Looking for Love in the Legal Discourse of Marriage Renata Grossi, 2014-09-01 This book examines the (in)visibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of modernity, and a dominant part of the Western marriage discourse, and considers how the ideologies of romantic love are (or are not) replicated in the legal meaning of marriage. This examination raises two key issues. If love has become central to people's understanding of marriage, then it is important for the legitimacy of law that love is reflected in both the content and application of the law. More fundamentally, it requires us to reconsider how we understand law, and to ask whether it is engaged with emotions, or separate from them. Along the way this book also considers the meaning of love itself in contemporary society, and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage, or whether it simply mirrors them. This book will be of interest to everyone working on love, marriage and sexuality in the disciplines of law, sociology and philosophy.

Media Mythmakers Benjamin Radford, 2010-05 This hard-hitting critique of media culture examines not only the ways in which the public is deceived, but the media's role in propagating those deceptions. Illustrations.

Managing Technologies and Automated Library Systems in Developing Countries: Open Source vs Commercial Options Bernard Dione, Réjean Savard, 2008-08-27 The theme of this meeting was the management of technologies in the context of developing countries, and in the light of recent developments concerning especially open source software and applications. The European Union and the Supra-Religion Robert Congdon, 2007-06 Dr. Congdon presents a compelling case that demonstrates how the European Union may in fact be the embryo of the restored Roman Empire. His Bible knowledge and analytical engineering background, coupled with his six-year EU residency, give him a unique perspective on world events and enable him to explore the possibility that the stage is being set for the final act in God's revealed plan for history. The Good Fight Peter Beinart, 2007 More than six years after the September 11 attacks, the close friendship forged between George W. Bush and John Howard remains. But in their nations more broadly, the common purpose has withered, drained by the sense that both men have failed the moral and intellectual challenges of that day. In this powerful and provocative book, Peter Beinart offers a new liberal vision, based on principles liberals too often forget: that America's greatness cannot simply be asserted, it must be proved. That American leadership is not American empire. And that liberalism cannot merely define itself against the right, but must fervently oppose the totalitarianism that stalks the Islamic world today. Peter Beinart's *The Good Fight* is a passionate rejoinder to the conservatives who have ruled Washington since 9/11. Beinart argues that America can again embrace

the creed that brought it greatness in the past, but only if liberals remember that democracy begins at home. Above all, it is a call for liberals to revive the spirit that once swept America, and inspired the world.

Hostile Takeover David Sirota, 2006-04-18 Do you ever wonder if there's a connection between the corruption scandals in the news and the steady decline in the quality of life for millions of Americans? Do you ever wonder what corporations get for the millions of dollars they pour into the American political system? Do you ever think the government has been hijacked by forces hostile to average Americans? Do you ever want to fight back? Millions of Americans lack health care and millions more struggle to afford it. Politicians claim they care, then pass legislation that just sends more cash to the HMOs. Wages have been stagnant for thirty years, even as corporate profits skyrocket. Politicians say they want to fix the problem and then pass bills written by lobbyists that drive wages even lower and punish those crushed by debt. Jobs are being shipped overseas, pensions are being cut, and energy is becoming unaffordable. And our government, more concerned about maintaining its corporate sponsorship than protecting its citizens, does nothing about it. In *Hostile Takeover*, David Sirota, a major new voice in American politics, seeks to open the eyes of ordinary Americans to the fact that corporate interests have undermined democracy, aided and abetted by their lackeys in our allegedly representative government. At a time when more and more of America's major political leaders are being indicted or investigated for corruption, Sirota takes readers on a journey that shows how all of this nefarious behavior happened right under our noses—and how the high-profile scandals are merely one product of a political system and debate wholly owned by Big Money interests. Sirota considers major public issues that feel intractable—like spiraling health care costs, the outsourcing of jobs, the inequities of the tax code, and out-of-control energy prices—and shows how in each case workable solutions are buried under the lies of lobbyists, the influence of campaign cash, and the ubiquitous spin machine financed by Big Business. With fiery passion, pinpoint wit, and lucid analysis, *Hostile Takeover* reveals the true enemies of reform and their increasingly sophisticated—and hostile—tactics. It's an essential guidebook for those of us tired of the government selling us out—and determined to take our country back. Also available as an eBook

The New Chinese Documentary Film Movement Chris Berry, Lu Xinyu, Lisa Rofel, 2010-06-01 The New Chinese Documentary Film Movement is a groundbreaking project unveiling recent documentary film work that has transformed visual culture in China, and brought new immediacy along with a broader base of participation to Chinese media. As a foundational text, this volume provides a much-needed introduction to the topic of Chinese documentary film, the signature mode of contemporary Chinese visual culture. These essays examine how documentary filmmakers have opened up a unique new space of social commentary and critique in an era of rapid social changes amid globalization and marketization. The essays cover topics ranging from cruelty in documentary to the representation of Beijing; gay, lesbian and queer documentary; sound in documentary; the exhibition context in China; authorial intervention and subjectivity; and the distinctive on the spot aesthetics of contemporary Chinese documentary. This volume will be critical reading for scholars in disciplines ranging from film and media studies to Chinese studies and Asian studies.

Radical Evolution Joel Garreau,2006-05-09 Taking us behind the scenes with today's foremost researchers and pioneers, bestselling author Joel Garreau shows that we are at a turning point in history. At this moment we are engineering the next stage of human evolution. Through advances in genetic, robotic, information, and nanotechnologies, we are altering our minds, our memories, our metabolisms, our personalities, our progeny--and perhaps our very souls. Radical Evolution reveals that the powers of our comic-book superheroes already exist, or are in development in hospitals, labs, and research facilities around the country--from the revved-up reflexes and speed of Spider-Man and Superman, to the enhanced mental acuity and memory capabilities of an advanced species. Over the next fifteen years, Garreau makes clear in this New York Times Book Club premiere selection, these enhancements will become part of our everyday lives. Where will they lead us? To heaven--where technology's promise to make us smarter, vanquish illness, and extend our lives is the answer to our prayers? Or, as some argue, to hell--where unrestrained technology brings about the ultimate destruction of our species?

