The New Market Leaders Fred Wiersema, 2012-12-11 Ask any manager to identify what's different in the new economy, and they will tell you that markets are more crowded than ever before. As a result, it is harder than ever to attract and retain customer attention. Increasingly, fresh role models are needed to determine what it takes to prosper when customers are the most precious resource. THE NEW MARKET LEADERS provides exactly that, by examining the exciting, unorthodox companies dominating the market and revolutionising business. In this eye-opening and cutting edge book, renowned business strategist Fred Wiersema offers totally new guidelines for measuring a company's success. He explains why traditional measures, such as size of the company or total sales, are no longer adequate markers of a company's prowess or future prospects. By providing new sales growth and market value indexes, Wiersema shows readers how to recognise the movers and shakers in the industry, whether internet-based or more traditional. He identifies today's 100 most influential global businesses and explains what makes them so powerful. In today's fast-paced economy, no investor or manager can afford to ignore the practical strategies and highly applicable insights offered in this important book.

The Dream Machine M. Mitchell Waldrop, 2018-09-25 The story of the man who instigated the work that led to the internet—and shifted our understanding of what computers could be. Behind every great revolution is a vision and behind perhaps the greatest revolution of our time, personal

computing, is the vision of J.C.R. Licklider. He did not design the first personal computers or write the software that ran on them, nor was he involved in the legendary early companies that brought them to the forefront of our everyday experience. He was instead a relentless visionary that saw the potential of the way individuals could interact with computers and software. At a time when computers were a short step removed from mechanical data processors, Licklider was writing treatises on human-computer symbiosis, computers as communication devices, and a now not-so-unfamiliar Intergalactic Network. His ideas became so influential, his passion so contagious, that Waldrop called him computing's Johnny Appleseed. In a simultaneously compelling personal narrative and comprehensive historical exposition, Waldrop tells the story of the man who not only instigated the work that led to the internet, but also shifted our understanding of what computers were and could be. Included in this edition are also the original texts of Licklider's three most influential writings: 'Man-computer symbiosis' (1960), which outlines the vision that inspired the personal computer revolution of the 1970s; his 'Intergalactic Network' memo (1963), which outlines the vision that inspired the internet; and The computer as a communication device (1968, co-authored with Robert Taylor), which amplifies his vision for what the network could become.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Laurel Nicholas Elmi,Adam Erace,2019-09-17 An Exquisite Seasonal Tasting Menu from the Heart of South Philly Laurel, the first book from restaurateur and Top Chef winner Nicholas Elmi, promises to be as engrossing and delicious as its restaurant namesake, a culinary stronghold in South Philly. Elmi's French background and training informed Laurel from the start, but Laurel is a true American restaurant with a modern feel. The acclaimed nine-course tasting menu is unmatched in Philadelphia. Elmi does seasonality just right. Fall brings Apple-Yuzu Consommé, Marinated Trout Roe, and Bitter Greens. Winter serves up Bourbon-Glazed Grilled Lobster, Crunchy Grains, and Apple Blossom, Spring is evidenced by Black Sea Bass, Peas, and Rhubarb Summer is distilled in Marigold-Compressed Kohlrabi, Buckwheat, and Cured Egg. The book is also a letter of gratitude to the restaurant's suppliers, whose work colors every dish they serve. Each chapter is a full nine-course tasting menu with accompanying cocktail, and almost as delicious on the page as the meal itself.
