Tolkien's Lost Chaucer John M. Bowers,2019-10-10 Tolkien's Lost Chaucer uncovers the story of an unpublished and previously unknown book by the author of The Lord of the Rings. Tolkien worked between 1922 and 1928 on his Clarendon edition Selections from Chaucer's Poetry and Prose, and though never completed, its 160 pages of commentary reveals much of his thinking about language and storytelling when he was still at the threshold of his career as an epoch-making writer of fantasy literature. Drawing upon other new materials such as his edition of the Reeve's Tale and his Oxford lectures on the Pardoner's Tale, this book reveals Chaucer as a major influence upon Tolkien's literary imagination.

Who Really Cares Arthur C. Brooks,2007-12-04 We all know we should give to charity, but who really does? In his controversial study of America's giving habits, Arthur C. Brooks shatters stereotypes about charity in America-including the myth that the political Left is more compassionate than the Right. Brooks, a preeminent public policy expert, spent years researching giving trends in America, and even he was surprised by what he found. In Who Really Cares, he identifies the forces behind American charity: strong families, church attendance, earning one's own income (as opposed to receiving welfare), and the belief that individuals-not government-offer the best solution to social ills. But beyond just showing us who the givers and non-givers in America really are today, Brooks shows that giving is crucial to our economic prosperity, as well as to our happiness, health, and our ability to govern ourselves as a free people.

Freedom of Religion and Belief in Turkey Mine Yıldırım,Özgür Heval Çınar,2014-08-20 The protection of the right to freedom of thought, conscience and religion is one of the most basic tenets of a democratic society. This right is not only crucial for those who believe, but is also so for atheists, agnostics and sceptics who have no religious beliefs. It is also considered a cornerstone of a democratic society and is closely linked to pluralism, tolerance and open-mindedness. Turkey has been involved in an accession process in order to become a full member of the European Union (EU) since 2005. The Justice and Development Party (Adalet ve Kalkınma Partisi - AKP), which first formed a government after its election victory of 2002, pledged to introduce reforms and lift prohibitions. Hence, although the AKP has made significant progress towards meeting the political norms required for EU membership in its twelve years in power, there are many outstanding restrictions regarding the right to freedom of thought, conscience and religion which remain in place. This book provides an overview of recent developments pertaining to the protection of the right to freedom of religion and belief in Turkey, a country that in its constitution is defined as a democratic and secular state. As it is not feasible to examine all questions in one book, this study will confine itself to the most topical and urgent issues.

India-Africa Partnerships for Food Security and Capacity Building Renu Modi,Meera Venkatachalam,2021-03-08 This compendium showcases the ongoing trends and challenges in South-South cooperation between India and select countries in Africa, for achieving food security and poverty reduction. Scholars and practitioners share diverse perspectives on the role of India's development compact; aid, trade, private sector driven Foreign Direct Investments (FDIs), and concessional Lines of Credit (LOCs) to the agricultural and agro-processing sector in Africa. India-Africa cooperation also underscores that the sharing of knowledge and capabilities- technical and financial, along with North- South partnerships- through trilateral and multilateral mechanisms, can upscale agriculture and agro-processing sectors to centre stage the food security agenda and reduce poverty. Arguments made through the volume critically highlight hegemonic neo-liberal economic policies, structural adjustment programmes, import substitution practices, and the denationalization of food production, and illustrate the need for sustainable and cost effective agro-ecological practices, in the face of ongoing global challenges, such as the climate emergency and degradation of biodiversity and habitats. The axial questions addressed are; how does cooperation between countries of the Global South- India and Africa - impact intra-South trading, capacity building, and the investment landscape. Scientists, academics, development professionals, government officials, NGOs and international organizations, offer the readers; empirical case studies, policy perspectives, the limitations and challenges, and the way forward in an analytical manner.