The UnCivil University Gary A. Tobin,Aryeh Kaufmann Weinberg,Jenna Ferer,2009-05-16 This book documents the alarming rise in bigotry and bullying in the academy, using a range of evidence from first-hand accounts of intimidation of students by anti-Israel professors to anti-Semitic articles in student newspapers and marginalization of pro-Israel scholars. The UnCivil University exposes the unspoken world of double standards, bureaucratic paralysis, and abdication of leadership that not only allows but often supports a vocal minority of extremists on campus. Co-published with the Institute for Jewish & Community Research.

Paradise Past Robert W. Kirk,2012-10-24 In the 400 years from Magellan's entrance into Pacific waters to 1920, the lives of the people of the South Pacific were utterly transformed. Exotic diseases from Europe and America, particularly the worldwide influenza pandemic, were deadly for islanders. Ardent missionaries changed the belief systems and lives of nearly all Polynesians, Aborigines, and those Papuans and Melanesians living in areas accessible to westerners. By 1920 every island and atoll in the South Seas had been claimed as a colony or protectorate of a power such as Britain, France or the United States. Factors aiding this imperial sweep included European outposts such as Sydney, advances in maritime technology, the work of missionaries, a desire to profit from the area's relatively sparse resources, and international rivalry that led to the scramble for colonies. The coming of westerners, as this book points out, was not entirely negative, as head-hunting, cannibalism, chronic warfare, human sacrifice, and other practices were diminished--but whole cultures were irreversibly changed or even eradicated.

Probabilistic Safety Assessment in the Chemical and Nuclear Industries Ralph Fullwood,2000 In addition to presenting methodology, it shows how to identify accident vulnerability in the two industries. It reviews the causes of the two major nuclear accidents and many fatal accidents in the chemical industry, including Bhopal. Many examples of applications of PSA to both industries are presented.--BOOK JACKET. Problems are included at the end of many chapters with answers at the back of the book.--Jacket.

Needed by Nobody Tova Höjdestrand, 2011-03-15 Homelessness became a conspicuous facet of Russian cityscapes only in the 1990s, when the Soviet criminalization of vagrancy and similar offenses was abolished. In spite of the host of social and economic problems confronting Russia in the demise of Soviet power, the social dislocation endured by increasing numbers of people went largely unrecognized by the state. Being homeless carries a special burden in Russia, where a permanent address is the precondition for all civil rights and social benefits and where homelessness is often regarded as a result of laziness and drinking, rather than external factors. In *Needed by Nobody*, the anthropologist Tova Höjdestrand offers a nuanced portrait of homelessness in St. Petersburg. Based on ethnographic work at railway stations, soup kitchens, and other places where the homeless gather, Höjdestrand describes the material and mental world of this marginalized population. They are, she observes, not needed in two senses. The state considers them, in effect, as noncitizens. At the same time they stand outside the traditionally intimate social networks that are the real safety net of life in postsocialist Russia. As a result, they are deprived of the prerequisites for dealing with others in ways that they themselves value as decent and human. Höjdestrand investigates processes of social exclusion as well as the remaining world of waste: things, tasks, and places that are wanted by nobody else and on which human leftovers are forced to survive. In this bleak context, Höjdestrand takes up the intimate worlds of the homeless—their social relationships, dirt and cleanliness, and physical appearance. Her interviews with homeless people show that the indigent have a very good idea of what others think of them and that they are liable to reproduce the stigma that is attached to them even as they attempt to negotiate it. This unique and often moving portrait of life on the margins of society in the new Russia ultimately reveals how human dignity may be retained in the absence of its very preconditions.

The Bulldozer and the Big Tent Todd Gitlin, 2007-09-10 This book, by one of America's most intelligent and decent political writers, tells liberals how the conservative movement rose and fell, and how they could emulate its successes while avoiding its failures. --George Packer, author of *Blood of the Liberals* and *The Assassins' Gate* No one is better than Todd Gitlin at describing the crucial dynamic through which movements gain or lose political power. Justly celebrated for his seminal work on such dynamics during the 1960s, Gitlin now explains everything that's happened since, with passion and wisdom--and happily, because of Bushism's collapse, legitimate optimism about the future. --Michael Tomasky, Editor, *Guardian America* An impassioned yet realistic plea for Democrats and liberals to become more serious about politics. They would do well to follow his advice. --Alan Wolfe, Director, Boisi Center for Religion and American Public Life, Boston College A brilliant and indispensable book. Gitlin convincingly urges liberals to take seriously the greater difficulty the Democrats have forging cohesion among identity-based groups over the Republicans persuading the less diverse Republican base to bury disagreements in the drive for victory. Gitlin argues that Democrats will have to bite the bullet and unite under a big tent. It's a hard lesson for ardent newcomers to the movement to swallow. Gitlin is dead right. --Thomas B. Edsall, Special Correspondent, *The New Republic* This is an indispensable book by one of our most gifted public intellectuals. Todd Gitlin explains--with splendid scholarship, reporting, and wit--how the Bush machine debased our political life and how progressives, in all their variety, are struggling to build a new majority. It is the best guide we have to America's recent past and its possible future. --Michael Kazin, author of *A Godly Hero: The Life of William Jennings Bryan* and Professor of History, Georgetown University
