of selected papers from the second post-2000 national conference on Applied Demography, held in San Antonio, Texas, in January, 2010, under the sponsorship of the Institute for Demographic and Socioeconomic Research at The University of Texas at San Antonio. Coverage includes the assembly of data by government agencies, with a focus on issues facing the United States; demographic issues associated with globalization; business demography and health demography, as well as a section examining methodological advances in the areas of estimation and projection.
